Student Wellness and Learning

- **Science of Learning and Development**

Students learning occurs through the interconnection between cognitive, social, affective and emotional functions occurring simultaneously.

Learning is dependent on secure attachments, positive relationships and integration of social, emotional and academic skills.

Possible Impacts on Learning

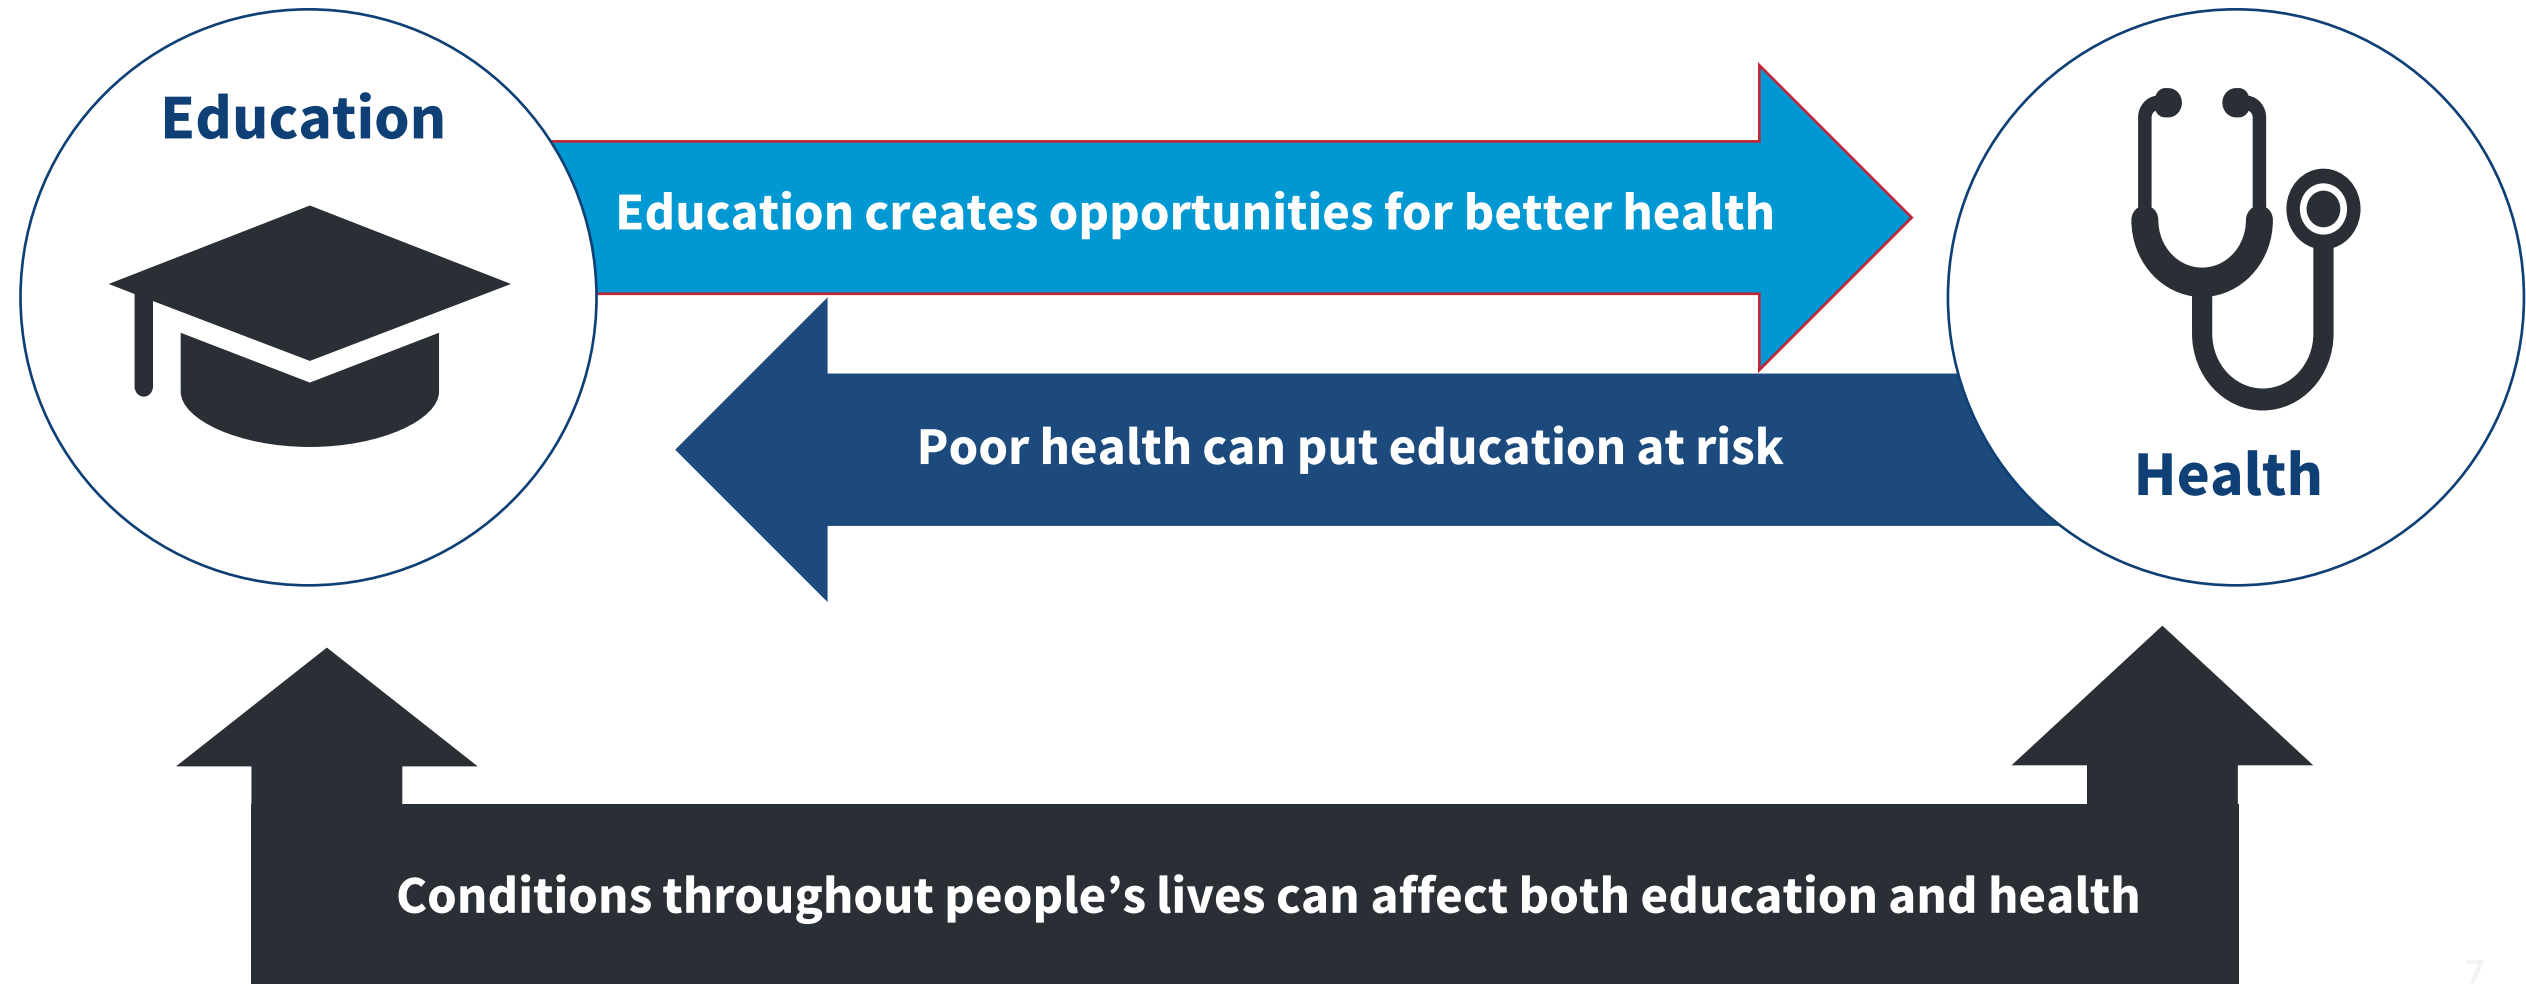

Learning

- Organizing narrative material
- Cause and effect
- Taking another's perspective
- Attentiveness
- Regulating emotions
- Engaging in curriculum

Behavior

- Lack of motivation
- Reactivity and impulsivity
- Aggression and defiance
- Withdrawal
- Perfectionism
- Fight, flight, freeze

Health and Education

Student Wellness Needs and Challenges

U.S. Mental Health Landscape

Pre-Pandemic (2009-2019)

- 1 in 5 youth have a diagnosis
- 40% increase in high school students feeling sad or hopeless
- Suicide rates among ages 10-24 increased by 57%.

During Pandemic (2020-2022)

- Depressive and anxiety symptoms doubled for youth

Ohio Students Mental Health Challenges

- 1 in 3 Ohio students reports challenges with anxiety
- 1 in 3 Ohio students reports feeling sad and hopeless
 - Almost 115,000 high-school aged kids in Ohio have experienced depression
- **Workforce Shortages**

The Need

- 24,046 experienced homelessness¹;
- 829,879 (49.6%) economically disadvantaged¹;
- 703,214 students participated in Medicaid²;
 - 42% of Ohio's K-12 students; and
 - ↑ 20,500 from previous year.

Chronic Absence Statewide

State and District Level Data

Using Data to Support Wellness

Pursue programming to meet specific student needs

Target efforts to build & sustain healthy homes, schools, and community environments

Set goals for wellness and track progress over time

Guide the modification of school health curricula and programming

Seek funding and other supports for new initiatives

Attendance Data

Connection between student wellness and absenteeism

Students in grades K-3 who were never chronically absent were 6.7x more likely to pass the 3rd Grade Reading Guarantee

High school students who were never chronically absent were 9x more likely to graduate on time

OHYES!

The OHYES! uncovers student needs on a local level, empowering high-impact change in schools and communities across Ohio.

Youth Risk Behavior Survey/Youth Tobacco Survey

YRBS/YTS gathers state-representative data on student health risks and behaviors likely to result in adverse outcomes.

School Health Profiles Survey

Profiles surveys principals and health educators to gather insights into Ohio's school health policies and practices.

youthsurveys.ohio.gov

OHYES! Survey Topics

Feelings about school and community

Mental health, suicide, and access to health care

Personal use of alcohol, tobacco, and other drugs

Family and personal relationships

Perceptions of substance-use risks

Health behaviors, sleep, nutrition, and exercise

Funding and Sustainability

Ohio Funding

- [Student Wellness and Success Funds and Disadvantaged Pupil Impact Aid](#)
- State agency grants
- Local Alcohol, Drug, and Mental Health Boards

Federal Funding

- Title IV and Stronger Connections
- U.S. Department of Education
- Medicaid School Program
- Substance Abuse and Mental Health Services Administration
- Health Resources and Services Administration
- Bureau of Justice Assistance

Student Wellness and Success

- Began in the 2019-2020 school year
- Nearly \$1.5 billion over five-year period
- Wrap-Around Supports

Supporting Student Wellness

- [School Payment Reports](#)
- [Supporting Student Wellness](#)

• **At least 50% of SWSF must be used for mental or physical health services or a combination of both**

Key: ● Student Wellness and Success Funding ■ Disadvantaged Pupil Impact Aid

	Initiatives	Examples
● ■ Mental health services	Mental health services, including telehealth services, community-based behavioral health services and recovery supports	Hiring new or additional social workers and school counselors to provide supports to students Partnering with community agencies to identify student needs and provide evidence-based behavioral health services and recovery support
● ■ Physical health services	Physical health care services, including telehealth services and community-based health services	Hiring school nurses and healthcare providers to serve students during the school day Providing telehealth services to meet students' physical health needs in rural communities Constructing or adapting existing space for a school-based health center Collaborating with community partners to address student physical and mental health needs through school-based health care
