Report Overview

General Description and Significance

The data collected are used to determine the amount of Special Education Part-B IDEA and Early Childhood special education funds allocated to the state. Data submitted to the federal Office of Special Education are aggregated by disability, age, race, LEP status, gender, and poverty status. The December Childhood Count report contains detailed handicapped student counts by disability type, by ethnicity, and by age.

City, exempted village, local traditional public school districts and community schools are required to report data on the number of children with disabilities who are receiving special education and related services in accordance with an IEP on December 1, 2006. These data are to be submitted to the US Department of Education by February 1, 2007.

Header Information

The first area of the header describes information about the report generation. The upper left section names the program from which the report was generated and the data source. The middle information identifies the producer of the report and the report title. The upper right section states the page number, and the date on which the report was generated.

The second area of the header pertains to the recipient of the report. It identifies the district for which the report was produced, its IRN and COUNTY, and the phone number of the district.

That is followed by a line stating the disability type for the counts on a specific page.

That is followed by column headers that are the same for all pages except 5, 10, and the summary page:

- AGE
- CHILDREN CURRENTLY IN PROGRAM
- Then the list of Racial/Ethnicity Groups. The column headings correspond to the submitted codes of I, A, B, H, W, M, and not reported or invalid code in that order. The EXCLUDED/CODING ERR column contains students with Program codes 210041. 210042, 210043 and 211001 or records in which an error condition was found.

Detail Information

In brief, there are 15 pages to the report. Each lists data about a specific disability condition. Each page has the student counts by age rows and Racial/Ethnicity Group columns.

Students with PROGRAM CODES 210041 or 210042 or 210043 or 211001 and students whose records contain a PROGRAM CODE error are included in column nine.

PRIMARY HANDICAPPED:

Students with a 210XXX PRIMARY PROGRAM CODE that is not in the excluded list.

RELATED SERVICE:

Page 10: 3, 4, and 5-year-olds.

The data on this page count PRESCHOOLERS WITH A DISABILITY '11' for AGES 3, 4, and 5 and OTHER 5 YEAR OLDS.

The 5-year-old students are counted in two rows, those who are disabled preschoolers and other 5 year olds. Five-year-olds might be preschool or kindergarten students. Because the 5-year-olds who do <u>not</u> have a disability condition of "11" might have either a 217XXX program code or a 210XXX program code, there is a cross-walk between the two sets of codes.

New 217XXX code	Equivalent 210XXX code
