REVISION HISTORY

The revision history sections of the EMIS Manual provide a means for readers to easily navigate to the places where updates have occurred. Significant changes and updates are indicated through underlined blue text for additions and red text with strikethroughs for deletions. Minor changes—such as typos, formatting, and grammar corrections or updates—are not marked.

2.9 STUDENT PROGRAM (GQ) RECORD

Required Collections

The Student Program (GQ) Record and the relevant elements are to be reported as follows.

Record Field Number	Data Element	Student (S) Trad			Student (S) CS/STEM		Grad (G)
		Initial	Midyear	Final	Initial	Final	
GQ060	Program Code	✓	✓	✓	✓	✓	✓

General Guidelines

A Student Program (GQ) Record is to be reported for all programs/services the student is participating in and/or receiving. The number of programs in which a student can participate is unlimited. Student program codes are reported during the designated collection requests by the appropriate entities. If the student is in the program and then withdraws from the district during the year, the program code for the student is still reported.

ESCs Not Required to Submit Student Data. With the exception of preschool student data, Educational Service Centers are not required to report student data. Therefore, ESCs are not required to report a Student Program (GQ) Record for school-age students receiving and/or participating in programs/services from an ESC employee(s). This includes those ESC services for which a school district contracts. It is the sending/resident district's responsibility to report the appropriate Student Program (GQ) Records for those students receiving services from an ESC employee.

Summer School Program Codes. Only the resident district reports the required summer data. If a student attends summer school programs in another district or entity, the resident district should request the information from the provider and report the summer program data for that student.

Only the Academic Intervention and Title I summer program codes are reported for summer program activity.

Major Program Code Groupings

205xxx Codes for Gifted Intervention Services not provided by Gifted Intervention Specialists. The 205XXX program codes include settings in which gifted programs and services are provided to gifted students by staff other than the Gifted Intervention Specialist (GIS). Gifted services/programs provided within these settings must be differentiated according to each student's needs and contained in the student's Written Education Plan (WEP). These services are reported on the Student Program (GQ) Record. The 205XXX program codes do not need to be linked to a staff member, therefore an employee ID is *not* required to be reported. Courses taught by a GIS who is considered the teacher of record are to be reported

with the appropriate gifted option in the **Course Type** **Student Population** Element and the appropriate subject code in the Subject Code Element on the Course Master (CN) Record.

Academic Extracurricular Programs. A combination of subject matter and experiences, usually not provided in the regular class, designed for pupils who wish to pursue satisfying individual/group interests and study in specific aspects of the subject matter provided in a regular class. Frequently emphasized are opportunities for pupils that will enrich their regular classroom experiences and personal lives.

Academic Intervention Programs. For purposes of EMIS reporting, the Ohio Department of Education and Workforce has defined academic intervention services (formerly called student intervention services) as supplemental instructional services that are based on reliable educational research and systematically offered to all students who are struggling with grade-level academic content. Supplemental instruction includes, but is not limited to, services such as tutoring, extended day instruction, additional classroom teachers/aides, summer school, etc. It does not refer to the additional help that is regularly provided on an ad hoc basis in the normal course of teaching. Clarification for Academic Intervention Program Codes is provided below in the Guidelines for Assigning Academic Intervention Codes.

Guidelines for Assigning Academic Intervention Codes.

- A. First, for a student to be coded as receiving “Academic Intervention” both of the following conditions must be met:
1. The student receiving the intervention is at risk of not scoring at least proficient on one or more of Ohio’s Achievement Tests, or has already scored at less than proficient on one or more of these tests.
- OR**
- The student in an underachieving accelerated learner.
2. The interventions received by the student are designed to reduce the non-academic or academic barriers to that student’s academic achievement. (For example, reducing non-academic barriers might include strategies that target a specific student’s problems with discipline, truancy, or mobility.)
- B. If both of the above are true, then two of the following three conditions also need to be true:
1. The intervention is in addition to the regular classroom activities conducted during the course of the school day or school year. (Summer school activities would meet this condition if at least one of the two conditions below is also true.)
 2. The intervention extends beyond the school’s normal course offerings and is unlikely to occur in the course of routine teaching and learning pedagogy (including those learning activities called for in IEPs).
 3. The student does not receive grades or credit accrual for the learning activities taking place within the intervention.

Athletics and Related Programs. Athletics and sports are activities offered to students on a voluntary basis that provide opportunities for developing physical and mental fitness in competitive situations.

Students are offered opportunities to improve their knowledge, attitudes, and judgments useful to enjoyment, citizenship, health, and safety. These activities are usually planned for enriching the regular classes and lives of the students.

Career-Technical Academic Intracurricular Programs. A combination of subject matter and experiences, usually not provided in a regular class, designed for pupils who wish to pursue satisfying individual/group interest in various career areas.

Connectivity. These program codes indicate whether a student has internet connectivity at their primary residence. For each student, report the level of internet connectivity for doing schoolwork within the student's primary residence.

The level of internet connectivity for a student may change over time; however, these program codes should be reported based on the district's assessment of a student's status at some point during the month of March. This assessment in March can be one-time only; once a district has assessed a student's status, the district does not need to update the status if it changes later in the month. If the district assesses a student's status in a month other than March, the district may use that information to report these codes instead of doing an additional assessment in March. The district only needs to report one applicable code.

Delivery Model. Some students may not be following the general delivery model in their district or building. Typically, this is a student who enrolls in a completely remote option offered by the district. Usually students who elect this option commit to that delivery model for a specific period of time. This period of time often follows the terms within the school—a semester, a trimester, or a quarter. Some districts may require students to make a full-year commitment to an online option.

Based on the time commitment made by a student, one or more program codes may need to be reported. Any combination of codes that covers the time a student was in remote learning may be reported. For example, if the student initially makes a first semester commitment and that code is reported, and then later makes a commitment for the second semester, the district can report both the first and second semester codes instead of having to remove the first semester code and add the full-year code.

Do not report these codes if the education model for the student's building is already remote and that is the only reason the student is remote; report only if the delivery model for the student is an exception to the building model. Do not report these codes for students who engage in ad-hoc remote learning for short periods of time, such as during an illness or quarantine related to COVID-19.

In addition, some students are receiving additional in-person instruction or services beyond the model reported for their building. These students will have a single program code (700150) reported, even if the services were provided for only part of the year.

Services are often but not always connected to an IEP, English learner, or other specific learning need. Such services would be regularly scheduled and would take place in a school facility at a time that student would not otherwise be expected to be in-person at the school. Do not report this code if the only activities where the student attends extra in-person are for assessment, co-curricular, or extracurricular activities.

Early College High School Program Codes. These program codes are to be used for students who are participating in Ohio Department of Education and Workforce (DEW) approved Early College High School Programs. The program code should be reported by the district that will issue the student diploma.

Education Option Program Codes. Experiences or activities that may be provided in accordance with board policy to supplement the regular school program are considered Educational Options. These options may be used as additional curricular tools to expand, enrich, and improve students' experiences and perspectives. If the educational option is a course that will provide credit toward graduation, [report via the Course Master \(CN\) Record](#) ~~use one of the course types~~ instead of a program code.

English Learner Programs. These programs include preschool, elementary and secondary school programs that meet the language development needs of English learners ([20 U.S. Code 7801](#)). The programs provide structured English language instruction,

Note. For every English learner, at least one English learner program code must be reported. More than one code can and should be reported as appropriate.

Extracurricular/Intracurricular Programs. Report for Grade Levels 7-12. Student activities under the guidance or supervision of qualified adults that are designed to provide opportunities for pupils to participate in such experiences on an individual basis, in small groups, or in large groups at school events, public events, or a combination of these for purposes such as motivation, enjoyment, and skill improvement. In practice, participation usually is not required and credit usually is not given. When participation is required, or credit given, the activity generally is considered to be a curricular course. Also included here are civic and social-oriented activities organized primarily to provide for pupil participation in experiences that relate to citizen involvement and school service.

Gifted Education Services Provided by Gifted Intervention Specialists. Settings in which gifted programs and services are provided to gifted students by the GIS. The GIS is not considered the “teacher of record” and does not assign grades. Gifted Services/ programs provided within these settings must be differentiated according to each student’s needs and contained in the student’s WEP. These services are required to be linked to the GIS and should be reported on the Student Program (GQ) Record with the employee ID of the GIS. Courses taught by GIS’s who are considered the teacher of record should continue to be reported with the appropriate gifted options in the ~~Course Type~~ [Student Population](#) Element and the appropriate gifted subject codes in the Subject Code Element on the ~~Staff~~ [Course Master \(CN\) Record](#).

Graduation-Related Seals. Graduation seals are part of the graduation requirements for students starting with the class of 2023. Students in earlier classes may also use the class of 2023 pathway, including seals, to graduate. We recommend that graduation seals be reported in EMIS as they are earned and each year thereafter until graduation. This helps ensure that if the student transfers to another school, that school will know that the student has earned (or is planning to earn) a particular seal.

Each of the seals has a program code that is reported if a student is planning to use that seal to meet graduation requirements. As part of their work with students, each school is to complete a graduation plan with the student. Part of this plan should include reviewing the available seals and planning for the experiences and courses needed to earn that seal. If a student’s graduation plan includes a particular seal, then the “Student Plans To Earn” code for that seal should be reported each year in EMIS unless the student changes

their plans to earn a different seal. Note that once a student earns a seal, the planning program code will be ignored and does not have to be removed from the student's reported data. In addition, if a student earns a seal that the school has never reported to the Department through a planning program code, the "Student Plans To Earn" program code does not have to be reported in EMIS.

Graduation seals, from the perspective of data reporting, fall into 3 general categories based on what is reported to the Department about the seal for each student through program codes, and what the Department can determine about the seal for the student based on other reported EMIS data. The 3 categories are:

- Only the plan to earn the seal is reported by program code; earning the seal is determined by the Department from other EMIS data,
- Both the plan to earn the seal, and actually earning the seal are reported by program codes, and
- Both the plan to earn and earning the seal are reported by program codes, and the seal has multiple parts and options, so additional program codes can also be reported.

For the first group, only the plan to earn the seal is reported. Once the Department sees that a student has earned a seal based on other reported EMIS data, the seal will be considered earned by the student in all Department calculations and will appear as earned where appropriate on EMIS reports. Graduation seals in this group include the following, with the primary data used to determine earning the seal in parentheses:

- Industry-Recognized Credential Graduation Seal (Industry Credential assessment records)
- College-Ready Graduation Seal (ACT/SAT assessment records)
- Honors Diploma Graduation Seal (diploma type reported in graduation reporting)

For the second group, both the plan and the completion of the seal are reported with program codes. Although data for some of the criteria for these seals is reported in EMIS, there are also options for the seal that are not reflected in EMIS data. This requires the following seals to be reported by program code when earned:

- Ohio Means Jobs Graduation Seal
- Military Enlistment Graduation Seal
- Technology Graduation Seal
- Citizenship Graduation Seal
- Science Graduation Seal
- Community Service Graduation Seal
- Student Engagement Graduation Seal
- Fine and Performing Arts Graduation Seal

For the final group, in addition to reporting a code for planning and earning, additional codes may be reported to document that one or more criteria for the seal have been completed. The only seal in this group is the Seal of Biliteracy Graduation Seal. Since this seal has multiple parts, program codes are available to document that a student has met the English language proficiency or proficiency in a world language parts. Neither of these interim program codes are required to be reported but provide a way to document progress towards the seal. When a student earns the seal, only the Seal of Biliteracy Code (608xxx) representing the proficient world language must be reported.

Hardware. These program codes indicate whether a student has hardware access for schoolwork at their primary residence. For each student, report the level of access to computing hardware for doing schoolwork within the student’s primary residence.

If the district provides devices to all students in one or more grade levels, reporting the grade levels where devices are provided on the Organization–General Information (DN) Record will eliminate the need to report hardware program codes for individual students.

The level of hardware access for a student may change over time; however, these program codes should be reported based on the district’s assessment of a student’s status at some point during the month of March. This assessment in March can be one-time only; once a district has assessed a student’s status, the district does not need to update the status if it changes later in the month. If the district assesses a student’s status in a month other than March, the district may use that information to report these codes instead of doing an additional assessment in March. The district only needs to report one applicable code.

Immigrant Education Program. Supplementary educational services for immigrant children enrolled in elementary and secondary public and nonprofit private schools. “Immigrant children” refers to children who were not born in the United States and who have been attending schools in one or more states for less than three complete academic years.

Interscholastic Athletics. School-sponsored activities, under the guidance and supervision of the local school district staff, that provide opportunities for students to pursue various aspects of physical education. Athletics normally involve competition between schools.

Pre-Kindergarten Experiences. This set of program codes (8000xx) should be reported for every kindergarten student upon entering kindergarten for the first time. This information likely will come from what the parent and/or guardian shares with the school when the child enrolls in kindergarten. These codes are not required to be reported for students who have already completed one or more years of kindergarten. The purpose of these codes is to report the student’s attendance at a preschool program in the 2 years prior to starting kindergarten.

The time that students attended a ~~Department-licensed~~ preschool that reports preschool students to EMIS does not need to be included. ~~Department-licensed~~ [These are](#) preschools ~~are~~ operated by public districts, community schools, Educational Service Centers, JVSDs, and the ~~State Schools for the Blind and Deaf (OSB and OSD)~~ [Ohio Deaf and Blind Education Services and licensed by the Ohio Department of Children and Youth or the Ohio Department of Education and Workforce.](#)

Multiple program codes can be reported; for example, if a child attended a Head Start when they were 3 years old and a private preschool when they were 4 years old, report both program codes.

Preschool. [For preschool students with disability conditions, itinerant services are those provided by intervention specialists or related services personnel that occur in the setting where the child is located.](#) All preschool students who are receiving itinerant services—regardless of whether they are receiving center-based services—should have one of the following program codes reported to indicate where the student is receiving services, how the services are being provided, and who is providing the services: 220205,

220210, or 220215. For example, if itinerant services are being provided by a speech language pathologist in the child's home, then 220215 would be reported.

In the case of preschool special education itinerant services, the entity that is providing the itinerant education is responsible for reporting the itinerant services program code on the Student Program (GQ) Record.

Reading Improvement and Monitoring Plan Intervention Programs. Reading Improvement and Monitoring Plans (RIMPs) are required for K-[54](#) students identified by the reading diagnostic assessment as not reading at grade level. Districts and community schools are required to report reading improvement interventions/programs provided during the school year in EMIS during the Midyear and End of Year Student (S) Collections and the SOES End of Year Student (S) Collection. Report one or more interventions for any K-[54](#) student identified as not on track for reading. Only those students on a RIMP implemented within 60 days of the diagnostic results can be reported with the RIMP Intervention Program codes. Students with improvement plans implemented more than 60 days after diagnostic result availability must be reported with other Academic Intervention codes.

Summer interventions associated with a Reading Improvement and Monitoring Plan are reported during the Midyear and End of Year Student (S) Collections and the SOES End of Year Student (S) Collection the following school year.

The following table gives general guidance regarding the collection requests in which Student Program (GQ) Records are to be reported to the Department. Any valid program codes for the current school year may be reported in this record, with the exception of Reading Improvement and Monitoring Plan Intervention Program Codes, which may only be reported for students participating in a Reading Improvement and Monitoring Plan.

School-Related Services. Included here are civic and social-oriented school-related activities organized primarily to provide for pupil participation in experiences that relate to governmental bodies, citizen involvement, and school service.

Special Education Related Services. Report the appropriate related service code(s) as indicated on the child's IEP. Multiple related service program codes may be reported for a child with a disability condition. The EMIS reporting entity (e.g., the resident district or the ESC) providing related services to a preschool child with a disability is required to report the appropriate special education related service program codes. For [kindergarten through grade 12](#) students reported with Disability Condition option 05–Speech and Language Impairments, program code 215013–Speech and Language Services is *not* reported.

Title 1. Title 1 program codes are to be reported by the sending/resident district for students where Title 1 services/programs are applicable.

A nonpublic student who receives services funded by Title I should be reported by the district with student status “6” and with the appropriate Title I program codes. These program codes must be reported by both Title I Targeted Assistance and School-wide Programs.

At least one Title I Subject Area program code must be reported for all Title I served students attending Title I Targeted Assistance Schools (TAS). Title I Supporting Area program codes can only be

reported for students who have also been coded with a Title I Subject Area program code. Title I program codes are not required for those students who attend a Title I School-wide Program, since eligibility criteria is not required to be applied to individual students. However, Title I funded buildings with schoolwide programs are required to report Student Program (GQ) Records for students where the following apply:

- Students court-placed in institutions for neglected and delinquent youth (“234001” or “234002”)
- Students served in Title I Supplemental Kindergarten (“233200”)
- Nonpublic Students served with Title I funds

Title I funds can only be used to supplement intervention services mandated by state law or assumed as a local responsibility. Only students in a Title I funded building (Targeted Assistance or School-wide) in School Improvement status who are from low-income families are eligible for Supplemental Educational Services. These services are defined as additional academic instructional services offered by Department-approved providers beyond the traditional school day.

If there are insufficient resources to serve all of the students who qualify, the priority is the lowest achieving students from low-income families. Students may be reported with both an academic intervention program code (formerly student intervention code) and a Title I program code. However, academic intervention services (formerly called student intervention) are not the same as the services provided by Title I. Academic intervention is required by law (Senate Bill 1) and therefore must be funded by non-Title I funds. Title I funds can only be used for services that are supplemental to, or in addition to, these intervention services.

Title I – Summer School Subject Areas. Title I funds can only be used to supplement intervention requirements mandated by state law, such as HB 3. Title I Supporting Area codes (232xxx) can only be reported for those students who have also been reported with a Title I Summer School Subject Area code (231xxx).

Title I – Supporting Areas. Report areas in which Title I funded support services were provided either by Title I funded personnel or through Title I funded services. Please note that Title I Supporting Area codes “232XXX” can only be reported for those students who also have also been reported with a Title I Summer School Subject Area Code “231XXX”.

Work-Based Learning Programs. Federal law defines work-based learning as “sustained interactions with industry or community professionals in real workplace settings, to the extent practicable, or simulated environments at an educational institution that fosters in-depth, firsthand engagement with the tasks required in a given career field, that are aligned to curriculum and instruction.”

For students who are not enrolled in CTE coursework, work-based learning experiences must be approved by the district’s Business Advisory Council. For students who are enrolled in CTE coursework, work-based learning experiences must be aligned to the CTE pathway approved by the department in which the student is enrolled. Students should accumulate 250 hours of work-based learning experience. Students may accumulate hours across multiple types of work-based learning experiences beginning when students are identified as ninth graders.

Experiences may include one or more of the following:

1. Off-Site Placement and Internship
2. Apprenticeship & Pre-Apprenticeship
3. Remote/Virtual Placement
4. Entrepreneurship
5. School-Based Enterprise
6. Simulated Work Environment

Please refer to the Work-Based Learning Document on the Department website for more detailed information.

Work Experience and Career Exploration Program (WECEP). The WECEP program code “305007” is required to be reported for a student if the answer to all of the following questions is “Yes”. If the answer to any of the following questions is “No”, do not report the WECEP program code.

- Is/was the student enrolled in a Career-Based Intervention program (subject code = 252525)?
- Is/was the student working?
- Is/was the student paid for working?
- Is/was the student 14 or 15 years of age?

The program provides for a course of study and actual job experience for students ages 14 and 15. School classes include academic courses stipulated by state requirements for graduation as well as instruction in job-related employability skill development with individualized or remedial instruction where needed.

Student Program Data Elements

The following portion of this section discusses each of the data elements within the Student Program (GQ) Record. The elements are organized alphabetically.

☀ **Employee ID Element**

Record Field Number	GQ070
Definition	Unique code assigned to the staff member.

Valid Options

A valid nine-character code.

Reporting Instructions. If the resident/educating district is contracting with an ESC or another EMIS reporting entity for a staff member to provide this program, then the educating/resident district is required to report the Credential ID or the state assigned Z ID of the staff member (employed by ESC/EMIS reporting entity) providing the program. The Employee ID Element for non-contracted staff will be the local number assigned to the employee by the district and reported on the Staff Demographic (CI) Record.

What to Report. This element is required to be reported with the [206xxx Gifted program codes](#). ~~following program codes:~~

- ~~• 206xxx Gifted program codes~~
- ~~• 31xxxx Work-Based Learning program codes~~

If not reporting ~~one of the above program codes~~ a [gifted program code](#), do not report the Employee ID Element.

☀ **Program Code Element**

Record Field Number	GQ060
Definition	The program in which a student participates and/or receives services.

Valid Options

Six-digit code As defined at the end of this section

Reporting Instructions. Report the appropriate program code for all programs and services in which a student participates. Valid program code options can be found at the end of this document.

If the programs listed do not exactly match the service being provided, select the one which best describes the program.

Community Schools. Community schools, not the resident school district, are responsible for reporting the appropriate program records for students who are enrolled in a community school; this includes both start-up and conversion community schools.

JVSDs. The district employing the staff member who operates the program must report Student Program (GQ) Records for students participating in Career-Technical Programs.

DYS and Ohio State Schools for the Blind and Deaf. These entities are responsible for reporting the appropriate program records for students who are enrolled and receiving such services/programs.

☀ **Program Enrollment End Date Element**

Record Field Number	GQ110
Definition	Last day a student is enrolled in a program.

Valid Options

00000000 Enrollment date not required or the program enrollment is still ongoing (default)
 CCYYMMDD Year, Month, Day (value must be within current fiscal year: July 1 - June 30)

Reporting Instructions. The Program Enrollment End Date is not required reporting for any student program codes. This date is not used by the Department.

☀ Program Enrollment Start Date Element

Record Field Number	GQ100
Definition	First day a student is enrolled in a program.

Valid Options

00000000 Reporting student's enrollment date not required (default)
 CCYYMMDD Year, Month, Day

Reporting Instructions. The Program Enrollment Start Date is not required reporting for any student program codes. This date is not used by the Department.

☀ Program Provider IRN Element

Record Field Number	GQ090
Definition	The district IRN of the entity in contract with the reporting school district.

Valid Options

Six-digit code Valid IRN of program provider
 ***** Not Applicable

Reporting Instructions. In most circumstances, the sending/resident district is responsible for reporting Student Program (GQ) Record(s), with the appropriate program data, for all programs/services the student is participating in and/or receiving. Preschool is an exception to this rule.

The Program Provider IRN Element is required to be reported if the school district has an agreement with an ESC or another EMIS entity to provide the service.

The Program Provider IRN Element will be used to connect the Contractor Staff Record reported by the contractor.

For additional reporting instructions with regards to reporting contracted staff, please see Staff Records, Section 3.5 Contractor Staff Employment (CJ) Record and Section 3.6 Contract Only Staff (CC) Record and general guidelines for reporting staff members in Section 3.1 Staff Records Overview.

If the school district is not contracting with any EMIS reporting entity for the programs and/or services in which the student is participating, then this field should be filled with "*****".

Reporting Career-Technical Programs. The district employing the staff member that operates the program must report Student Program (GQ) Records for students participating in Career-Technical Programs.

PROGRAM CODES

Gifted Education Services NOT Provided by a Gifted Intervention Specialist

Program Code	Description
205050	Regular Classroom with Grade Acceleration A gifted student is moved to a higher grade level than would normally be expected for the current year, such as a double promotion (e.g., move from third to fifth grade over the summer) at the end of the prior year or a mid-year promotion (e.g., start year in second grade, move to third grade during the year, and on to fourth grade after the summer) during the current year.
205052	Regular Classroom with Subject Acceleration A gifted student is placed in a classroom with other students who are at a higher grade level (e.g., a third grade student going to a fourth grade room for math) than would normally be expected. Report this code for a student in the year one or more courses in the specific subject sequence are skipped. This code can be reported for the same student in multiple years if the student skips courses in different subjects or has multiple skips in the same subject.
205055	Regular Classroom with Early Entrance to Kindergarten or First Grade Students are admitted to kindergarten or first grade before they have reached the district's usual cut-off age and date for kindergarten or first grade (e.g., a student with an October

Program Code	Description
	birthday would be eligible for early entrance even if the district's cut-off date was September 30).
205062	<p>Regular Classroom with Cluster Grouping</p> <p>Several gifted students are deliberately placed in one class and services are provided by the regular classroom teacher, who is receiving professional development per Ohio Administrative Code §3301-51-15. All regular classrooms do not meet the criteria for gifted services.</p>
205065	<p>Advanced Placement (AP) Course(s)</p> <p>College-level courses with corresponding examinations in multiple subject areas (e.g., mathematics, art, history). Credit for college may be obtained if a student takes in an AP examination sponsored by the College Entrance Examination Board and given in the spring of each school year. Not all AP courses meet the criteria for gifted services.</p>
205067	<p>International Baccalaureate Course</p> <p>Services through an International Baccalaureate course. Not all IB courses meet the criteria for gifted services.</p>
205070	<p>College Credit Plus Course(s)</p> <p>Students may enroll in college-level courses and receive college credit and credit toward graduation from high school at the same time. Note that all CCP courses do not meet the criteria for gifted services.</p>
205075	<p>Honors Class(es)</p> <p>Specific subject area classes which are differentiated from a regular (same) subject area class in terms of breadth, depth, and complexity. Note that all honors classes courses do not meet the criteria for gifted services.</p>
205080	<p>Educational Option(s)</p> <p>Defined in OAC 3301-35-01 and 06, Educational Options provide experiences for individual students who need services not available in the regular school setting. They may include independent study, mentoring, and distance learning (see OAC for complete list).</p>
205085	<p>Other Service</p> <p>Given that the above codes represent nearly all of the possible options for services allowed under OAC, use of this code should be rare, and is likely to generate a request for additional information from the district to document the nature of the "other service."</p>
205090	<p>Innovative Services</p> <p>Use this code only if your district has a Department-approved Innovative Service model. Innovative Services require an application to the Department for review and possible approval per Ohio Administrative Code §3301-51-15.</p>
205095	<p>Services Through a Trained Arts Instructor</p> <p>Services through a trained arts instructor. Not all courses from a trained arts instructor meet the criteria for gifted services.</p>

Gifted Education Services Provided by a Gifted Intervention Specialist

Program Code	Description
206060	<p>Regular Classroom with Cluster Grouping and GIS works directly with students in the cluster</p> <p>Several gifted students are deliberately placed in one class with a teacher who is receiving professional development per Ohio Administrative Code §3301-51-15 and agreed to provide differentiated curriculum and instruction for these clustered students within the regular classroom. A gifted intervention specialist co-teaches with the regular classroom teacher and is actively involved in helping the regular classroom teacher differentiate and deliver content to gifted students. The GIS is not the teacher of record.</p>
206070	<p>Resource/Pull-Out Room for Gifted Students led by GIS</p> <p>Students are regularly assigned (but less than 100% of time) to a resource room for gifted students instead of their regular classroom. The instruction is differentiated and delivered by a GIS who is not the teacher of record.</p>
206080	<p>Educational Option(s) with a GIS directly involved with student</p> <p>Defined in OAC 3301-35-01 and 06, educational options provide experiences for individual students who need services not available in the regular school setting. They may include independent study, mentoring, and distance learning. The GIS is overseeing the student's work for the educational option.</p>
206085	<p>Other Service directly involving GIS</p> <p>Given that the above codes represent nearly all of the possible options for services allowed under the OAC, use of this code should be rare and is likely to generate a request for additional information from the district to document the nature of the "other service" provided by the GIS.</p>
206090	<p>Innovative Services</p> <p>Use this code only if your district has a Department-approved Innovative Service model. Innovative Services require an application to the Department for review and possible approval per Ohio Administrative Code §3301-51-15.</p>

COORDINATED EARLY INTERVENING SERVICES

Coordinated Early Intervening Services

Program Code	Description
221005	Participation in Coordinated Early Intervening Services Student was counted among the district's targeted population to receive early intervening services during the current school year. The early intervening services were either mandated under IDEA Part B regulations due to district disproportionality or voluntary. If the early intervening services were mandated, comprehensive, coordinated early intervening services can be provided to assist both children with disabilities and children without disabilities ages three through twenty-one (preschool through grade 12). If the early intervening services are voluntary, coordinated early intervening services can be provided to children who are not currently identified as a student with a disability age five through twenty-one (kindergarten through grade 12). The early intervening was solely funded through IDEA Part B special education funding.

ENGLISH LEARNER

English Learner Program Codes

Program Code	Description
235014	<p>English Language Instructional Program Not Provided Due to Parental Refusal</p> <p>The English learner does not participate in a language instruction educational program designed to meet his or her English language needs.</p> <p>School districts are required to take affirmative steps to meet the special language needs of English learners by providing effective language instruction educational programs. This code is to be used for English learners whose parents or guardians request (in writing) that their English learner not participate in the district's specially-designed program for English learners as described in the required parent notification letter of English learner identification.</p>
235015	<p>Language Instructional Program Not Provided by District</p> <p>District may be in violation of Title VI and Elementary and Secondary Education Act (ESEA).</p>
235017	<p>Dual Language Program</p> <p>In this program, also known as two-way immersion, English learners receive instruction in English and languages other than English. Dual language programs provide integrated language and academic instruction for both native English speakers and native speakers of another language with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding.</p>
235019	<p>Content Classes with Integrated ESL Support</p> <p>This approach also is referred to as Sheltered Instruction Observation Protocol (SIOP), Specially Designed Academic Instruction in English (SDAIE), or, simply, sheltered instruction. These approaches make use of instructional materials, learning tasks, and classroom techniques from academic content areas as the vehicle for developing language, content, cognitive and study skills. English is used as the medium of instruction.</p>
235021	<p>Newcomer Programs</p> <p>Newcomer programs are separate, relatively self-contained educational interventions designed to meet the academic and transitional needs of students who are new to U.S. schools. Typically, students attend these programs before they enter more traditional interventions (e.g., English language development programs or mainstream classrooms with supplemental ESL instruction).</p>
235023	<p>English as a Second Language (ESL) Program</p> <p>Also referred to as English Language Development (ELD), ESL is a program of techniques, methodology, and special curriculum designed to teach English learner students English language skills, which may include listening, speaking, reading, writing, study skills, content vocabulary, and cultural orientation. ESL instruction is usually in English with little use of native language.</p>

Program Code	Description
235025	Transitional Bilingual Education (TBE) Program This program, also known as early-exit bilingual education, utilizes a student's primary language in instruction. The program maintains and develops skills in the primary language and culture while introducing, maintaining, and developing skills in English. The primary purpose of a TBE program is to facilitate the English learner's transition to an all-English instructional program while receiving academic subject instruction in the native language to the extent necessary.
235099	Other Programs Other English learner programs not covered by the other English learner program codes.

WORK-BASED LEARNING

Work-Based Learning Program Codes

Program Code	Description
305012	Internship Completion Qualifying internships are experiences in which the student is a paid employee or non-paid intern for a business or community partner. The student performs tasks and demonstrates skills necessary for the operation of the business or organization, as determined by the employer with additional guidance from an instructor or educational supervisor. In an off-site internship experience, work occurs at the physical location of the employer and can take place during school hours or when school is not in session. In a virtual or remote placement experience, the student is a paid employee or non-paid intern for a business or community partner, but work-based learning most often takes place outside of the physical location of the employer.
305014	Apprenticeship/Pre-apprenticeship Qualifying Apprenticeship & Pre-Apprenticeship experiences offer students an opportunity to participate in work-based learning experiences in designated occupations or industry sectors in preparation or formal registered apprenticeship training programs. Pre-apprenticeships follow recognition procedures as outlined by ApprenticeOhio, Ohio's State Apprenticeship Council. Apprenticeships have similar but distinct registration requirements through ApprenticeOhio to teach a skilled occupation pursuant to a registered apprenticeship agreement. Apprentices must be at least 16 years old, except when a higher minimum age standard is fixed by law.
305016	Apprenticeship Acceptance Providing evidence of acceptance into an apprenticeship program registered with the Ohio State Apprenticeship Council after high school that is restricted to participants eighteen years of age or older.
305018	Apprenticeship Completion Completing an apprenticeship registered with the Ohio State Apprenticeship Council in the student's chosen career field.

Reading Improvement and Monitoring Plan Intervention Program Codes

RIMP codes are only reported for students participating in a Reading Improvement and Monitoring Plan implemented within 60 days of reading diagnostic result availability

Program Code	Description
151505	<p>Summer Structured Literacy Programs</p> <p>A structured literacy program that continues to track and monitor the progress of the student once the school year ends. The program should be targeted toward the identified needs of the student.</p> <p>*This option is only to be used in addition to interventions offered during the school year. Replaces code 151500 Summer Reading Programs.</p>

Program Code	Description
152700	<p>Explicit Intervention in Writing – Focus on Foundation Skills / Transcription Explicit instruction in handwriting (manuscript, cursive), keyboarding, and spelling, following a scope and sequence of skills that aligns to the explicit phonics instruction.</p> <p>See page 31 in Ohio’s Plan to Raise Literacy Achievement (Transcription).</p>
152705	<p>Explicit Intervention in Writing – Focus on Composition Skills Explicit instruction in sentence structure - grammar, syntax, vocabulary usage, sentence types, organizing ideas for writing (including graphic organizers and oral rehearsal). This should focus on the function of words and connect to content area knowledge.</p> <p>See page 31 in Ohio’s Plan to Raise Literacy Achievement (Self Regulation and Text Generation)</p>
152710	<p>Explicit Intervention in Phonemic Awareness Phonemic awareness is the ability to hear, identify, and manipulate individual sounds (phonemes) in spoken words. This falls under the umbrella term of phonological awareness. This understanding improves students’ word reading and helps them learn to spell.</p> <p>Intervention focus for phonemic awareness uses an informal phonological awareness assessment to determine student current skill attainment and provides instruction and practice with feedback to build more advanced skills following a sequence (such as Ohio’s Learning Standards Foundational Skills, p. 28), moving from more basic skills such as segmenting and blending syllables in a word to more advanced skills such as substituting medial vowel sounds.</p> <p>See page 27 in Ohio’s Plan to Raise Literacy Achievement.</p>
152715	<p>Explicit Intervention in Sight Word Recognition Intervention designed to increase students' ability to recognize and read individual words using phoneme grapheme mapping of regular parts and explicit call out of irregular parts. They store the connected sounds and letters of words (along with their meaning) as instantly recognizable sight words.</p> <p>Sight word recognition instruction should focus on phoneme-grapheme mapping and not rely on practices such as the use of flash cards.</p> <p>See page 27 in Ohio's Plan to Raise Literacy Achievement. Replaces code 152575 Sight Word Instruction.</p>
152720	<p>Explicit Intervention in Decoding Early, explicit, and systematic instruction in phonics can help strengthen students’ decoding skills. Phonics instruction should follow a phonics scope and sequence.</p> <p>Intervention focus for phonics uses data from an informal phonics decoding survey to determine the highest level of decoding skills mastered and teach the next skills in the progression. Use of connected text (decodable readers) is critical to developing phonics skills.</p> <p>See page 27 in Ohio's Plan to Raise Literacy Achievement.</p>

Program Code	Description
152725	<p>Explicit Intervention in Comprehension</p> <p>Before focusing intervention efforts on comprehension, it is critical to ascertain if students need additional instruction in phonics, fluency, vocabulary, sentence structure and text structure.</p> <p>Intervention focus should be on a limited number of strategies that are intentional mental actions during reading that improve reading comprehension. They are deliberate efforts by a reader to better understand or remember what is being read and build knowledge. Teach students to question, visualize, monitor/clarify, infer, and summarize.</p> <p>Student knowledge of a subject, background knowledge and academic vocabulary are key contributors to overall comprehension.</p> <p>See page 28 in Ohio's Plan to Raise Literacy Achievement.</p>
152730	<p>Explicit Intervention in Fluency</p> <p>A fluency intervention is appropriate for students who are accurate in their reading of grade level texts, but lack automaticity. The three components of fluency – appropriate speed, accuracy, prosody – can be addressed through instructional strategies such as repeated readings, partner reading, choral reading, technology-assisted reading, timed reading, phrased reading, echo reading.</p> <p>See page 28 in Ohio's Plan to Raise Literacy Achievement.</p>
152735	<p>Explicit Intervention in Vocabulary</p> <p>Teach high utility words and academic language, including instruction in morphology (the meanings of roots and combining forms, prefixes, and suffixes) using explicit instructional routines. Words should be taught in clusters and connected to texts. In addition, there should be judicious review with multiple exposures of previously taught words.</p> <p>See page 28 in Ohio's Plan to Raise Literacy Achievement.</p>
152740	<p>Small Group Scaffolding of Complex Text</p> <p>It is important for all students, including those that are reading below grade level, to access complex texts daily. In order to do this, teachers can provide scaffolded instruction for students, which can include, but is not limited to: pre-teaching vocabulary, focus on language structure of complex sentences, teaching cohesive ties, teaching morphology, and decoding of multisyllabic words.</p> <p>See page 33 in Ohio's Plan To Raise Literacy Achievement.</p>

Program Code	Description
152745	<p>Explicit Intervention in Communication/Language Identify yes/no responses using multi-modal communication skills and diverse access features, including assistive technology, as needed, based on a learner profile. Teach the use of tools for accessing communication containing individualized features based on learner profile data. Teach the use of core vocabulary paired with fringe vocabulary to communicate across settings. Teach sound-symbol correspondences to develop spelling skills. Teach the use to symbols (icon sequences), and spelling (especially onsets) to find and access words for communication.</p> <p>See page 24 in the flash card titled “Oral Language” in Ohio's Plan To Raise Literacy Achievement.</p>
152750	<p>Multi-Modal Approach to Structured Literacy A multi-sensory, structured, explicit, systematic, sequential, cumulative, diagnostic and prescriptive instructional approach for reading and writing; which targets: phonemic awareness, sound-letter correspondence (phonics), spelling, handwriting, fluency, morphology, vocabulary and comprehension. Teaching steps are the following: synthetic and analytic presentation, opportunity for practice and teaching to mastery of a structured scope and sequence.</p> <p>This intervention strategy is not outlined in Ohio's Plan To Raise Literacy Achievement. High-Dosage Tutoring Codes for students with RIMPs

A high-dosage tutoring code should be reported for every student being reported with a RIMP code

<u>Program Code</u>	<u>Description</u>
<u>152800</u>	<p><u>Tutoring by approved vendor during the school day</u> <u>The student had a RIMP and was provided high-dosage tutoring at least three days a week or at least 50 hours over 36 weeks during the school day from providers on the Department’s High-Quality Tutoring Provider Vendor Directory.</u></p>
<u>152805</u>	<p><u>Tutoring by approved vendor outside of the school day</u> <u>The student had a RIMP and was provided high-dosage tutoring at least three days a week or at least 50 hours over 36 weeks outside of the school day from a provider on the Department’s High-Quality Tutoring Provider Vendor Directory.</u></p>
<u>152810</u>	<p><u>Tutoring locally approved during the school day</u> <u>The student had a RIMP and was provided high-dosage tutoring at least three days a week or at least 50 hours over 36 weeks during the school day from a locally approved provider.</u></p>
<u>152815</u>	<p><u>Tutoring locally approved outside of the school day</u> <u>The student had a RIMP and was provided high-dosage tutoring at least three days a week or at least 50 hours over 36 weeks outside of the school day from a locally approved provider.</u></p>
<u>152820</u>	<p><u>Student did not receive high-dosage tutoring</u></p>

Defining a Unique Record

Each EMIS record has specific fields that must be unique on each row of data reported to the Department. For the Student Program (GQ) Record, each combination of values in the following fields must be unique.

Required Fields	Number
EMIS Student ID	GQ050
Program Code	GQ060
