

EMIS Release Notes – Updated Manifest

Collection Request Name: Midyear Student Collection (FY26)

Description of Change: Removed Level 1 validation DN.0037. Added new FS validations. Added RIMP_PROG_FLAG to Level 2 report. Updated FM records processing.

Planned Availability Date: 3/4/2026

Version Number: 2

Updated Version Requires:

- **Starting a new/restarting the current collection of data?** For some EMIS reporting entities
- **Running a new prepare of the collected data?** For some EMIS reporting entities
- **Replacing any data already submitted to ODE with a new submission?** For some EMIS reporting entities

“Updated Version Requires” Additional Information: None

Enhancements: Updated FM record processing to flag them as fatal instead of moving them to the Excluded Records list when attendance hours are submitted on any FS record.

Known Issues Resolved: Corrected an issue that caused a SQL error during the HQIM DN attribute checking process.

Outstanding Issues: None known

New or Updated Level 1 Validation:

- Removed validation DN.0037 because the EDUMODELDB attribute is no longer collected (see Change 26-11).
- Added fatal validation FS.0105 – When using the new Sent To Reason OR, the Sent To IRN 1 element is validated against a list of valid OhioRise organizations.
- Added fatal validation FS.0106 – When using the new Sent To Reason OR, the Sent To IRN 2 element is validated against a list of valid OhioRise organizations.
- Added critical validation FS.0107 – When using the new Sent To Reason OR, a Sent to IRN of 999999 is allowed but will need to be updated with a valid IRN.
- Added warning validation FS.0108 – When the Admitted From IRN is inactive and the Valid Max Year is more than 3 years ago.

New or Updated Reports: Added the RIMP_PROG_FLAG field to the (LTRC-001) Derive Reading Diagnostic Result Report.
