5.1 DISTRICT/BUILDING RECORDS OVERVIEW

General Guidelines

The District/Building Records sections of the EMIS Manual provide instructions for reporting district and building level records and elements to the Ohio Department of Education and Workforce.

OVERVIEW OF DATA

The following are general categories of data covered in the District/Building Records sections of the EMIS Manual.

- Grade Schedule (includes first day of school, hours per day, etc.)
- Organization – General Information (includes data regarding funding, professional development days, parent-teacher conferences, etc.)

Reporting the Building IRN

In most cases, the Building IRN Element is to be reported with the IRN of the individual building submitting a record. However, in some cases (i.e., community schools) the Building IRN Element and District IRN Element will be reported with the same IRN.

If student data records are assigned to the district, rather than a building, the district reports Grade Schedule (DL) Records for each grade level of those students; the Building IRN Element (DL050) is the IRN of the district. If any Organization – General Information applies at the district- rather than building-level, the district reports such records with the district IRN as the Organization IRN Element (DN050).

DISTRICT AND BUILDING LEVEL RECORDS

Below is a list of each record, its name, and its record number. Data elements for each of these records are found in the following sections of the District/Building Records.

Record Number	Record Name
DL	Grade Schedule
DN	Organization – General Information
