Reporting Instructions. Include all dual enrollment credits earned through dual enrollment courses—offered through dual enrollment or statewide articulation agreement—that appear on a student's transcript or other official document, either of which is issued by the institution of higher education from which the student earned the college credit. Credits transcripted by a college after the student has left secondary education can be included on the record as long as the work (such as through a CTE course or an AP or IB course and test) was completed before the student graduated from secondary education.

Only report a record with 00.00 in this element if a student has no credits earned but needs a Student Graduation–Core Summary (GC) Record reported for elements GC080–GC110.
