Revision History

The revisions to this document listed in the table below.

Revision Date	Owner/Source	Description of Change
August 15, 2006		Created from existing documentation, program, reports; valid for FY07 October (K) reporting period
January 22, 2007		Modified existing documentation to make valid for FY07 February (C) reporting period

Report Overview

General Description and Significance

The Staff Demo_Job Report is a summary of staff demographic and job data reported to the Ohio Department of Education via the Education Management Information System (EMIS). Reports are produced at the *district* level for all districts that submit data via EMIS. This report will be described in detail in the following pages.

There are four separate reports that are produced in this process: a standard report for certification personnel, a comma-delimited file for certification personnel, a standard report for classified personnel, and a comma-delimited file for classified personnel.

It is important for districts to verify staff data, so ODE has an accurate picture of what is actually occurring in the district. These data will be used at ODE in various ways: as a data source on the Local Report Card; on reports to policy-makers; and for funding decisions. A few specific examples of how districts can use this report are: to verify staff salaries; to confirm that staff positions and assignments are accurate; and to confirm that staff are assigned to the appropriate buildings.

Tips for Reading This Document

- EMIS data elements are written in **SMALL CAPITAL LETTERS**.
- Report field names are written in **BOLD SMALL CAPITAL LETTERS**.
- Options (values) for each data element are indicated in *ITALICIZED CAPITAL LETTERS* and are enclosed in quotation marks.
- Record names are displayed in *italicized bold letters*.
- File names are displayed in **CAPITALIZED BOLD LETTERS**.
- CCYYP denotes the century and year and processing period.

Report Name and Timing

There are four reports that are generated from the same program and distributed at the same time.

The file name for the certificated personnel standard report is: **DAS_IRN_COORD_CCYYMMDD.TXT_CCYY?_STF_DEMO_JOB_CERT**; its components are described below. This report is produced during the October (K) and February (C) reporting periods (“?” may be used to represent the appropriate reporting period when the report is produced for multiple periods).

The file name for the comma-delimited certificated personnel report is: **DAS_IRN_COORD_CCYYMMDD.CSV_CCYYK_STF_DEMO_JOB_CERT**; its components are described below. This report is produced during the October (K) and February (C) reporting period.

The file name for the classified personnel standard report is: **DAS_IRN_COORD_CCYYMMDD.TXT_CCYYK_STF_DEMO_JOB_CLASS**; its components are described below. This report is produced during the October (K) and February (C) reporting period.

The file name for the classified personnel comma-delimited report is: **DAS_IRN_COORD_CCYYMMDD.CSV_CCYYK_STF_DEMO_JOB_CLASS**; its components are described below. This report is produced during the October (K) and February (C) reporting period.

ODE Processing

Process Description

Each week during the October processing cycle, a COBOL program generates reports for the district's staff data as it has been received by ODE. Any district that submits data during that week should receive all four reports through its contracted ITC.

Although this program can be run with different options, the program is first run with
 Type of Position = "All"
 Type of Staff = "Certificated"
 Sort order = "District, School, Position Code"

The second run of the program uses the options
 Type of Position = "All"
 Type of Staff = "Classified"
 Sort order = "District, School, Position Code"

Data Source

The **Staff Demographic** and **Staff Employment** records are the basis for this report. (*Note: Only CTAE teachers are reported during the February (C)*). OEDS elements are also used to identify the recipient of the report and properly name the output files.

Submitted Data Used in Report

The following either appear directly on the report or are used in the report generation.

Derived Data Used in Report

The following elements appear on the CSV reports only, not on the standard reports.

Element Name	Record Field #	File Name	Value	CRITERIA
APPROVED UNITS		<i>Staff Job at ODE</i>		Value added to Staff Job file during intake of aggregated files, from approved units file
CREATED BY ODE FLAG		<i>Staff Job at ODE</i>	“N” if district submitted the record, “Y” if ODE created it	Value established during intake of aggregated files
CONTRACTOR FLAG		<i>Staff Job at ODE</i>	“N” initially, may = “Y” in contracted staff edit program	Value established during intake of aggregated files
SUBMITTED TO ODE DATE		<i>From program</i>	Processing date	From system date when files are processed

Report Selection Criteria

- Staff with POSITION STATUS = “P” or “U” are not included in the report.
- For the certificated personnel report, TYPE OF APPOINTMENT must be “1”, “3”, “4”, or “5”.
- For the classified personnel report, TYPE OF APPOINTMENT must be “2”.
- Validation routines are run to ensure that for each element data are a part of the list of options that are valid for that particular element. If data do not “pass” a check, a flag appears on the Demo_Job report.

The program checks to see:

- ✓ If age is less than 18 years OR greater than 74 a flag appears. (DATE OF BIRTH is subtracted from current year to calculate current age.) A valid DATE OF BIRTH must appear. The month must be 1-12 and the day must be 1-31 or else a flag appears.
- ✓ Is entry a valid option for EDUCATION LEVEL? ‘0’ (Non-degree), ‘1’ (Associate), ‘2’ (Bachelors), ‘3’ (Masters), ‘4’ (Education Specialist), ‘5’ (Doctorate), ‘6’ (Other), ‘7’ (Less than High School Diploma), ‘8’ (High School Diploma), ‘9’ (GED Diploma)
- ✓ Is entry a valid option for SEMESTER HOURS for certificated employees? If EDUCATIONAL LEVEL = “2”, SEMESTER HOURS should be greater than 109. If EDUCATIONAL LEVEL = “3”, SEMESTER HOURS should be greater than 134. If EDUCATIONAL LEVEL = “4” or “5”, SEMESTER HOURS should be greater than 160, if not a flag appears.

C:\Documents and Settings\lanicka.shepherd-mas\Desktop\New Folder (2)\STAFF DEMO JOB EXP.doc
Revision Date January 22, 2007

- ✓ If AUTHORIZED EXPERIENCE YEARS is greater than TOTAL EXPERIENCE YEARS a flag appears.
- ✓ If POSITION STATUS is "N" (*New to district*) is AUTHORIZED EXPERIENCE YEARS less than 11? If not, a flag appears.
- ✓ For employees with POSITION STATUS = "R" or "C", is AUTHORIZED EXPERIENCE YEARS less than 12? If not, a flag appears.
- ✓ If POSITION FTE is greater than 1, a flag appears. If POSITION STATUS is "R = Returning from leave of absence", "N = New to district", "C = Active/continuing position (even if different position)", "A = Contracted personnel - Agency", "I = Contracted personnel - Individual", **AND** POSITION FTE is equal to "0", a flag appears.
- ✓ On records with POSITION STATUS = "R", "N", OR "C", if EXTENDED SERVICE is greater than 60 days, a flag appears.
- ✓ Annual salary is calculated for both certified and classified employees. Classified employees have TYPE OF APPOINTMENT = '2' AND POSITION TYPE = 'R' (*Regular*). Certified employees have TYPE OF APPOINTMENT = "1", "2", "3", "4," OR "5", and POSITION TYPE = 'R' (*Regular*), Salary ranges are checked against the state averages for last year. If the annual salary **is not** greater than or equal to the state average minimum for last year, AND/OR if the annual salary **is not** less than or equal to the state average maximum for last year, a flag appears. (Even though a flag appears, these data may not be wrong, but a flag for districts to double check the data.)
- ✓ If POSITION TYPE = 'R' (*Regular*), LENGTH OF WORK DAY should be greater than 0 (zero), if not a flag appears.
- ✓ If POSITION TYPE = 'R' (*Regular*), SCHEDULED WORK DAYS should be greater than 0 (zero), if not a flag appears.

Report Samples, .TXT files

Both standard format reports have the same structure.

The report is organized by building (*BUILDING IRN*). Within a building, staff are organized by position (*POSITION CODE*). Within each position, employees are organized by State ID (*EMPLOYEE ID*). The length of report will depend on the number of buildings/positions/staff within a district.

Header Information

The first area of the header describes information about the report generation. The upper left section names the program from which the report was generated and the data source. The middle information identifies the producer of the report and the report title. The upper right section states the date on which the report was generated, the page number, and the reporting period to which the report belongs (a “?” may be used to represent a reporting period when the report is applicable to more than one reporting period).

The second area of the header pertains to the recipient of the report. It identifies the district for which the report was produced, its IRN and COUNTY, the ITC and AREA COORDINATOR of the district.

That is followed by column headers indicating the data described on each detail line.

Calculations

Salary calculations are as follows:

If PAY TYPE = 'A', hourly salary is calculated using the following formula:

$$\text{HOURLY SALARY} = (\text{PAY RATE} / \text{SCHEDULED WORK DAYS}) / \text{LENGTH OF WORK DAY}$$

If PAY TYPE = 'H', annual salary is calculated using the following formula:

$$\text{ANNUAL SALARY} = (\text{PAY RATE} * \text{SCHEDULE WORK DAYS} * \text{LENGTH OF WORK DAY (in hours)})$$

Multiple Records

One person may have multiple positions. One position may have multiple fund source codes.

Multiple Positions

These columns include staff demographics. Each person will have only one demographic record, so there will be one line under these columns, per staff person.

Data in these columns describe the position. One Staff Employment record is reported for each position for which a staff person is employed by the reporting district. There will be one line under these columns, for each position.

Multiple Funding Sources

A position may have multiple fund sources. Though the FTE for a position may be 1.0 or less, all positions are funded a total of 100%.

Report Samples, .CSV files

There are two comma-delimited files that provide the same data as the .TXT files but allow the file to be imported into Excel or another PC application.

CSV File Format, General Information

This Comma Separated Value (CSV) format file contains a record for each staff member a district submitted during the reporting week.

In basic terms, the CSV file will contain the data element values separated by a comma to denote the end of one data element value and the start of a new one. For example, if you were to take the district IRN, its name, and county and convert it into a CSV file it would look like this:

012345, My District, Franklin

When imported into Excel, this string of comma separated values would be split into corresponding columns:

District IRN	District Name	County Name
012345	My District	Franklin

TIP: When importing data from a CSV file containing a numerical value that starts with a zero, like an IRN, it is important to import that type of data element as text and not a number in Excel. If imported as a numerical value, the first zero will be removed.

Header Information

The following is the header as it appears in the original CSV file. Note: the comma between each element name allows the data to be opened in Excel as a comma-delimited file without any additional formatting on the user's part.

The header record for the CSV file contains:

FIELD NAME	STARTING POSITION	ENDING POSITION	FIELD LENGTH
BLDG-IRN	1	8	8
BLDG-NAME	9	17	9
STATE-ID	18	25	8
STAFF-NAME	26	35	10

Detail Information

Each detail line in the CSV file contains data pertaining to a student whose records were submitted by the district. Quotes around the element protect from an inadvertent comma creating an additional field. All elements are created as string (text) elements.

Sample, CSV File

Note: both CSV files look the same internally. Be sure you note the last part of the file name extension since it is the easiest way to determine what file is open.

Note: a space line was added between each record for readability. It does not appear in the file itself.

Error Detection and Correction

If there are discrepancies between what is on the report, and what is actually occurring in your district, there could be a coding error. The following checklists are for the district for which the report is generated. Things to check include:

- ☑ Check to see if data elements all use valid options (included on checks listed under “ODE Processing” section of this document).
- ☑ Is the salary amount listed reflect what each employee is being paid?
- ☑ If an employee has multiple positions, does the *POSITION FTE* for that employee exceed 1?
- ☑ Has the appropriate *JOB ASSIGNMENT CODES* been used?
- ☑ Have the administrators responsible for making decisions about human and/or financial resources confirm that the appropriate *POSITION FUND SOURCES* are used AND that the *POSITION FUND SOURCES* are allocated appropriately.

Common Errors

If certain data are missing from particular elements used to calculate hourly or annual salary, a flag will appear under the salary field. The type of flag will indicate the type of error. There are three types of symbols that may appear next to and under the salary field.

Symbol

↓

?

**

Explanation

- If the annual salary **is not** greater than or equal to the state average minimum for last year, **AND/OR**
- If the annual salary **is not** less than or equal to the state average maximum for last year, **a question mark (?) appears next to the data in the salary column and asterisks appear beneath the same data element.**
Even though a flag appears, these data may not be wrong, but the data element in question is flagged to alert districts to verify the accuracy of the value.

Example:

↓

SALARY	JOB ASSIGN CODE	FUND SRC %
39,546? *****	A 000000	L 50

↓

?

##

- If a value is missing from the *SCHEDULED WORK DAYS* field, **a question mark “?” appears next to the data in the salary column and # symbols appear in a line beneath the same data element.**

↓

SALARY	JOB ASSIGN CODE	FUND SRC %
39,546? #####	H 000000	L 50

- If a value is missing from the *LENGTH OF WORK DAY* field, a question mark “?” appears next to the data in the salary column and @ signs appear in a line beneath the same data element. **NOTE: IF there are multiple errors, the symbol for the last error checked will appear.**

SALARY	JOB ASSIGN CODE	FUND SRC %
39,546? A	000000	L 50
@@@@		

- New employees [*POSITION STATUS* = ‘N’] can only have 10 years of authorized experience. **SITUATION:** When hired, an employee had 10 years of “Authorized Experience.” After the individual has been employed for over one year, the employee should have 11 years of Authorized Experience. On the report a question mark appears next to the data in the “Authorized Experience” column, with asterisks appearing beneath the value. **Why?** This could occur because the *POSITION STATUS* has not been updated from ‘N-New’ to ‘C- Continuing’.
- Other elements that do not pass validation checks that are listed in the box “Checks Performed on Staff Data Report” in the ODE Processing section on page 3, will be marked with a question mark next to the data value, and asterisks in a line below the element.
