2.20 STUDENT CONTACT ADDRESS (FG) RECORD

Required Collection Requests

The Student Contact Address (FG) Record and the relevant elements are required reporting for community schools during the Student Contact (S) Collection. Other EMIS reporting entities that participate in the National School Lunch Program are strongly encouraged to report the FG Record. This reporting allows for a more effective and efficient completion of the direct certification process.

General Guidelines

The Student Contact Address data describes the current address information for a student contact. The Local Education Agency (LEA) may report one or more record(s) for each contact reported.

The Student Contact (FF) Record and the corresponding Student Contact Address (FG) Record must match the EMIS Student ID and Contact Sequence Order Number.

The elements appear in alphabetical order.

☀ Address Line 1 Element

Record Field Number	FG080
Definition	Address line 1 for the contact being reported.

Reporting Instructions. Report the current address for each contact.

☀ Address Line 2 Element

Record Field Number	FG090
Definition	Address line 2 for the contact being reported.

Reporting Instructions. Report the current address for each contact.

☀ Address Type Element

Record Field Number	FG070
Definition	A code that represents the type of address being reported.

Valid Options

- 0123 - Mailing address
- 0765 - Physical location address
- 1073 - Other home address

Reporting Instructions. Report the applicable code for each contact reported.

☀ City Element

Record Field Number	FG100
Definition	Name of the city for the address being reported.

Reporting Instructions. Report the current city for each contact reported. City is not required for address lines with military address codes (APO/FPO).

☀ **Contact Sequence Order Number**

Record Field Number	FG060
Definition	A number that defines the order in which the contact should be contacted.

Valid Options

01-99

Reporting Instructions. Sequential number starting with 01. The Contact Sequence Order Number should be reported for each contact reported. The sequential number must represent the order in which the contact should be contacted. The element value must match the Contact Sequence Number (FF060) on the Student Contact (FF) Record. In general, primary contacts are those with the lowest sequence number.

Reporting Instructions. Report the value “***” for contacts whose mailing address is not located in the United States or if the address lines contain a military address codes (APO/FPO).

☀ **Effective Start Date**

Record Field Number	FG150
Definition	The date on which the reported student contact address became valid.

Valid Options

00000000	Default, the date the data is prepared for submission will be used
YYYYMMDD	Year, Month, Day

Reporting Instructions. For community schools, this element is only required to have a non-default value in instances where a community school needs to backdate an address update for their SOES reported data. Most often this occurs when a change in residency for a student is completed after the actual move occurred. When this date is reported with the default value, the address reported to SOES is considered the current address for the student enrollment as of the day the data is prepared for submission to the Department. When a date is provided, the address is applied to the records inclusive of that date. A contact may have more than one reported address as long as the Effective Start Date reported for each address is unique.

For all other organization types, only the latest record is needed for each student. Multiple records can be reported for a student, but the Department will only use one record for each student: either the record with the default value or, if no default value is found, then the record with the most recent date in this element.

☀ **Postal Code**

Record Field Number	FG130
Definition	Postal (Zip) Code for address being reported.

Valid Options
