New or Updated Level 1 Validation:

Error #	Description of Change
DN.0001 (C)	Updated check to ensure that only expected DN records be reported in this collection request.
DN.0027	New Check: Attribute Name not permitted to be reported at the Building Level.
DN.0028 (A & B)	New Check: Attribute Name not permitted to be reported at the District Level.
DN.0030	New Check: Attribute Date not reported within the required date range.
DN.0031 (A - F)	New Check: Attribute Text not reported with the required text value.
DN.0032	New Check: Attribute Number not reported within the required numeric range.
DN.0033	New Check: Attribute Date should be reported as '00000000', as a date is not permitted for the Attribute Name.
DN.0034	New Check: Attribute Number should be reported as '0000000000', as a number is not permitted for the Attribute Name.
DN.0035	New Check: Invalid IRN reported in the Attribute Text field requiring an IRN be reported.
FS.0019	Removed How Received = 'Y' from check requiring that the How Received IRN be that of a Traditional District.

FS.0020 (B)	Added check to fatal record submitted by a traditional district with a How Received = 2 and a How Received IRN of a Community School or STEM District.
GQ.0016	Added program codes; 310040, 310099, 310249, 310499, 310500 to check requiring that the Employee ID for the program be reported.
MR.0047	Removed How Received = 'G' from check requiring only certain codes to be used for Preschool students.

New or updated reports: A new reported named, Counts of DN Records Excluded Report now available, which provides the counts per Attribute Group (i.e PE Evaluation, Student, Calendar, CCP, etc) by type of issue causing the exclusion;

- Incorrect District IRN (DN040),
 - District IRN (positions 17-22) does not match the submitter IRN in the Data Collector
- Incorrect Attribute for Org Type (DNORGTYP), or
 - Attribute is not to be reported by the reporting organization type
- Incorrect Collection Window (WRNGCW)
 - Attribute not collected in the current collection, it is to be reported in a later window

The value in parenthesis above is now displayed on the Excluded Records report to help identify the cause for the DN record being excluded. Likewise, the attribute group name is added to the end of the description field, to further help identify the record.

Finally, a new report named: Missing Report - Organization Attribute (DN), is now included to highlight the Attribute Names that are required to be reported by Org Type and Collection Request but were either not included in the submission or were marked as invalid.
