

## Update to 2019-2020 Report Card Information

The U.S. Department of Education has provided states the ability to seek one-year waivers from the Every Student Succeeds Act's (ESSA) testing and accountability requirements. The Ohio General Assembly subsequently passed emergency legislation canceling the spring administration of Ohio's State Tests and waiving report card requirements other than reporting of some limited, available data. The legislation also put in place a "Safe Harbor" period for many elements of the accountability system. Accordingly, the Ohio Department of Education sought and received a federal ESSA waiver for the 2019-2020 school year.

This technical document details how the measure or calculation works in a typical school year. Ohio School Report Cards, Dropout Prevention and Recovery report cards and Career-Technical Planning District report cards all have multiple measures that use assessment data that are not available or are substantially limited this year.

Please visit the [Report Card FAQ](#) website for more information about data availability for the 2019-2020 report cards.

Contact [accountability@education.ohio.gov](mailto:accountability@education.ohio.gov) with additional questions.

## 2019-2020 Prepared for Success

### Introduction

Prepared for Success is one of six graded components on the report card. This component is required by statute.

Ohio Revised Code Section 3302.03(C)(3)(f) says:

*Prepared for success, which shall include the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. The state board shall develop a method to determine a grade for the component in division (C)(3)(f) of this section using the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. When available, the state board may incorporate the performance measure under division (C)(2)(g) of this section into the component under division (C)(3)(f) of this section. When determining the overall grade for the prepared for success component prescribed by division (C)(3)(f) of this section, no individual student shall be counted in more than one performance measure. However, if a student qualifies for more than one performance measure in the component, the state board may, in its method to determine a grade for the component, specify an additional weight for such a student that is not greater than or equal to 1.0. In determining the overall score under division (C)(3)(f) of this section, the state board shall ensure that **the pool of students included in the performance measures aggregated under that division are all of the students included in the four- and five-year adjusted graduation cohort.***

### Background

Beginning with the 2013-14 report card, schools and districts reported data as part of a new component called Prepared for Success. For 2013-2014 and 2014-2015 report cards, the data consisted of a series of ungraded measures that allowed students to demonstrate college and career readiness in multiple ways. In 2016, the agency combined the ungraded measures for the first time to assign a letter grade to the Prepared for Success component.

Many of the elements of this component were new in EMIS and had not been reported to ODE prior to 2014. Because of this this, the denominators for the 2014 and 2015 ungraded measures were the school's or district's denominator of the four-year graduation rate (Class of 2013 in the 2014 report card and Class of 2014 on the 2015 report card).

When ODE issued the first letter grades in 2016, the Prepared for Success component grade was calculated using BOTH the four- and five-year graduation cohorts, because of the requirement outlined in the law above (see language in red). More information on how the four- and five-year graduation denominators are determined can be found [here](#). The 2020 Prepared for Success calculation combines the denominators of a school's or district's four- and five-year graduation rates (4-Year Class of 2019 and 5-Year Class of 2018) to build the component.

The ungraded measures include the pieces of data defined below.

## 2019-2020 Prepared for Success

### **ACT and SAT Data**

Many colleges and universities use ACT and SAT scores to determine if a student is ready for college level coursework. Remediation-free scores have been set for each component of the ACT and SAT by the Ohio Department of Higher Education.

#### **2019 ACT Remediation-Free Scores**

<b>English</b>	<b>18</b>
<b>Mathematics</b>	<b>22</b>
<b>Reading</b>	<b>22*</b>

\*The Department of Higher Education increased the remediation-free standard for the ACT Reading score from 21 to 22 in May 2016. ODE used 21 as the benchmark through the class of 2017.

#### **2019 SAT Remediation-Free Scores (for Tests Taken Prior to March 1, 2016)**

<b>Critical Reading</b>	<b>450</b>
<b>Writing</b>	<b>430</b>
<b>Mathematics</b>	<b>520</b>

#### **2019 SAT Remediation-Free Scores (for Tests Taken After March 1, 2016\*\*)**

<b>Evidence-Based Reading and Writing</b>	<b>480</b>
<b>Mathematics</b>	<b>530</b>

\*\*College Board redesigned the SAT with a new test structure in the spring of 2016. The 2019 report card will utilize each test's scores depending on the date when a student took the test.

Four of the Prepared for Success measures reported on the 2019 report card contain data on ACT and SAT participation and scores.

- The number of students participating in the ACT, by school and district
- The number of students participating in the SAT, by school and district
- The number of students scoring at or above remediation-free levels on all parts of the ACT
- The number of students scoring at or above remediation-free levels on all parts of the SAT

ACT and SAT data participation and score data are reported through EMIS by schools and districts.

## 2019-2020 Prepared for Success

### ACT and SAT Participation

Two measures report the percentage of students in the 2018 and 2019 graduation cohorts who took the ACT and SAT, at the school and district levels. These calculations are:

Number of students who took the ACT  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order for students to be counted in the numerator for ACT participation, the following conditions must be met:

- Student is reported with an Assessment type code (FA060) = AC  
  
AND
- Assessment Area Code (FA205) = M, R, ENG (all assessment type codes must be reported)  
  
AND
- Score (FA240)  $\geq 1$ , and  $\leq 36$  (valid score ranges for the ACT)  
  
AND
- Test Date (FA210)  $\leq$  31OCT2019:00:00:00 (indicating that the test was taken no later than October 31, 2019).

A student must be reported with a valid score in **all sections** of the ACT listed above to be counted as a participant and thus included in the numerator.

Number of students who took the SAT  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

## 2019-2020 Prepared for Success

In order for students to be counted in the numerator for SAT participation, the following conditions must be met:

### For tests taken prior to March 1, 2016 (the old format of the SAT):

- Student is reported with an Assessment type code (FA060) = SA  
  
AND
- Assessment Area Code (FA205) = M, R, W (all assessment type codes must be reported)  
  
AND
- Score (FA240)  $\geq$  200, and  $\leq$  800 (valid score ranges for the SAT)  
  
AND
- Test Date (FA210)  $<$  01MAR2016:00:00:00 (indicating that the test was taken prior to March 1, 2016).

### For tests taken after March 1, 2016 (the new format of the SAT):

- Student is reported with an Assessment type code (FA060) = SA  
  
AND
- Assessment Area Code (FA205) = M, R (both assessment type codes must be reported)  
  
AND
- Score (FA240)  $\geq$  200, and  $\leq$  800 (valid score ranges for the SAT)  
  
AND
- Test Date (FA210)  $\geq$  01MAR2016:00:00:00 and  $\leq$  31OCT2019:00:00:00 (indicating that the test was taken no earlier than March 1, 2016 and no later than October 31, 2019).

A student must be reported with a valid score in **all sections** of either version of the SAT listed above to be included in the numerator.

## 2019-2020 Prepared for Success

### ACT and SAT Remediation-Free

Two measures report the percentage of students in the cohort who met the remediation-free scores on all components of the ACT or SAT. These calculations are:

Number of students who scored remediation-free on all components of the ACT  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order for students to be counted in the numerator for ACT remediation-free, the following conditions must be met:

- Student is reported with an Assessment type code (FA060) = AC

AND

- Assessment Area Code (FA205) = M, R, ENG (all assessment type codes must be reported)

AND

- Score (FA240)  $\geq$  18 for English

AND

- Score (FA240)  $\geq$  22 for Mathematics

AND

- Score (FA240)  $\geq$  22 for Reading

AND

- Test Date (FA210)  $\leq$  31OCT2019:00:00:00 (indicating that the test was taken no later than October 31, 2019).

A student must be reported with a valid score at or above the remediation-free benchmark in **all sections** of the ACT listed above to be included in the numerator. Note that the highest score from all attempts is used for the calculation. Therefore, a student that meets the required scores across multiple administrations is included. For example, if a takes the ACT three times, and scores remediation-free in reading on the first test, remediation-free in math on the second test,

## 2019-2020 Prepared for Success

and remediation-free in English on the third test, the student is considered to be remediation-free on the ACT and will be in the numerator.

Number of students who scored remediation-free on all components of the SAT  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order for students to be counted in the numerator for SAT remediation-free, the following conditions must be met:

**For tests taken prior to March 1, 2016** (the old format of the SAT):

- Student is reported with an Assessment type code (FA060) = SA

AND

- Assessment Area Code (FA205) = M, R, W (all assessment type codes must be reported)

AND

- Score (FA240)  $\geq$  430 or Writing

AND

- Score (FA240)  $\geq$  520 for Mathematics

AND

- Score (FA240)  $\geq$  450 for Critical Reading

AND

- Test Date (FA210)  $<$  01MAR2016:00:00:00 (indicating that the test was taken prior to March 1, 2016).

## 2019-2020 Prepared for Success

**For tests taken after March 1, 2016** (the new format of the SAT):

- Student is reported with an Assessment type code (FA060) = SA

AND

- Assessment Area Code (FA205) = M, R (both assessment type codes must be reported)

AND

- Score (FA240)  $\geq$  530 for Mathematics

AND

- Score (FA240)  $\geq$  480 for Evidence-Based Reading and Writing

AND

- Test Date (FA210)  $\geq$  01MAR2016:00:00:00 and  $\leq$  31OCT2019:00:00:00 (indicating that the test was taken no earlier than March 1, 2016 and no later than October 31, 2019).

If a student has reported scores for only one format of the SAT, that student must be reported with a valid score at or above the remediation-free benchmark in **all sections** of that format to be included in the numerator. Note that the highest score from all attempts is used for the calculation. Therefore, a student that meets the required scores across multiple administrations is included. If a student has reported scores for both formats of the SAT, that student can also combine scores across test formats to meet the remediation-free benchmark. For example, a student that meets the remediation-free standard on the Math section of the old format of the SAT, but does not meet the standards for Reading and Writing, would be considered remediation-free on the SAT if that student also meets the remediation-free standard for Evidence-Based Reading and Writing on the new format of the SAT. A student must meet the remediation-free standard on Math for either format AND the standards for Reading and Writing on the old format OR the Evidence-Based Reading and Writing standard on the new format.

It is important to note that a student must meet the remediation-free threshold for all ACT or SAT subjects to be included in the numerator. The table below helps to further clarify when a student is deemed remediation-free.

## 2019-2020 Prepared for Success

ACT Subject	Attempt 1	Attempt 2	Attempt 3
<b>Math</b>	Not Remediation-Free (Score less than 22)	Not Remediation-Free (Score less than 22)	<b>Remediation-Free (Score 22+)</b>
<b>Reading</b>	<b>Remediation-Free (Score 22+)</b>	Not Remediation-Free (Score less than 22)	Not Remediation-Free (Score less than 22)
<b>English</b>	Not Remediation-Free (Score less than 18)	<b>Remediation-Free (Score 18+)</b>	Not Remediation-Free (Score less than 18)

In the example above, the student took the ACT three times, and earned remediation-free scores in all subjects across the three administrations, but never within the same administration. This student would be considered remediation-free.

SAT Subject	Attempt 1 (Prior to March 1, 2016)	Attempt 2 (After March 1, 2016)
<b>Math</b>	<b>Remediation-Free (Score 520+)</b>	Not Remediation-Free (Score less than 530)
<b>Critical Reading</b>	<b>Remediation-Free (Score 450+)</b>	
<b>Writing</b>	Not Remediation-Free (Score less than 430)	
<b>Evidence-Based Reading and Writing</b>		<b>Remediation-Free (Score 480+)</b>

In the example above, the student took the SAT twice, and earned remediation-free scores on both the Math and Evidence-Based Reading and Writing sections, but not within the same administration. Even if the student scored a 520 on the Math section on the first attempt, the student would still be considered to have met the remediation-free standard on the Math section because it was achieved prior to the test change.

In order to be included in the numerator, all remediation-free scores must come from the same assessment – scores from ACT and SAT may not be combined. For example, if a student were remediation-free on the ACT in Reading and English but not Math, and remediation-free in only Math on the SAT, this student **would not** be considered remediation-free because they did not earn remediation-free scores on all three sections of either the ACT or SAT.

## 2019-2020 Prepared for Success

### *Honors Diploma*

Students have the ability to earn an honors diploma through one of three pathways. An ungraded Prepared for Success measure will report the percentage of students who graduate from high school with one of the three types of honors diplomas described in the [Ohio Honors Diploma Requirements](#).

The calculation for this measure is:

Students in the denominator of the 4- and 5-year graduation cohorts who earned an honors diploma within 4- or 5-years of entering ninth grade (FN100 Diploma Type Element = 2, 4, 5, 6, 7 or 8)  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

### *Industry-Recognized Credentials*

The State Board of Education approved a methodology in 2014 for identifying approved industry-recognized credentials for inclusion in the Prepared for Success component. The state board of education updated the methodology in 2015 to align with Ohio's new high school graduation requirements and to reflect industry demand. The ungraded measure on 2015 report card included all credentials from the approved 2014 list. In order to align the Prepared for Success component to Ohio's new high school graduation requirements, the new list contained only those credentials that were also valid options for meeting graduation requirements.

**For the report cards in 2016 and beyond, only credentials totaling 12 points from the approved annual list, either a single credential worth 12 points or bundle of credentials totaling 12 points within the same career field, count towards the Prepared for Success component.** Please see the Appendix for the approved credential list, credential codes, and associated career fields. Note that this list changes annually.

The calculation for this measure is:

Students in the denominator of the 4- and 5-year cohorts who earned industry-recognized credentials totaling 12 points in a single career field (Industry-recognized credentials reported as GW-type assessments (FA060))  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

## 2019-2020 Prepared for Success

- Test Date (FA210) <= 01JAN2020:00:00:00 (indicating that the credential was earned no later than January 1, 2020).

AND

- Score (FA240) not equal to 'N'

### ***Advanced Placement***

There are over 30 Advanced Placement (AP) courses offered in multiple subject areas. Each high school determines locally which courses it will offer and not all courses are offered by each school or district. When a student takes an AP course, he or she can take an assessment at the end of the year that measures the student's knowledge of the course's academic content standards. Students who perform well enough on the AP exam (usually a score of 3 or higher) can receive college credit for that course when they graduate from high school and enroll in college. Two of the ungraded measures reported on the 2020 report card contain data pertaining to Advanced Placement.

The first measure reports the percentage of students in the 2018 and 2019 graduation cohorts who took at least one AP course while in high school. This calculation is based on EMIS student course data.

Students in the denominator of the 4- and 5-year graduation cohorts who earned credit in one or more AP courses while in high school  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order for students to be counted in the numerator of this measure, the following conditions must be met.

Student course data must include:

- Curriculum Element (CN310) = AP

AND

- High School Credit Earned Element (GN150) = Y or P

## 2019-2020 Prepared for Success

AND

- If High School Credit Earned Element = P, then Partial/Override Credit Element (GN152) must be greater than zero. If High School Credit Earned Element = Y, then High School Credit Element (CN200) must be greater than zero.

AP courses taken at any point prior to data publication are included in this measure. For example, a student who earns credit in an AP course during his/her freshman year will be included in this measure, but those data will not be published until the student's 4-year cohort graduates.

An additional AP measure reports the percentage of students in the cohort who received a score of three (3) or higher on a corresponding AP test. AP tests score data is reported by school districts through EMIS.

Number of students who scored three (3) or higher on an AP test  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

AND

- Score (FA240)  $\geq 3$

AND

- Test Date (FA210)  $\leq$  01OCT2019:00:00:00 (indicating that the test was taken no later than October 1, 2019).

### ***International Baccalaureate***

There are many International Baccalaureate (IB) courses offered in multiple subject areas. Each high school determines locally which courses it will offer and not all courses are offered by each school or district. When a student takes an IB course, he or she can take an assessment at the end of the year that measures the student's knowledge of the course's academic content standards. Students who perform well enough on the IB exam (usually a score of 4 or higher) can receive college credit for that course when they graduate from high school and enroll in college. Two of the ungraded measures reported on the 2019 report card contain data pertaining to International Baccalaureate.

## 2019-2020 Prepared for Success

The first measure reports the percentage of students in the 2018 and 2019 graduation cohorts who took at least one IB course while in high school. This calculation is based on EMIS student course data.

Students in the denominator of the 4- and 5-year graduation cohorts who earned credit in  
one or more IB courses while in high school  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order for students to be counted in the numerator of this measure, the following conditions must be met.

Student course data must include:

- Curriculum Element (CN310) = IA, IH or IS

AND

- High School Credit Earned Element (GN150) = Y or P

AND

- If High School Credit Earned Element = P, then Partial/Override Credit Element (GN152) must be greater than zero. If High School Credit Earned Element = Y, then High School Credit Element (CN200) must be greater than zero.

IB courses taken at any point prior to data publication are included in this measure. For example, a student who earns credit in an IB course during his/her freshman year will be included in this measure, but those data will not be published until the student's 4-year cohort graduates.

An additional IB measure reports the percentage of students in the cohort who received a score of four (4) or higher on a corresponding IB test. IB tests score data is reported by school districts through EMIS.

Number of students who scored four (4) or higher on an IB test  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

## 2019-2020 Prepared for Success

In order to be included in the numerator for this calculation, students must be reported with:

- Assessment type code (FA060) = IB

AND

- Score (FA240)  $\geq 4$

AND

- Test Date (FA210)  $\leq$  01OCT2019:00:00:00 (indicating that the test was taken no later than October 1, 2019).

### ***Dual Enrollment***

Ohio offers students the ability to take courses at a local college or university. If students take advantage of this option they can earn credit that counts towards high school graduation and also counts toward college graduation. The college credit will be documented on a transcript for the purpose of determining how many credits the student has towards a degree. This program is often referred to as “dual enrollment” or “College Credit Plus” and students can earn up to a year or more of college credit by taking advantage of this program.

One of the ungraded Prepared for Success measures reported in 2020 contains data pertaining to Dual Enrollment. It reports the percentage of students in the 2018 and 2019 graduation cohorts who earned at least three (3) dual enrollment/college credit plus credits while still in high school.

Number of students who earn at least three (3) dual enrollment/post-secondary credits  
Students in the denominator of the 4- and 5-year graduation cohorts (Classes of 2018 and 2019)

In order to be included in the numerator, students must be reported with the following information on the Student Graduation – Core Summary Record:

- Dual enrollment credit earned (GC110)  $\geq 3$

## ***Calculating the Component Grade***

Once each ungraded measure is calculated, the elements are combined to determine how many students from the four-year and five-year graduation cohorts meet the definition to be deemed Prepared for Success. The calculation is as follows:

### **Denominator of the Component**

The denominator of the calculation includes ALL students in the denominators of the 4-year and 5-year graduation rates. For 2020, the data include the classes of 2019 (4-year rate) and 2018 (5-year rate). Students are included regardless of whether they graduated in one of those years or not. Please note, students who do not graduate will be included in the numerator of the component calculation if they meet the criteria to be placed there (i.e. scoring remediation-free on the ACT or SAT or earning an industry-recognized credential).

### **Numerator of the Component**

A student must do one or more of the following to be in the numerator:

1. Earn a remediation-free score on all parts of the ACT or SAT
2. Earn an honors diploma
3. Earn an industry-recognized credential

Students receive a weight of 1.0 for meeting one or more of the criteria above. This means they count as one student in the numerator.

A student can earn an additional weight of 0.3 points to the numerator for completing one or more of the criteria listed above AND also doing one of the following:

1. Earn a three or higher on at least one AP exam
2. Earn a four or higher on at least one IB exam
3. Earn at least three college credits before leaving high school

Students meeting the bonus criteria will count as 1.3 students in the numerator. A student cannot earn the 0.3 bonus weight unless they also do something from the first list to earn the initial weight of 1.0. Thus, a student can only count in the numerator with a weight of 1.0 or 1.3.

Once each student's weighting is determined, the points are totaled and a Prepared for Success percentage is derived.

## 2019-2020 Prepared for Success

Letter grades are assigned based on the following scale.

<b>2020 Prepared for Success Percentage to Points*</b>		
<b>Measure Grade Scale</b>	<b>Percentage</b>	<b>Points</b>
93% to 100% = A	>=98.3% to 100%	5
	>=96.5% but <98.3%	4.75
	>=94.8% but <96.5%	4.5
	>=93% but <94.8%	4.25
75% to 92.9% = B	>=88.5% but <93.0%	4
	>=84.0% but <88.5%	3.75
	>=79.5% but <84.0%	3.5
	>=75% but <79.5%	3.25
60% to 74.9% = C	>=71.3% but <75.0%	3
	>=67.5% but <71.3%	2.75
	>=63.8% but <67.5%	2.5
	>=60.0% but <63.8%	2.25
40% to 59.9% = D	>=55% but <60%	2
	>=50% but <55%	1.75
	>=45% but <50%	1.5
	>=40% but <45%	1.25
0% to 39.9% = F	>=30% but <40%	1
	>=20% but <30%	0.75
	>=10% but <20%	0.5
	0% but <10%	0

\*This grade scale increased across three years. The 2016 and 2017 report card grades were assigned using different scales. This scale has been used since 2018.

### Examples of Calculation

This calculation is very different from the others because the measures are ungraded and a student has multiple ways to be counted in the numerator and to earn a bonus weight for the numerator. The grade is awarded based on the total percentage of weighted students that have demonstrated they are prepared for success after high school. In the example below, there are 10 students that make up the denominator of the calculation.

## 2019-2020 Prepared for Success

Student	Students Count 1.0 in Numerator with One of More of These*			Students in Numerator Earn 0.3 Bonus Weight with One of More of These*			Total Points for Student
	ACT/SAT Remediation-Free	Honors Diploma	Industry-Recognized Credential	AP Test 3 or Higher	IB test 4 or Higher	Three or More College Credits	
Student 1	YES	YES	No	YES	No	YES	1.3
Student 2	No	No	YES	No	No	No	1
Student 3	No	No	No	No	No	No	0
Student 4	No	No	YES	YES	No	No	1.3
Student 5	No	No	No	No	No	YES	0
Student 6	No	No	No	No	No	No	0
Student 7	No	YES	No	No	No	No	1
Student 8	No	No	No	No	No	No	0
Student 9	No	YES	No	No	YES	No	1.3
Student 10	YES	No	No	No	No	YES	1.3
<b>TOTAL POINTS EARNED</b>							<b>7.2</b>
<b>GRADE ASSIGNMENT</b>							<b>7.2/10 = 72% = C</b>

\*A student counts 1.0 in the numerator regardless of how many elements are earned from the left side of the table shaded in blue. A maximum bonus of 0.3 earned for having one or more elements from the right side of the table shaded in yellow.

## 2019-2020 Prepared for Success

### Appendix

#### 2019 Approved Industry Credentials List

**Only These Credentials Place a Student in the Numerator**

**(Note: A Student Must Earn At Least 12 Points in ONE Career Field)**

<b>EMIS Code</b>	<b>Credential Name</b>	<b>Career Field</b>	<b>Points</b>
CB62	CPR First Aid	Agriculture and Environmental Systems	1
CH89	NCCER Core and L1 Certification	Agriculture and Environmental Systems	12
CH91	NCCER Core	Agriculture and Environmental Systems	6
CH92	NCCER Level 1	Agriculture and Environmental Systems	12
CJ01	Occupational Safety and Health Administration (OSHA) - 30-Hour Training	Agriculture and Environmental Systems	1
CJ02	Occupational Safety and Health Administration (OSHA) - 10-Hour Training	Agriculture and Environmental Systems	1
CJ24	Ohio Environmental Protection Agency (OEPA) - Operator Certification (Water & Wastewater)	Agriculture and Environmental Systems	12
CJ25	Ohio Nursery and Landscape Association (ONLA) - Ohio Certified Nursery Technician (OCNT) - Garden Center	Agriculture and Environmental Systems	12
CJ26	Ohio Nursery and Landscape Association (ONLA) - Ohio Certified Nursery Technician (OCNT) - Landscape	Agriculture and Environmental Systems	12
CJ27	Ohio Nursery and Landscape Association (ONLA) - Ohio Certified Nursery Technician (OCNT) - Master Technician	Agriculture and Environmental Systems	12
