## Report Overview

### *General Description and Significance*

This report displays combined data from the Staff Demographic, Staff Employment, Contractor Staff Employment, Staff Course Master, Student Course, Student Gifted, and Student Program Records to present a comprehensive picture of gifted education staffing levels and services that are provided within a school district.

The report also provides a means for the district to review the reporting elements that directly impact the amount of funding received for a gifted unit.

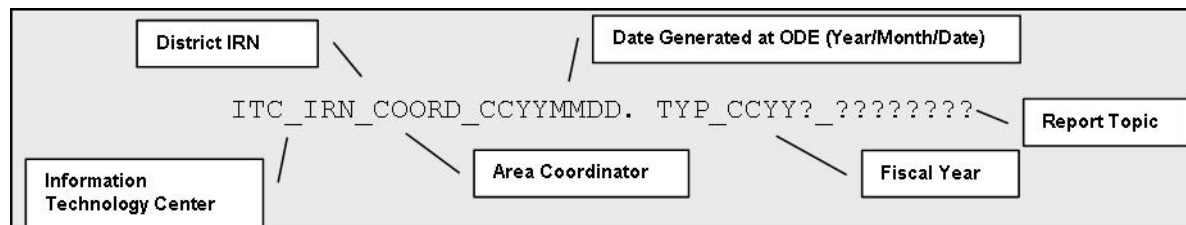

Within a district's report, there is one section of information for each included staff member. Coordinators and teachers are not treated differently in the report, as there are many staff members who serve in both roles (through multiple employment records). Contracted staff may appear on the reports for multiple districts.

#### Tips for Reading This Document

- EMIS data elements are written in **SMALL CAPITAL LETTERS**.
- Report field names are written in **BOLD SMALL CAPITAL LETTERS**.
- Options (values) for each data element are indicated in *ITALICIZED CAPITAL LETTERS* and are enclosed in quotation marks.
- Record names are displayed in *italicized bold letters*.
- File names are displayed in **CAPITALIZED BOLD LETTERS**.
- CCYYP denotes the century, year and processing period.

### *Report Name and Timing*

The file name for the report is **.TXT\_2007?\_STU\_GIFTED\_SERVICES** and the components are described below. This report is produced during the October (K) and Yearend (N) reporting periods.

## ODE Processing

### *Process Description*

Each week during the October (K) and Yearend (N) reporting periods, a report is created for any district with one or more staff members with a 999380 (Gifted and Talented) assignment area. Since gifted identification information is not reported in October, all students will be counted as **Gifted ID-???** for period N.

The data is extracted from Staff Demographics, Staff Employment, Contractor Staff Employment, Staff Course Master, Student Gifted, Student Course and Student Program Records as submitted by a school district.

### *Data Source*

The data elements printed on the report come from the *Staff Demographics, Staff Employment, Contractor Staff Employment, Course Master, Student Program, Student Gifted and Student Course Records* as submitted by the districts. OEDS elements are used to identify the recipient of the report and to ensure that reports are sent to the appropriate districts.

APPROVED UNIT COUNT			FTE of units awarded for this staff member

Element Name	Record Field #	File Name	Field Value
CERTIFICATION FLAGS			Certification status for the staff member for each of the corresponding assignment areas.
STUDENT COUNT		<b>STUDENT PROGRAM RECORD</b>	Total of all Student Program Records with this program code. For 206XXX codes, the total is broken down by staff ID and reporting districts.

### Report Selection Criteria

The 999380 assignment area (Gifted and Talented) is used to determine which staff to include in the report for a district. No other filters will be used. All courses taught by the staff member, not just the gifted education courses are reported. When reporting staff employment information, all records are to be listed, not just records with the 999380 codes. This report will assist district staff in ensuring that gifted education staff are appropriately assigned and reported.

### Report Sample

#### *Header Information*

The first area of the header describes information about the report generation. The upper left section names the program from which the report was generated and the data source. The middle information identifies the producer of the report and the report title. The upper right section states the date on which the report was generated, the page number and total pages, and the reporting period to which the report belongs.

The second area of the header pertains to the recipient of the report. It identifies the district for which the report was produced, its IRN and data submission dates of the district.

#### *Detail Information*

For the number of students enrolled in each course, the count will have 4 parts, and vary for October (K) and Yearend (N). The report is organized as follows:

- Staff Demo data for a staff ID is listed
  - Staff Employment data for this staff ID in this district is listed (could be multiple rows)
  - Contractor Staff Employment data for this staff ID- where district IRN is contractor or contracting IRN is listed (could be multiple rows)
  - Course Master and student count data for this staff ID in this district is listed (could be multiple rows)
  - A count of students with 206XXX program codes reported with this staff ID across all school districts
- The next staff member is listed until all 999380 staff in district are listed

- A headcount for each of the 205XXX program codes reported by this district is listed

If no records exist for a section, “No Records Found” will be printed under the section heading.

Since gifted identification information is not reported in October, all students will be counted in as **Gifted ID-???** for the October (K) reporting period. At yearend, certification flags and units will be blank, and headcounts will be reported appropriately.

## **Error Detection and Correction**

If there are any discrepancies between the report data and the numbers that the district believes it submitted to ODE, district personnel should check their aggregation error messages, their data submission reports, and other student reports.

If the certification flags do not agree with the district information, districts should refer to the Certification and Licensure Dictionary which can be found on the ODE Website. Please refer any and all licensure/certification questions to the Office of Educator Licensure.
