# (FTED-006) PARTIAL GIFTED FTE REPORT

## FUNCTION AND PURPOSE

All traditional districts, community schools, and STEM districts receive a Partial Gifted FTE Report if they have reported any students newly identified as gifted in the current year.

The Partial Gifted FTE Report includes rows for all students who are newly identified as gifted in the current school year, therefore generating less gifted FTE than adjusted FTE. Districts should use the report to verify that the gifted identification date and gifted FTE are accurate. Students identified as gifted in a prior year are not displayed on the report, as the gifted FTE generated for these students will match their adjusted FTE.

## PROCESS DESCRIPTION

A row will be generated for each FS/FD combination such that the number of rows displayed for a student on the Partial Gifted FTE Report will match the number of rows displayed for the student on the FTE Detail Report. A result code will be displayed on each row indicating whether the student generated partial gifted FTE, no gifted FTE, or full gifted FTE for the FS/FD date range. For a more detailed explanation of FS/FD combinations, please refer to the FTE Detail Report Explanation posted on the Department’s website.
