Revision History

The revisions to this document listed in the table below.

Revision Date	Owner/Source	Description of Change
July 31, 2006		Created from report sample, program code; valid for
		FY07 October(K) reporting period

Report Overview

General Description and Significance

This program allows districts to determine what required files have been accepted by ODE. This report shows each district what reports still need to be successfully submitted to ODE and which affect accountability if they are not.

This program creates a hard copy of the submissions for each public school district in every report periods' weekly processing cycle. These reports are delivered to each district through the ITC of record.

Tips for Reading This Document

- EMIS data elements are written in SMALL CAPITAL LETTERS.
- Report field names are written in **BOLD SMALL CAPITAL LETTERS**.
- Options (values) for each data element are indicated in *ITALICIZED CAPITAL LETTERS* and are enclosed in quotation marks.
- Record names are displayed in *italicized bold letters*.
- File names are displayed in CAPITALIZED BOLD LETTERS.
- CCYYP denotes the century and year and processing period.

Report Name and Timing

The file name for the report is: DAS_IRN_COORD_CCYYMMDD.TXT_CCYYP_GEN_SUBMISSION_STAT; its components are described below. This report is produced during every reporting period; the P value will change for each.

District IR	N N	Date Generated at ODE (Yes	ar/Month/Date)	
⊥' Information Technology Center	$\overline{1} \overline{1} \overline{1} \overline{1}$	YYMMDD. TYP_CCYY?_?	???????~ Fiscal Year	Report Topic

ODE Processing

Process Description

The information on these reports comes from files that are created during the week-end processing cycle. They contain information identifying the files submitted to ODE and the dates on which they were submitted.

Data Source

Submitted Data Used in Report

The only fields that are reported exactly as they have been submitted by the district are the district IRNs.

Element Name	File Name	Field Value
AGGREGATION FILE DATE	Audit_process_date.rms	Date on which above were submitted
AGGREGATION FILE NAME	Submission_status_ccyyp.dat,	AMCC, ASSG, ACGR, or other
	Audit_process_date.rms	aggregated data
AREA COORDINATOR	Submission_status_ccyyp.dat	Two-digit number, e.g. 08
County	Submission_status_ccyyp.dat	County in which the district lies
DISTRICT CODE	Submission_status_ccyyp.dat	Four characters, e.g. 0000, 0865
DISTRICT IRN	Submission_status_ccyyp.dat,	6-digit, state-assigned IRN
	Audit_process_date.rms	
DISTRICT NAME	Submission_status_ccyyp.dat	District name as it is reported in OEDS
DISTRICT TYPE	Submission_status_ccyyp.dat	One character, e.g. 1, G
FINANCIAL FILE DATE	Audit_process_date.rms	Date on which above were submitted
FINANCIAL FILE NAME	Submission_status_ccyyp.dat,	DB, DR year-end files
	Audit_process_date.rms	
FISCAL YEAR	Audit_process_date.rms	CCYY
ITC NAME	Submission_status_ccyyp.dat	Name of data center through which
		reports are submitted
REPORTING PERIOD	Audit_process_date.rms	e.g. K, N
SUBMITTED FILE DATE	Audit_process_date.rms	Date on which above were submitted
SUBMITTED FILE NAME	Submission_status_ccyyp.dat,	CI, CK, DQ, DG or other non-
	Audit_process_date.rms	aggregated date

Derived Data Used in Report

Report Selection Criteria

The **SUBMISSION STATUS** file is read and its IRN is used to determine which **AUDIT PROCESS** records belong to the same district. Therefore there must be a DISTRICT IRN match between the two files. In order for a date submitted to be printed on the report, the two files must also have a match on the file names, submitted or aggregated.

Report Sample

Header Information

The first area of the header describes information about the report generation. The upper left section names the program from which the report was generated and the data source. The middle information identifies the producer of the report and the report title. The upper right section states the date on which the report was generated, the page number and total pages, and the reporting period to which the report belongs.

The second area of the header pertains to the recipient of the report. It identifies the district for which the report was produced, its IRN and COUNTY, the ITC and AREA COORDINATOR of the district.

That is followed by column headers indicating the data described on each detail line.

Detail Information

The fields reported on each detail line are:

	eras reported on eac	n actair n	ne are.	
٠	RECORD SORT	TYPE		Two or 4 character designation of the file
	> STATUS			One of five possible. The record sort types
				included will vary for each reporting period:
	\triangleright	Y	Data submitte	ed
	\triangleright	NS	Data not subr	nitted
	\triangleright	А	Data not subr	nitted and affects accountability
	\triangleright	Ν	Data may not	be required
	\triangleright	*	Submitted no	data for the reporting period
•	DATA SUBMITT	TED TO	ODE AS OF	Date on which ODE received the file;
				There should be a date with every Y status.

There is a special note at the bottom of the page that tells the number of processing weeks left in the current reporting period. It also describes the implications of any files whose status is "A".

The footnote also clarifies what data files are needed to create the aggregated files:

- YASG \leftarrow GI, GK
- AMCC \leftarrow CN, CI, CK
- ACGR \leftarrow CI, CK, CN, GI, GN ALSO GQ FOR PRESCHOOL COURSES
- ACVE ← CI, CK, CN, GI, GK, GN, GQ, GT + COURSES WITH TYPE DXX, PXX OR VXX
- PC \leftarrow GI, GQ

Error Detection and Correction

If there are any discrepancies between what a district thought they submitted and what is being reported as received at ODE, district personnel should check the aggregation errors.

If there are fatal warnings that were not corrected, the file should never have been sent to ODE and would show up as missing.

If the date of the file submission is earlier than the district anticipated, the reason may be the same, i.e., the latest submission was rejected because of fatal errors.

The district can find additional information about data submissions in the file .TXT_2007X_GEN_DATA_STAT. It is a report that is also distributed each reporting period.
