

## EMIS Release Notes- Updated Manifest

**Collection Request Name:** Kindergarten Readiness Assessment Collection FY18

**Description of Change:** This version update the Missing Report due to discrepancies between SSIDs on the vendor file and student data reported in EMIS.

We have removed SSIDS found in the vendor file where that SSID does not exist in the district's student data reported to EMIS for FY18.

We also updated SSIDs that the district is reporting but were not appearing on the Missing report due to improper formatting of the SSID on the vendor file. We've corrected this and these SSIDs will be updated on the district's missing report with a missing reason ='has vendor results'.

**Planned Availability Date:** 1/8/2018

**Version Number:** 3

**Updated Version Requires:**

- **Starting a new/restarting the current collection of data?** No
- **Running a new prepare of the collected data?** Yes
- **Replacing any data already submitted to ODE with a new submission?** No

**“Updated Version Requires” Additional Information:**

**Known Issues Resolved:** None.

**New or Updated Level 1 Validation:** None.

**New or updated reports:** Missing Report-KRA Fall Assessment Collection FY18
