

EMIS Change 25-128

This change updates the general guidelines in Section 2.7 Acceleration (FB) Record to clarify that this record is also reported to indicate that a student's acceleration has ended.

SECTION 2.7: STUDENT ACCELERATION (FB) RECORD

General Guidelines

The Student Acceleration (FB) Record is reported for one or more of the following reasons:

- Student was accelerated in the current school year in one or more of the valid subjects for acceleration collected via this record, or
- Student took a state assessment at an accelerated grade level, regardless of if the acceleration first occurred this year or in a prior year, or
- Student is no longer accelerated in one or more of the valid subjects (see the Accelerated Status Flag for reporting guidance).

“Accelerated in the current school year” means that the student received instruction at the accelerated grade level in the current year. If the decision to accelerate a student is made this year but will be implemented next year, then the Student Acceleration (FB) Record would be reported next year.

A separate record is required for each subject area in which the student is accelerated.

This record is not required for students who are not accelerated.
