

# District Roll Up of Affiliated New Startup Community School's Performance Data Fiscal Year 2022

(Due: Friday, November 5, 2021)

## Traditional Public School District:

Name \_\_\_\_\_ IRN \_\_\_\_\_

## Startup Community School:

Name \_\_\_\_\_ IRN \_\_\_\_\_

[Ohio law](#) allows a traditional public school district to combine the data of certain startup community schools with its district schools to calculate the performance of the district as a whole on the Ohio School Report Cards.

- To make use of the provision, the startup community school must be located in the district, and the district must either: 1) Lease a building to the community school; or 2) Enter an agreement with the community school in which the district and community school endorse each other's programs. If the district is the sponsor of the startup community school, the verification form alone is sufficient because the school's contract already is on file with the Ohio Department of Education.

To use this provision for the 2021-2022 school year, the district must submit this form and any additional, required materials to the Ohio Department of Education no later than **Friday, November 5, 2021**. If your district does not sponsor the startup community school, you must provide a copy of the lease or agreement that is in effect between the district and the startup school during the 2021-2022 school year. The district's decision to include the community school's performance data with its own data becomes binding for the 2021-2022 school year once the Department receives an acceptable form and any additional required materials. The Department will not accept late submissions. Additionally, it is the district's responsibility to ensure data from the community school are rolling up to the district appropriately.
