### WORK-BASED LEARNING

Work-Based Learning Codes

Program Code	Description
305012	<b>Internship Completion</b> Qualifying internships are experiences in which the student is a paid employee or non-paid intern for a business or community partner. The student performs tasks and demonstrates skills necessary for the operation of the business or organization, as determined by the employer with additional guidance from an instructor or educational supervisor. In an off-site internship experience, work occurs at the physical location of the employer and can take place during school hours or when school is not in session. In a virtual or remote placement experience, the student is a paid employee or non-paid intern for a business or community partner, but work-based learning most often takes place outside of the physical location of the employer.
305014	<b>Apprenticeship/Pre-apprenticeship</b> Qualifying Apprenticeship & Pre-Apprenticeship experiences offer students an opportunity to participate in work-based learning experiences in designated occupations or industry sectors in preparation or formal registered apprenticeship training programs. Pre-apprenticeships follow recognition procedures as outlined by ApprenticeOhio, Ohio’s State Apprenticeship Council. Apprenticeships have similar but distinct registration requirements through ApprenticeOhio to teach a skilled occupation pursuant to a registered apprenticeship agreement. Apprentices must be at least 16 years old, except when a higher minimum age standard is fixed by law.
<a href="#">305016</a>	<b><u>Apprenticeship Acceptance</u></b> <u>Providing evidence of acceptance into an apprenticeship program registered with the Ohio State Apprenticeship Council after high school that is restricted to participants eighteen years of age or older.</u>
