## School Report Cards

The Ohio General Assembly amended Ohio's accountability law in the summer of 2021. Schools and districts now receive an overall rating and star ratings for five components. Additional information on the changes to the accountability system can be found on the Department's [Report Card Resources webpage](#).

Report Cards are designed to give parents, communities, educators and policymakers information about the performance of districts and schools — to celebrate achievement and success and identify areas for improvement. The information provides clear and easily available reporting on student performance, drives local conversations on school improvement and identifies schools to receive supports for getting better. The goal is to ensure all students receive an excellent education that can lead to success in life, careers and future learning.

Report cards are only one part of the story about what is happening in schools and districts. To get a more complete picture, we encourage you to visit schools, talk to educators, parents and students, and review the school's or district's webpage. A lot of great things are happening every day in Ohio's schools!

## Traditional School and District Report Cards

Districts and schools report information for the Ohio School Report Cards on specific measures within six broader components. The components are Achievement, Progress, Gap Closing, Early Literacy, Graduation, and College, Career, Workforce and Military Readiness (CCWMR). Districts and schools earn a star rating on the components and an overall star rating. This helps give Ohio parents and schools a snapshot of the quality of education they are providing to students. The [complete technical document for the Traditional School Report Card](#) walks through each component and calculation. # Gap Closing Component

## Overview

Print Component Information

The Gap Closing component shows how well schools are meeting the performance expectations for students in English language arts, math, and graduation. It also measures how schools are doing in supporting English learners to increase language proficiency, reducing chronic absenteeism for all students, and identifying gifted students and providing gifted services.

The annual performance goals are established in six areas, and the performance of specific student subgroups are measured against the annual or long-term goals for each area. Goals are established for English language arts academic achievement and growth, math academic achievement and growth, graduation, English learner language proficiency, chronic absenteeism, and gifted performance. The state expectation for all areas and all student subgroups is to continue closing educational gaps year over year.

The Gap Closing Component uses a series of points based on enrollment of the federal student subgroups and the indicators listed above. A maximum of 75 points is possible for schools and districts.

# GAP CLOSING COMPONENT

**Here's What.**

Here's the data.

**So What?**

So, what does the data tell us?

**Now What?**

Now what do we do?

# TEST YOUR KNOWLEDGE: GAP CLOSING COMPONENT

**True** or **False**

For the gap closing component, the total number of possible points change based on whether there are enough students in a subgroup.

Significantly exceeds state standards in closing educational gaps

# Gap Closing

The Gap Closing component shows how well schools are meeting the performance expectations for our students in English language arts, math, and graduation. It also measures how schools are doing in supporting English learners to increase language proficiency, reducing chronic absenteeism for all students, and identifying gifted students and providing gifted services.

## Annual Performance Goals

The annual performance goals are established in six areas, and the performance of specific student subgroups are measured against the annual or long-term goals for each area. Goals are established for English Language Arts academic achievement and growth, Math academic achievement and growth, graduation, English learner language proficiency, chronic absenteeism, and gifted performance. The state expectation for all areas and all student subgroups is to continue closing educational gaps year over year. A proportional adjustment is applied to schools and districts if their combined testing participation rate in English language arts and math does not meet or exceed 95 percent.

Participation Rate **99.2%**

English Language Arts Achievement	Math Growth	Chronic Absence
Math Achievement	Graduation	Gifted
English Language Arts Growth	English Learners

# Gifted Performance Indicator

## Overview

The Gifted Performance Indicator ([ORC 3302.02 \(A\)](#)) ([OAC 3301-28-04](#)) is a group of three elements in the Gap Closing Component that evaluate the performance of gifted students. The three elements are the Gifted Performance Index, Gifted Progress (Growth), and Gifted Identification and Services. Each element is individually worth a possible 5 points in the Gap Closing Component.

### GIFTED PERFORMANCE INDEX

The gifted performance index ([ORC 3302.02 \(A\)](#)) measures the performance of students who are gifted on state assessments by creating a performance index score ([ORC 3302.01\(A\)](#)) for these students.

### GIFTED PROGRESS

The gifted progress element ([ORC 3302.02 \(A\)](#)) measures the value-added growth ([ORC 3302.021](#)) for students who are gifted.

### GIFTED IDENTIFICATION AND SERVICES

The Gifted Identification and Services element ([ORC 3302.02 \(A\)](#)) measures the percentage of students who are identified as gifted and the percentage of these identified students that received gifted services. Both measures are disaggregated by traditionally underrepresented and economically disadvantaged students as measured by the representation index defined in the section below.

# WHAT IS GIFTED IDENTIFICATION?

- Ohio defines gifted students as students who perform or show potential for performing at remarkably high levels of accomplishment when compared to others of their age, experience or environment.
  - Superior cognitive ability
  - Specific academic ability
  - Creative thinking ability
  - Visual or performing arts ability
- “Once Identified, Always Identified”

# HERE'S WHAT

- Gifted Performance Indicator has 3 elements; points can be earned for each 'met' status.
  - Gifted Performance Index
  - Gifted Progress
  - Gifted Identification and Services

## Gifted

Value Added Rating	3 Stars
Value Added Met?	Met
Performance Index	115.9
Performance Index Met?	Not Met
Total Points	81.0
Gifted Identification and Services Met?	Met

[View More Gifted Data](#)

# GIFTED PERFORMANCE INDEX

Only tests taken by students identified as gifted in that subject (e.g. gifted in Math and taking the Math test) or taken by students identified with Superior Cognitive abilities regardless of test subject are included.

Achievement Level	Pct of Students		Points for this Level	=	Points Received
Advanced Plus	6.5	X	1.3	=	8.4
Advanced	60.6	X	1.2	=	72.8
Accomplished	27.1	X	1.1	=	29.8
Proficient	4.5	X	1.0	=	4.5
Basic	0.6	X	0.6	=	0.4
Limited	0	X	0.3	=	0
Untested	0.6	X	0.0	=	0.0
					115.9
					115.871 of a possible 120.556

# MAX PERFORMANCE INDEX

- Each year the maximum possible score is determined by the state average of the highest 2% performance index scores of gifted students. The state average is calculated at the district level and school level.

## District Max Gifted PI

Gifted Performance Index	
Performance Index:	115.871
Max Gifted Performance Index:	120.556
Performance Index Percentage:	96.1%
Performance Index Met?	Not Met

The Gifted Performance Index Score uses the same calculation rules as the regular Performance Index Score, including applicable tests as required in state law. The Gifted Performance Index Score is calculated only for students identified as gifted in the school/district. In 2022-2023, schools and districts must earn 96.5% of the maximum score on this element to receive points towards the Gap Closing Component.

## School Max Gifted PI

Gifted Performance Index	
Performance Index:	115.814
Max Gifted Performance Index:	121.496
Performance Index Percentage:	95.3%
Performance Index Met?	Not Met

The Gifted Performance Index Score uses the same calculation rules as the regular Performance Index Score, including applicable tests as required in state law. The Gifted Performance Index Score is calculated only for students identified as gifted in the school/district. In 2022-2023, schools and districts must earn 96.5% of the maximum score on this element to receive points towards the Gap Closing Component.

# What students count in the Gifted Performance Index Measure?

- Students who are identified as Gifted AND took the assessment in the subject area identified.

## 2022-2023 School Year Where Kids Count Methodology

### Introduction

In order for students to be included in a school's or district's accountability calculations, the data submitted by the district must pass through several layers and checks. After the data passes all of the error checking done during the aggregation process at the ITC (formerly DA-Site), the data are submitted to ODE. ODE then applies its business rules to the data in the form of "filters." The purpose of these filters is to determine:

- Whether students are included at the building, district, or state level and then,
- Which students should be included in each calculation and total.

### TABLE OF CONTENTS

*Introduction* ..... 1  
*Business Rules* ..... 2  
*Elements Calculated Using the 'Full Academic Year' criteria* ..... 3

# What tests count in the Gifted Performance Index Measure?

- Only tests taken by students identified as gifted in that subject (e.g. gifted in Math and taking the Math test) or taken by students identified with Superior Cognitive abilities regardless of test subject are included.
- State Tests
  - Ohio's State Test (GN)
  - End of Course Assessments (GE)
  - Alternate Assessments (GA or GX)
- Substitute Tests
  - Advanced Plus (AP)
  - International Baccalaureate (IB)

# HOW MANY STUDENTS MUST WE HAVE?

- 15 accountable students taking assessment in the area of Giftedness
- Highmeadow- 16 total accountable tests taken
- Cottonwood- 5 total accountable tests taken

School & Grade Level	Tested Math	WKC Math	WKC and Gifted in Math
Highmeadow-Third Grade	39	20	<b>3</b>
Highmeadow-Fourth Grade	31	28	<b>4</b>
Highmeadow-Fifth Grade	50	40	<b>9</b>
Cottonwood-Third Grade	9	4	0
Cottonwood-Fourth Grade	8	5	2
Cottonwood-Fifth Grade	12	10	

# GIFTED PROGRESS

## Gifted Progress

Value Added Rating:	3 Stars
Value Added Met?	Met

The Gifted Progress element measures academic growth for students identified as gifted. A school or district must earn the equivalent of a 3 Star rating or better to receive points towards the Gap Closing Component.

### To earn 3 or more stars

Achieve a gain index of -2 or higher regardless of effect size

- The higher the gain index, the higher the star rating

Calculated same as all-student value-added measure but with only gifted students

- Test is used only when it matches the subject where the student is identified as gifted

### Must have 15 accountable students

- 15 students accountable within a subject/grade level combination ***with*** tests in a prior year

Could have a gifted PI, but not a gifted value-added

# GIFTED IDENTIFICATION AND SERVICES

---

## Several Different Percentages

Identification

Service

Representation Index

# What students count in the Gifted Identification?

- Reported as Identified in Current Year
- Newly Identified students must be identified before March 31<sup>st</sup> of that school year

<b>STUDENT GIFTED EDUCATION (GG) RECORD - IDENTIFICATION</b>	
<b>Code</b>	<b>Area of Giftedness</b>
GG200	Superior Cognitive
GG210	Math
GG220	Science
GG230	Reading/Writing
GG240	Social Studies
GG250	Creative Thinking
GG260	Visual/Performing Arts

# IDENTIFICATION PERCENTAGES

- Calculated by dividing the FTE of students identified as gifted by total FTE in the school or district
- Districts have the opportunity to earn points for 5 different identification percentages
- Schools have the opportunity to earn points for 2 different Identification Percentages.

District

- Superior Cognitive and Specific Academic Ability Identification Percentages
  - K-2 Grade Band
  - 3-6 Grade Band
  - 7-8 Grade Band
  - 9-12 Grade Band
- Creative Thinking and Visual or Performing Arts Ability Identification Percentages
  - K-12 Grade Band

School

- Superior Cognitive and Specific Academic Ability Identification Percentages
  - K-12 Grade Band
- Creative Thinking and Visual or Performing Arts Ability Identification Percentages
  - K-12 Grade Band

# WHAT IS GIFTED SERVICES?

Gifted services shall be guided by a Written Education Plan (WEP). The district shall provide parents with periodic reports regarding the student's progress toward meeting goals and the effectiveness of the services provided in accordance with the Written Education Plan.

# What students count in the Gifted Identification?

- Reported as Identified in Current Year and reported with Gifted Serve Element
  - Newly Identified students must be identified before March 31<sup>st</sup> of that school year
- Gifted services provided at any time in the Current Year

<b>STUDENT GIFTED EDUCATION (GG) RECORD - SERVICES</b>	
<b>Code</b>	<b>Area of Giftedness</b>
GG510	Superior Cognitive
GG520	Math
GG530	Science
GG540	Reading/Writing
GG550	Social Studies
GG560	Creative Thinking
GG570	Visual/Performing Arts

# SERVICE PERCENTAGES

Calculated by dividing the FTE of students who received services by total FTE of students identified as gifted

Districts have the opportunity to earn points for 5 different identification percentages

Schools have the opportunity to earn points for 2 different Identification Percentages.

District

- Superior Cognitive and Specific Academic Ability Service Percentages
  - K-2 Grade Band
  - 3-6 Grade Band
  - 7-8 Grade Band
  - 9-12 Grade Band
- Creative Thinking and Visual or Performing Arts Ability Identification Percentages
  - K-12 Grade Band

School

- Superior Cognitive and Specific Academic Ability Service Percentages
  - K-12 Grade Band
- Creative Thinking and Visual or Performing Arts Ability Service Percentages
  - K-12 Grade Band

# WHAT IS REPRESENTATION INDEX?

- **Ratio of Percentages**
  - *Are students in a subgroup identified (served) as often as students in the overall school population?*
- **Calculated for two subgroups**
  - *Economically Disadvantaged*
  - *\*Underrepresented Minority*
- **Calculated for**
  - *Identification*
  - *Service*

REPRESENTATION INDEX EXAMPLE		
STEP 1	STEP 2	STEP 3
Calculate the percentage of economically disadvantaged students in the all-student population	Calculate the percentage of economically disadvantaged students in the gifted student population	Calculate the Representation Index by dividing the representation among gifted students by the representation among all students
If there are 1,000 students in the all-student population and 200 students are identified as economically disadvantaged, 20% of the all-student population is economically disadvantaged	If there are 300 students in the gifted student population and 30 of those students are identified as economically disadvantaged, 10% of the gifted student population is economically disadvantaged	Representation Index = 10% of gifted student population is economically disadvantaged divided by 20% of the all-student population is economically disadvantaged

*\*Includes African American, Hispanic, Multi-Racial, American/Alaskan Native and Pacific Islander*

2021-2022: need 66 points to meet the 60% threshold

2022-2023: need 77 points to meet the 70% threshold

2023-2024: need 88 points to meet the 80% threshold

# SECURE DATA CENTER

The screenshot shows the navigation menu of the Ohio Department of Education and Workforce Report Portal. The menu is organized into a sidebar on the left and a main content area on the right. The sidebar includes the following items:

- Home
- Public Data
- Finance
- Teacher Reports
- Secure Data Center** (highlighted with a red box)
- Nonpublic Data

The main content area displays the following items:

- Department of Education and Workforce Report Portal
- Ohio Department of Education and Workforce Report Portal! The department is currently in the early stages of transitioning to a new reporting platform, and the Reports Portal currently displays the specific information you are looking for.
- Career and Technical Education
- Discipline
- Enrollment** (highlighted with a red box)

## Traditional School and District Report Cards

Districts and schools report information for the Ohio School Report Cards on specific measures within six broader components. The components are Achievement, Progress, Gap Closing, Early Literacy, Graduation, and College, Career, Workforce and Military Readiness (CCWMR). Districts and schools earn a star rating on the components and an overall star rating. This helps give Ohio parents and schools a snapshot of the quality of education they are providing to students. The [complete technical document for the Traditional School Report Card](#) walks through each component and calculation. For more information, [other new and detailed documents are available at the link below.](#)

# Chronic Absenteeism Improvement Indicator

## Overview

Ohio's [Every Student Succeeds Act \(ESSA\) plan](#) identifies chronic absenteeism as an additional measure of school quality or student success as there is a significant body of research around the impact of chronic absenteeism on academic performance. A student is considered chronically absent if they miss at least 10 percent of instructional time (excused or unexcused) for any reason.

Print Indicator Information

The [Chronic Absenteeism Improvement Indicator \(ORC 3302.02\(A\)\(3\)\)](#) compares the chronic absenteeism rates of schools and districts against annual goals and benchmarks set for year over year improvement. For the 2022-2023 school year, this indicator will contribute a possible 5 points to the Gap Closing Component. Please refer to the [Gap Closing Component Technical Documentation](#) for detailed business rules and calculations.

Districts and schools meet the indicator if they meet the established threshold or show improvement from the previous year by:

- » Meeting or exceeding the annual goal for chronic absenteeism, or;
- » Meeting an improvement standard relative to the starting point of each school or district via absolute or relative improvement.

Whether excused or unexcused, missing too much school has detrimental effects on a student's learning trajectory. This indicator is key to helping districts and schools identify trends to assist in directing supports geared toward students' needs.

## 2022-2023 School Year Chronic Absenteeism Improvement Indicator TRADITIONAL DISTRICT AND SCHOOL REPORT CARDS

### Introduction

The Chronic Absenteeism Improvement Indicator compares the chronic absenteeism rate of schools and districts against annual goals and improvement benchmarks. **This indicator was reported for informational purposes only on the 2021-2022 Local Report Card. Starting with the 2022-2023 school year, the chronic absenteeism improvement indicator contributes a possible 5 points to the Gap Closing Component.**

### TABLE OF CONTENTS

<i>Introduction</i> .....	1
<i>Overview of Indicator/Measure</i> .....	2
<i>Data Elements and Data Source</i> .....	2
<i>Business Rules</i> .....	2
<i>Chronic Absenteeism Rate</i> .....	3
<i>Chronic Absenteeism Improvement Indicator</i> .....	3
<i>Appendix A: Inclusion Criteria</i> .....	5

# HERE'S WHAT

- Districts and schools earn 5 points if they :
  - Meet or exceed the annual goal
  - Meet an improvement standard relative to the starting point of each district or school.

## Chronic Absence

**17.7%**

Of students were chronically absent in the  
2022-2023 school year

Chronic absenteeism is defined as missing at least 10 percent of instructional time for any reason – excused or unexcused. The annual performance goal for the 2022-2023 school year is 20.2%.

# STUDENT ABSENCE RATE

$$\text{Absence Rate} = \frac{\text{Sum of Total Absence Hours (excused or unexcused)}}{\text{Total possible Attendance Hours}}$$

Example: : The student is enrolled from October through the end of the school year.

Numerator: Total Absence Hours = 235 hours

Denominator: Total Enrolled Hours = 960.6 hours

2022-2023 School Year  
Attendance Data Technical Documentation

**Introduction**  
The student attendance rate reports the aggregate percent of time that enrolled students in a school or district are in attendance over the course of a school year.

**TABLE OF CONTENTS**

- Introduction ..... 1
- Overview of Indicator/Measure ..... 2
- Data Elements and Data Source..... 2
- Business Rules ..... 3

Ohio Department of Education

# CHRONIC ABSENTEEISM

- Chronic absence is defined as a student missing 10% or more of the school year for any reason – excused, medically excused, unexcused and suspensions.
- Chronic absence is different from other commonly tracked attendance metrics such as truancy and Average Daily Attendance (ADA).

*Student is  
Chronically  
Absent*

# BASE FTE

$$\text{Base FTE} = \frac{\text{Total Enrolled Hours} \times \text{Total Percent of Time}}{\text{Total Instructional Hours}}$$

Example: The student is enrolled from October through the end of the school year.

Total Enrolled Hours = 960.6 hours

Total Percent of Time = 1.00 (100%)

Numerator = 960.6 x 1.00 = 960.6 hours

Denominator = 1,026 total instructional hours in Calendar

## Level 2 Report Explanation: FTE Reports

The purpose of this report explanation is to assist EMIS Coordinators in reviewing the FTE Detail Report, the FTE Adjustments Report, the FTE Total by Fund Pattern Report, the FTE Total by Student and Fund Pattern Report, the FTE Total by Student Report, and the FTE Summary of Students with Adjustments Report.

 Ohio | Department of Education

 EMiS

Revised: March 16, 2023

# WHAT STUDENTS COUNT IN THE CHRONIC ABSENTEEISM MEASURE?

- Students who are enrolled and have at least 100 hours of possible attendance

## Does NOT Count

- Hours of Enrollment – 30 (5 days, 6hrs per)

## Does Count

- Hours of Enrollment- 150 (25 days, 6hrs per)

## Does Count

- Hours of Enrollment- 960 (160 days, 6 hrs per)

# CALCULATING CHRONIC ABSENTEEISM RATE

- Numerator- Sum of FTEs for students who are considered chronically absent
- Denominator- Sum of FTEs for all student enrolled

Chronic Absenteeism Category	2022-2023 School Year

## Traditional School and District Report Cards

Districts and schools report information for the Ohio School Report Cards on specific measures within six broader components. The components are Achievement, Progress, Gap Closing, Early Literacy, Graduation, and College, Career, Workforce and Military Readiness (CCWMR). Districts and schools earn a star rating on the components and an overall star rating. This helps give Ohio parents and schools a snapshot of the quality of education they are providing to students. The [complete technical document for the Traditional School Report Card](#) walks through each component and calculation. # English Language Proficiency Improvement Indicator

## Overview

[Print Indicator Information](#)

The English language proficiency improvement measure (ELP Improvement) will give credit for English learners who achieve proficiency and for those who meet improvement goals for expected progress toward proficiency on the Ohio English Language Proficiency Assessment (OELPA). Points will be awarded based on the percent of English Learners' who show improvement from one year to the next and will contribute to the rating assigned to the Gap Closing component on the Ohio School Report Cards.

OELPA consists of four domain tests: Reading, Writing, Listening, and Speaking. Students receive a score of 1 to 5 on each domain, and achieve proficiency and exit EL status by earning a combination of 4's and 5's across all domains they are required to complete. An EL is required to complete all four domains unless that student has a disability for which no vendor accommodation exists. In such cases, the district must report in EMIS that the student was exempt from that domain because no accommodation exists.

Proficiency on one domain does not exempt a student from completing that domain in a future year if the student continues to be identified as an English learner. If a student is required to complete all four domains and scores proficient on three out of the four domains on one attempt, the student must continue to take all four domains on subsequent attempts and remains an English learner until proficiency is attained on all four domains in the same year.

The ELP Improvement measure uses only performance and improvement on the OELPA – no other tests are used. Each EL is assigned an improvement target for growth using the student's grade level when initially identified as an EL and the summed score on the initial OELPA. Districts and schools earn credit for accountable students who either meet or exceed their annual improvement targets or score proficient on the OELPA.

## 2022-2023 School Year English Language Proficiency (ELP) Improvement Measure

### Introduction

Section 1111(c)(4)(A)(ii) of the Every Student Succeeds Act (ESSA) requires states to measure how well schools and districts are doing in getting students whose native language is not English to become proficient in English. The Ohio Department of Education began measuring school and district progress in this area as part of the Gap Closing component on the 2017-18 Ohio School Report Card. The English language proficiency improvement measure (ELP Improvement) will give credit for English learners who achieve proficiency and for those who meet improvement goals for expected progress toward proficiency on the Ohio English Language Proficiency Assessment (OELPA). Points will be awarded based on the percent of English Learners' who show improvement from one year to the next and will contribute to the rating assigned to the Gap Closing component on the Ohio School Report Cards.

OELPA, first administered in the 2015-16 school year, consists of four domain tests: Reading, Writing, Listening, and Speaking. Students receive a score of 1 to 5 on each domain, and achieve proficiency and exit EL status by earning a combination of 4's and 5's across all domains they are required to complete. An EL is required to complete all four domains unless that student has a disability for which no vendor accommodation exists. In such cases, the district must report in EMIS that the student was exempt from that domain because no accommodation exists. This reporting is done by using the Score Not Reported code of "L" in the Assessment Record (Record FA235).

Proficiency on one domain does not exempt a student from completing that domain in a future year if the student continues to be identified as an English learner. If a student is required to complete all four domains and scores proficient on three out of the four domains on one attempt, the student must continue to take all four domains on subsequent attempts and remains an English learner until proficiency is attained on all four domains in the same year.

The ELP Improvement measure uses only performance and improvement on the OELPA – no other tests are used. Each EL is assigned an improvement target for growth using the student's grade level when initially identified as an EL and the summed score on the initial OELPA.

Districts and schools earn credit for accountable students who either meet or exceed their annual improvement targets or score proficient on the OELPA.

### TABLE OF CONTENTS

<i>Overview of Indicator/Measure</i> .....	2
<i>Data Elements and Data Source</i> .....	2
<i>Business Rules</i> .....	2

# What students count in the English Language Proficiency Measure?

- Students who are identified as English Learners who have taken two consecutive OELPA assessments or first-time test taker of OELPA and tested proficient

## 2022-2023 School Year Where Kids Count Methodology

### Introduction

In order for students to be included in a school's or district's accountability calculations, the data submitted by the district must pass through several layers and checks. After the data passes all of the error checking done during the aggregation process at the ITC (formerly DA-Site), the data are submitted to ODE. ODE then applies its business rules to the data in the form of "filters." The purpose of these filters is to determine:

- Whether students are included at the building, district, or state level and then,
- Which students should be included in each calculation and total.

### TABLE OF CONTENTS

*Introduction* ..... 1  
*Business Rules* ..... 2  
*Elements Calculated Using the 'Full Academic Year' criteria* ..... 3

# IDENTIFYING ENGLISH LEARNERS

- **Step 1:** Language Usage Survey

- Schools must identify students who are English learners **within 30 days of the student's enrollment.**

- **Step 2:** Ohio English Language Proficiency Screener

- Parent and Family Notification of English Learner Identification

# ASSESSING ENGLISH LEARNERS

Ohio English Language Proficiency Assessment (OELPA) is the state summative test that districts administer to students identified as English learners in grades K-12 to determine an English learner's progress to English language proficiency and readiness to exit from the English language development program.

There are three overall performance levels:

- 1 - Emerging
- 2 - Progressing
- 3 - Proficient

Students with an overall performance level of Proficient may be exited from English learner status.

# LONG-TERM GOALS: ENGLISH LANGUAGE PROFICIENCY IMPROVEMENT INDICATOR

<b>ENGLISH LEARNER PROFICIENCY IMPROVEMENT INDICATOR INTERIM AND LONG-TERM GOALS</b>

[2022-2023 English Language Proficiency \(ELP\) Improvement Measure Technical Documentation](#)

# HOW TO MEET THE GOAL

Students meet target for annual progress

Students reach English proficiency

Overall improvement of 10% or more

If the percentage of all ELs improving or reaching proficiency is greater than or equal to the annual goal, five points are assigned.

If the percentage of all ELs improving increases by 10%, five points are assigned.

# INDIVIDUAL STUDENT TARGETS FOR ENGLISH LANGUAGE PROFICIENCY (ELP) IMPROVEMENT INDICATOR

Enrolled Grade for Student's 1st OELPA	Sum of Initial OELPA Domain Scores	Target for Annual Improvement
K-8	4-11 points	<b>+2 points</b> per year
K-8	12-20 points	<b>+1 point</b> per year
9-12	4-7 points	<b>+2 points</b> per year
9-12	8-20 points	<b>+1 point</b> per year

## Example A

Grade 3: Reading 3 Listening 4 Writing 2 Speaking 3 

# INDIVIDUAL STUDENT TARGETS FOR ENGLISH LANGUAGE PROFICIENCY IMPROVEMENT INDICATOR

Enrolled Grade for Student's 1st OELPA	Sum of Initial OELPA Domain Scores	Target for Annual Improvement
K-8	4-11 points	<b>+2 points</b> per year
K-8	12-20 points	<b>+1 point</b> per year
 9-12	 4-7 points	 <b>+2 points</b> per year
9-12	8-20 points	<b>+1 point</b> per year

## Example B

Grade 9: Reading 1 Listening 2 Writing 1 Speaking 2 

# SECURE DATA CENTER

The screenshot shows a dashboard interface with a dark red header containing a 'Home' dropdown. On the left is a navigation menu with categories: Public Data, Finance, Teacher Reports, Secure Data Center (highlighted with a red box), and Nonpublic Data. The 'Secure Data Center' menu is expanded, listing: Career and Technical Education, Discipline, Enrollment, Financial, Graduation, Improving At-Risk K-3 Readers, Student Attendance, Teacher and Staff, Test Results (highlighted with a red box), Value Added, and Local Report Card. The 'Test Results' item is further expanded into a sub-menu listing: District Test Results and Proficiency Levels, School Test Results and Proficiency Levels, District End of Course Improvement Indicator, School End of Course Improvement Indicator, District AMO Participation Rate, School AMO Participation Rate, District Kindergarten Readiness, School Test Results and Proficiency Levels (Sponsors), School End of Course Improvement Indicator (Sponsors), School AMO Participation Rate (Sponsors), District Kindergarten Readiness (Sponsors), and District OELPA Progress (highlighted with a red box). The main dashboard area contains several data cards with icons and titles such as 'District Test Results and Proficiency Levels', 'School Test Results (Sponsors)', 'School End of Course Improvement Indicator', 'School AMO Participation Rate', and 'District Kindergarten Readiness'. A speaker icon is visible on the right side of the dashboard.

# ENGLISH LANGUAGE ARTS, MATH ACHIEVEMENT BY STUDENT SUBGROUP MEASURE

# HERE'S WHAT?

Underlying measure data is comparable to prior year's performance. Based on performance goals in Ohio's ESSA plan, meeting or exceeding by student subgroup.

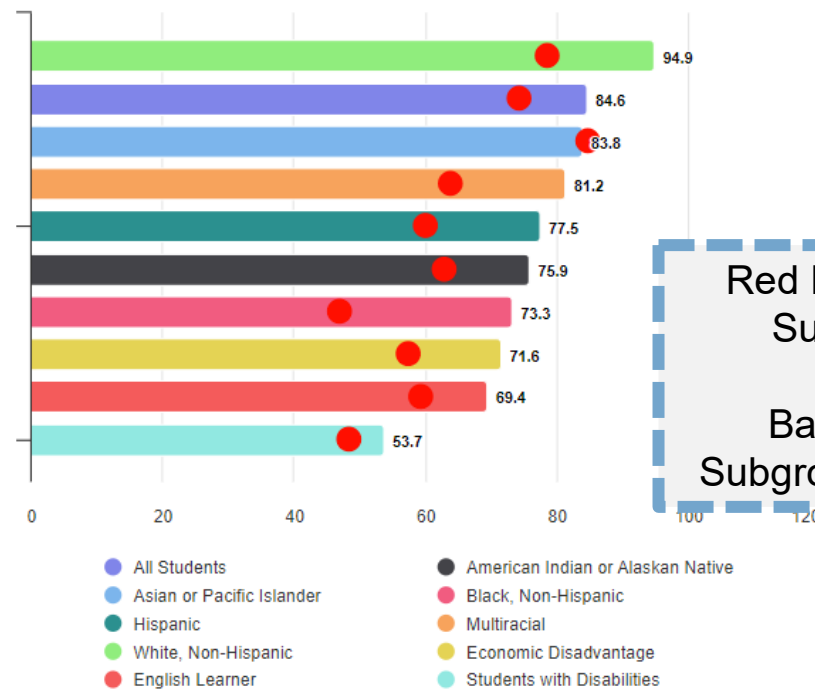

English Language Arts Achievement

Performance Index by Subgroup

Math Achievement

Performance Index by Subgroup

Red Dot = Individual Subgroup Goal

Bar = Individual Subgroup Performance

# DISAGGREGATED PERFORMANCE INDEX

- The Performance Index measures the test results of every student, not just those who score proficient or higher. Schools and districts receive points on the index for every student who takes a test. The higher the performance level on the state tests, the more points awarded toward the index score. The index score is divided by the maximum possible score. Each year the maximum possible score is determined by the average of the highest 2% performance index scores in the state.

# What students count in the ELA, Math Achievement?

## 2022-2023 School Year Where Kids Count Methodology

### Introduction

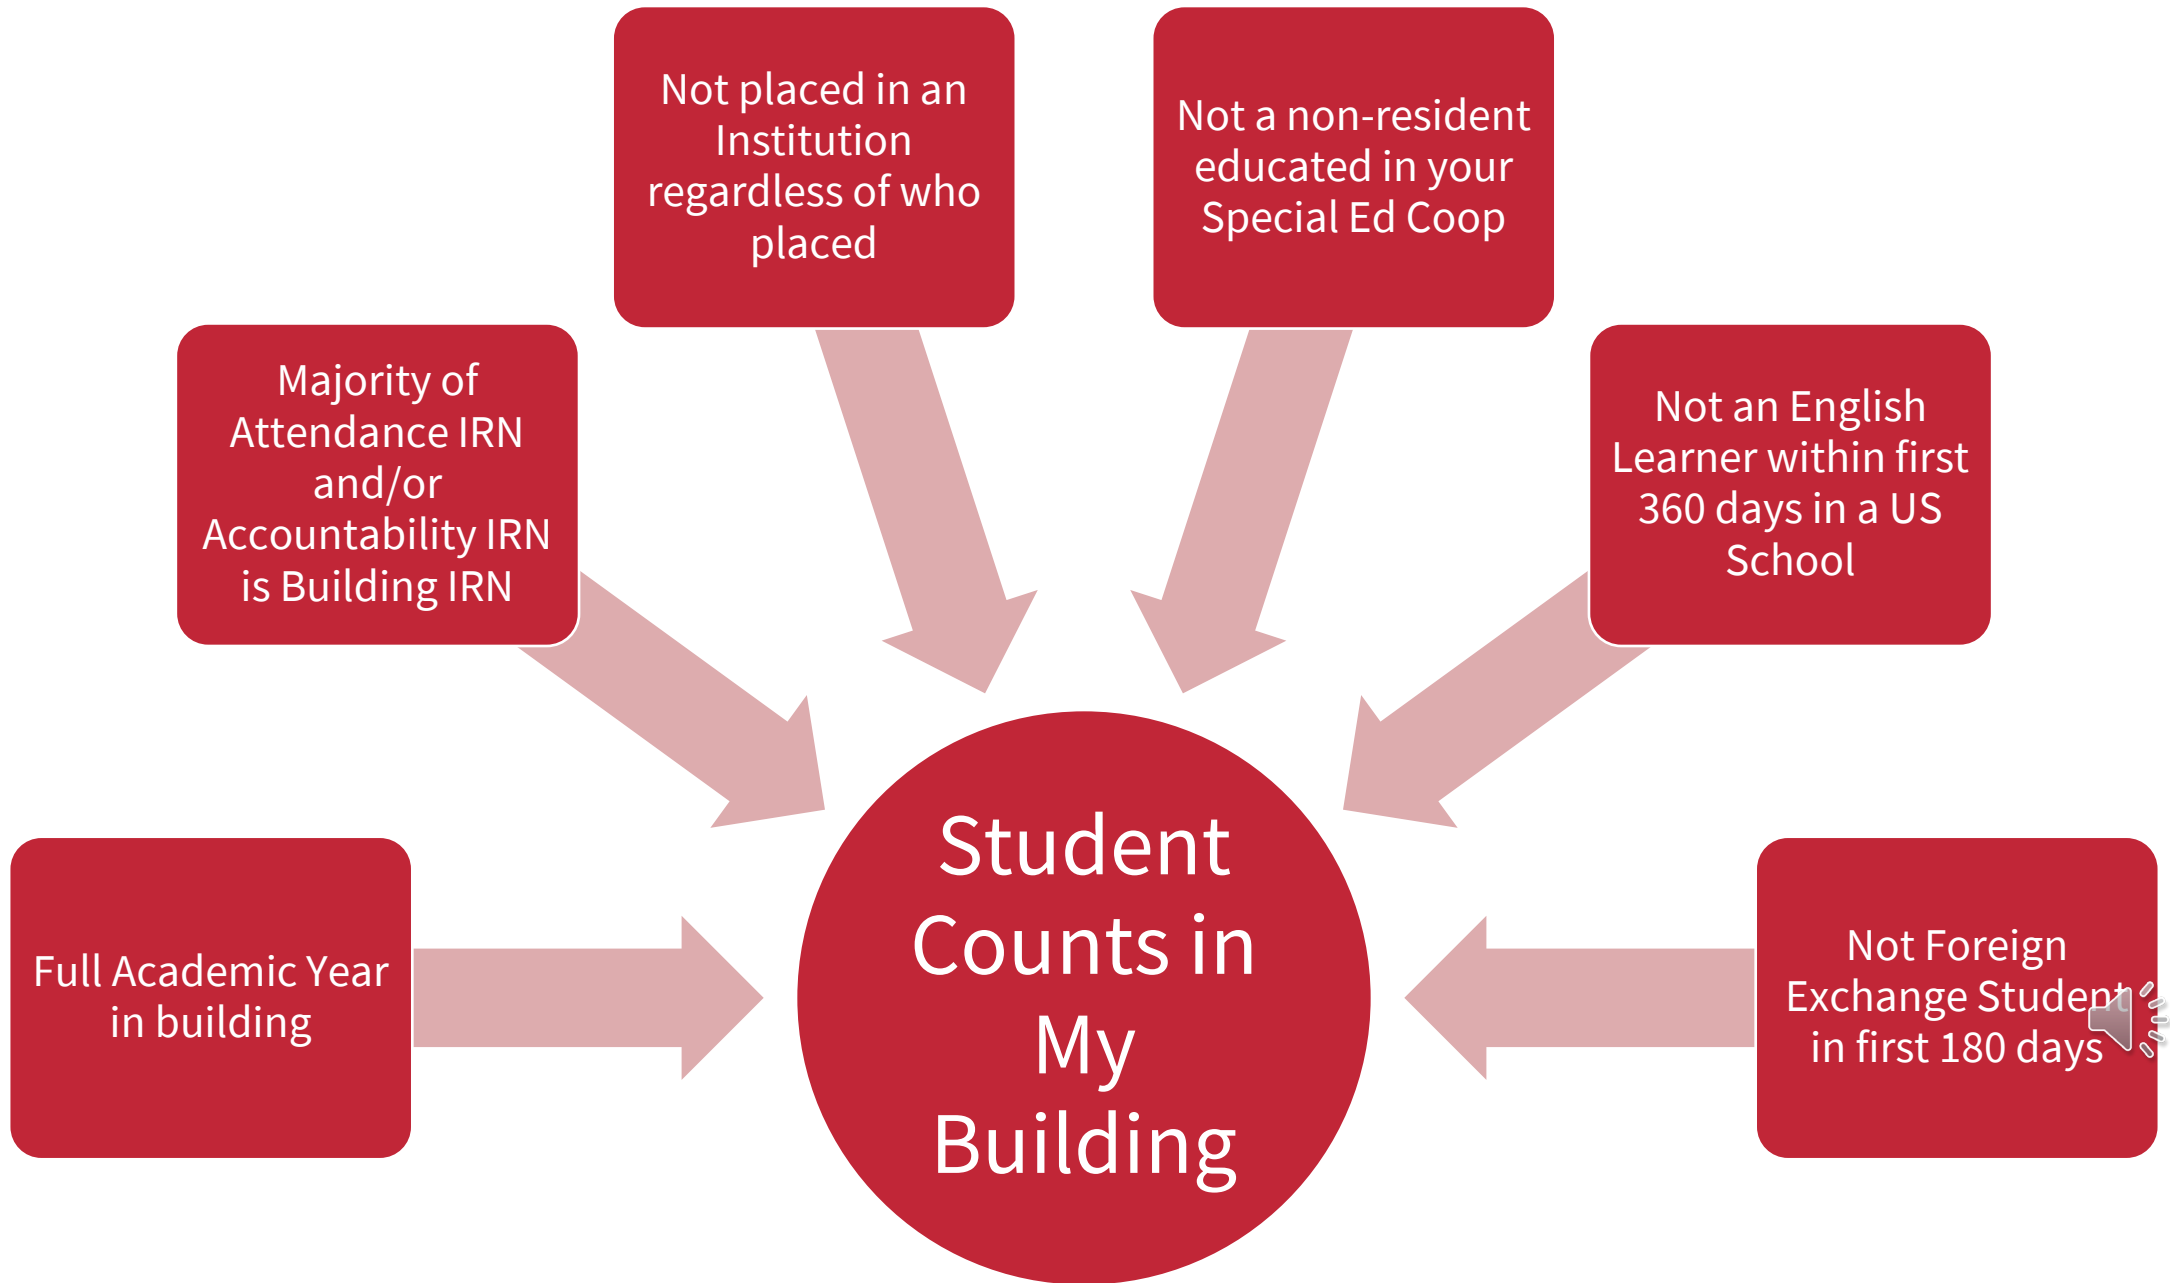

In order for students to be included in a school's or district's accountability calculations, the data submitted by the district must pass through several layers and checks. After the data passes all of the error checking done during the aggregation process at the ITC (formerly DA-Site), the data are submitted to ODE. ODE then applies its business rules to the data in the form of "filters." The purpose of these filters is to determine:

- Whether students are included at the building, district, or state level and then,
- Which students should be included in each calculation and total.
