WHY DOESN'T THE ENROLLMENT FTE MATCH THE FTE FOR FUNDING?

$ The report card calculations exclude many of the adjustment codes that reduce FTE for funding, resulting in the FTE for enrollment being higher than the FTE for funding

🖩   The report card calculations calculate preschool exactly the same as grades K-12, while the FTE for funding of preschool is based on headcount per day

✏   Preschool educated by ESCs or CBDDs are not included in the report card calculations of FTE

👨‍🏫   School-aged students educated by ESCs are included in both calculations since sending districts must report. An ESC is unable to report a student who is school-aged

📚   School-aged students educated by CBDDs are not included in either calculation

QUESTIONS TO AIDE IN VALIDATING DATA RELATED TO ACHIEVEMENT COMPONENT

This is not meant to be an all-inclusive list just a starting point

- Who are the students counting in this measure? Is this accurate?

- Are there students at each grade level and subject level that is in my building or school?

- Does the school or district have all proficiency levels as expected? Are my accelerated students being accounted for with the "bump" in proficiency level in the State Proficiency Level column?

- Who are the untested students and is this the correct reason the student was not assessed? Were they required to take an assessment?

- Are the AP/IB assessments showing in the testing record for those who take that assessment? If not, is there an EOC record that has a higher proficiency level?

QUESTIONS TO AIDE IN VALIDATING DATA RELATED TO PROGRESS COMPONENT

This is not meant to be an all-inclusive list just a starting point

- Have I validated my testing data for Achievement?

- Are there students at each grade level and subject level that is in my building?
