## Data Submission Requirements for FY12 Financial (H) Reporting Period

This table shows which record types will be used to create the General Missing Data Report and the percentage of records required at various weeks during the reporting period. Warning notifications will begin on November 5th and continue through the November 8th data submission for any district which has not met the weekly data submission requirements. Out of Compliance notifications will only be sent, as per the schedule, to those districts which have not met the same data submission requirement(s) two or more times as of that week. In addition, any district identified as not having met the November 8th data submission goals will be subject to the progressive corrective action process. Also included below is the financial penalty that will be assessed if the data submission does not meet the established goals. The  $\psi$  noted between the tables denotes the planned data submission which a payment will be based upon.
