General Guidelines

Assessments are reported using a common format, the Student Assessment (FA) Record. Districts are required to report one record per student, per assessment type, per assessment area/subject, per assess-

Student Assessment Record Data Elements

The following portion of this section discusses each of the data elements within the Student Assessment (FA) Record. The elements are organized alphabetically.

Test Day of the Month

Record Field Number	FA212
Definition	The day of the month the test was administered.

Valid Options

DD	Day of the Month (01-31)
00	Not required/not applicable

Reporting Instructions. Report the day of the month such that, when combined with FA210 Test Date, a complete calendar date is reported.

This element is only required to have a value other than 00 when reporting an assessment type where ODE may need to receive more than one set of results for assessments that occurred in the same month. Currently, the only assessment types where this is allowed are SA (SAT), AC (ACT), GX (Standard OGT only, not High School Alt), and GD ([MAPStar](#)). If this element is reported with a value that creates a valid date when combined with the test month and year, then the reported day of the month will be used for these assessment types. If this element does not create a valid date (e.g., reporting 30 when the test month is February), then the test date will default to the first of the month.

FY 2016 – FY 2020 CCP Homeschooled and Nonpublic Refunds Due to ODE

This report contains information about CCP Homeschooled and Nonpublic Refunds Due to ODE (including student lines for each student), Refund ID, college IRN and name, refund due date, and the reason for the refund. Below are the possible reasons for the refunds due:

- » Originally a student was reported as taking one or more courses. Later college resubmitted data showing that the student did not take all or took less credit hours.
- » Originally the college was paid at the CCP default rate, but college submitted an alternative agreement with the lower credit hour rate.
- » Starting with Spring 2018: colleges that have their standard rates paid at their standard rates.
- » Starting with Spring 2018: colleges that provide lower than their standard rates to residents of certain counties due to levy were paid at those lower rates.
- » In instances when college reported 2.5 or 1.5 credit hour course – previously paid at 3 and 2 credit hours. The credit hours were adjusted to the college actually reported.
