Revision Date January 22, 2007

Report Overview

General Description and Significance

This program creates a listing of files that each districts submit through an ITC during the course of a fiscal year, allowing the ITC to view a history of file submissions. It reports which detail or aggregate files have been processed on a specific date and tells which version of the detail or aggregation programs were used in the process. This report is generated during all reporting periods. A report is sent to the ITC each week that there are files submitted to ODE.

Together with the General Submission Status Report and the Data Status report, this report gives a distinct picture of the data that have been successfully submitted to the EMIS data system at the Ohio Department of Education.

Although it does not reflect the quality of the data and the appropriate correlation between files, it does inform the ITC that data have been processed and reports should be reviewed.

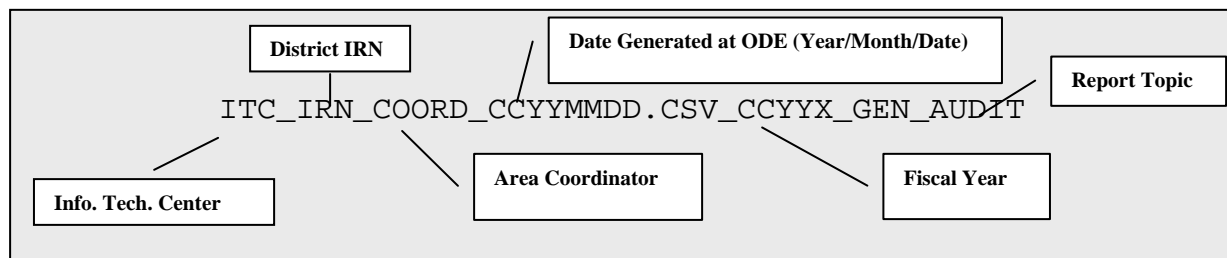

Tips for Reading This Document

- EMIS data elements are written in **SMALL CAPITAL LETTERS**.
- Report field names are written in **BOLD SMALL CAPITAL LETTERS**.
- Options (values) for each data element are indicated in *ITALICIZED CAPITAL LETTERS* and are enclosed in quotation marks.
- Record names are displayed in *italicized bold letters*.
- File names are displayed in **CAPITALIZED BOLD LETTERS**.
- CCYYP denotes the century and year and processing period.

Report Name and Timing

The file name for the report is:

DAS_IRN_COORD_CCYYMMDD.TXT_CCYYX_GEN_AUDIT; its components are described below. This report is produced during every reporting period.

C:\Documents and Settings\lanicka.shepherd-mas\Desktop\New Folder (2)\GEN AUDIT EXP.doc
Revision Date January 22, 2007

ODE Processing

Process Description

The file that is the basis for this report is created as the ITC data is moved to ODE during the weekly processing cycle. Files that pass the critical tests in the conversion program, e.g. correct version number, valid sort/sub type, contain the elements that are written to an **EMIS_AUDIT** file. This **EMIS_AUDIT** file contains the history of data submissions for this and prior fiscal years.

Once the audit file is created, the report program reads its data and moves the appropriate elements to the report output.

Data Source

The report elements are pulled from the **EMIS_AUDIT** file; its data comes primarily from the header record of successfully submitted aggregated, financial, or detail files that have been submitted by the district.

OEDS is the source of the district identifiers used on the report.

Submitted Data Used in Report

Element Name	Record Field #	File Name	Special Notes
DISTRICT IRN	Varies depending on file being processed	Varies, depending on file being processed	Taken from the header record of the submitted file
DISTRICT NAME		OEDS	
COUNTY OF DISTRICT		OEDS	
ITC NUMBER		OEDS	
AREA COORDINATOR		OEDS	

Derived Data Used in Report

Element Name	Record Field #	File Name	Field Value	Conversion factors
SORT TYPE	010 element of file	<i>Varies</i>	See Appendix A	Becomes EMIS_AUDIT Detail SORT TYPE or Aggregate SUB TYPE
FISCAL YEAR	020 element of file	<i>Varies</i>	CCYY	Becomes EMIS_AUDIT FY
REPORTING PERIOD	030	<i>Varies</i>	e.g. "K", "N"	Becomes EMIS_AUDIT

C:\Documents and Settings\lanicka.shepherd-mas\Desktop\New Folder (2)\GEN AUDIT EXP.doc
Revision Date January 22, 2007

Element Name	Record Field #	File Name	Field Value	Conversion factors
	element of file			REPORT PERIOD
PROCESS DATE			CCYYMMDD	Date of processing cycle
FILE DATE				File creation date
VERSION NUMBER			DET ##-### YY.MM.DD or AGGR ##-###:CCYY.MM.DD	From Aggregation process

Report Selection Criteria

Although this program can be run for a specific reporting period, a specific ITC , or any fiscal year beginning with 1998, the weekly processing command file sets these parameters as:

Reporting period ="A", All

Fiscal Year = current year

All Sites = "Y", Yes

Once these parameters are chosen, the program selects *Emis_Audit* records if they match these criteria.

Report Sample

Header Information

The header describes information about the report generation. The middle information identifies the report title and the parameters chosen to run the program. The upper right section states the date on which the report was generated and the page number.

Detail Information

The detail lines describe the data submitted by each district within the ITC, in a grouping of four lines. Each contains:

Row 1, district information

DISTRICT IRN valid district IRN
PERIOD Reporting period for files listed in this group, e.g., "K," "D"
FY CCYY of fiscal year being reported
DIST NAME As recorded in OEDS
COUNTY County in which reporting district lies
DDAS Number of the ITC serving the district
COORDINATOR Area Coordinator as recorded in OEDS

Row 2, detail files successfully submitted. See [Appendix A](#) for file acronyms and reporting periods in which they are required.

FIN/DIST List of the financial and district/building general information
STAFF List of the staff file acronyms

C:\Documents and Settings\lanicka.shepherd-mas\Desktop\New Folder (2)\GEN AUDIT EXP.doc
Revision Date January 22, 2007

Row 3, Aggregated files successfully submitted.

AGGR List of file acronyms

Row 4, Version Numbers

AGGR Version and filedate/process dates for aggregated files

Error Detection and Correction

This report can be used to support questions on whether or not a district's data were processed in a given EMIS weekly processing cycle. It can be used with the district's **.TXT_2006C_GEN_SUBMISSION_STAT** and **.TXT_2006X_GEN_DATA_STAT** to help a district determine which files might not have been processed and why.

If a district claims to have submitted a specific file, but this report does not have it listed, the district's GEN_SUB and DATA_STAT reports should be examined to determine the reason.
