GRAD: EARLY WARNING SYSTEM

- Provides the ability to evaluate students' progress towards graduating on time
 - Identifies those on track and those at risk
- Summary listing of students reported in EMIS and their risk detail
- Export capabilities

A screenshot of the 'Find/Filter' interface. It features a grid of search criteria including SSID, Building IRN, Sub Group, Grade, Resident Of, Race/Ethnicity, Admitted Since, Gender, Total At Risk, Risk Level/Score, and various 'At Risk' checkboxes (State Attendance, State Behavior, State Coursework, 10.00% Attendance, 1+ Behavior, 1+ Courses, IC (LD1)). It also includes fields for Admitted From IRN, Received From IRN, Sent Reason, and How Received. On the right side, there are buttons for 'Find', 'Clear', 'File Output Format' (set to CSV), and a list of export options: Student Export, Risk Trend Export, Term Attn Export, Year Attn Export, Behavior Export, All Courses Export, and Basic Points Export. A red arrow points from the 'Export capabilities' bullet point in the text to the 'Student Export' button.

Training Evaluation

Available through May 29

Your evaluations of our trainings are now being collected via an online form. This will give us access to better, more immediate feedback and statistics about these trainings, which will allow us to be even more responsive to your input. This will also be easier for you as you will no longer have to email anything to us.

After completing the evaluation and clicking submit, you will see a message thanking you for your feedback and acknowledging your attendance at a training. If this is information you need, be sure to capture or print the page and retain it for your records. Once the evaluation period for the session ends (2 weeks after the final session), you will no longer be able to submit a response or receive an attendance acknowledgement. *Note that this is the only way to receive this acknowledgement. We will no longer be emailing this information to participants.*

Disclaimer: General Issues Reports are supplemental reports that are provided to districts to help identify potential data issues. The reports should NOT be used as the primary and/or sole mechanism for reviewing and verifying the accuracy/completeness of data. These reports are limited in the types of errors flagged and are not guaranteed to be generated on a regular basis as they are not part of the automated EMIS validation system. In accordance with ORC 3301.0714, the accuracy and completeness of EMIS data submitted to the Department is the responsibility of the district.
