

EMIS Change 23-14: Update WorkKeys reporting guidance  
Public Comment open from March 7 through April 5

### **EMIS Change 23-14**

*This change updates reporting guidance in the Manual that refers to different versions of the WorkKeys assessment.*

## **2.8 STUDENT ASSESSMENT (FA) RECORD**

### ***Standard Assessments***

***WorkKeys Assessment (WorkKeys; WK).*** This job skills assessment is a measure of workforce readiness and employability for the purpose of high school graduation. This assessment should be reported by the district in which the student is enrolled when they are assessed or any district awarding a diploma to a student who is graduating via a pathway that requires this assessment.

The scoring and Assessment Areas for the current version of WorkKeys differ from the previous version. When reporting WorkKeys for prior fiscal years, be sure to report these elements according to the version being reported. ~~Students must complete all three sections from the same version. If students want to retest on a portion of the assessment, they must retake all sections on the current version.~~ Traditional districts, STEM districts, JVSDs, community schools, and state organizations can report this Assessment Type.

WorkKeys results are reported in the Other Accountability Assessments (A) Collection and the Graduate (G) Collection.
