

Understanding Teacher Measures

Component: Teacher Measures

Measures: Attendance Rate
Average Salary
Average Years of Experience
Percentage of Teachers with a Bachelor's degree
Percentage of Teachers with a Master's degree

Description: The report card shows information about schools' and districts' teachers. These measures are not graded and are used to inform parents and community members about their schools.

Technical Fact: **Teacher Attendance** is the proportion of school days that teachers were present at the district, including professional development days. Days teachers are on long-term leave during the year are not included in the calculation.
Average Teacher Salary displays the average salary of classroom teachers in the district.
Average Years of Experience displays the average number of years teaching experience in the district.
Percent of Teachers with a Bachelor's degree includes all teachers in a building or district who have at least a bachelor's degree or higher.
Percent of Teachers with a Master's degree includes all teachers in a building or district who have at least a Master's degree or higher.
