

# Impact Story

## Zanesville High School

Zanesville City Schools

High School Demographics	
Students Impacted	829
Students with Disabilities	232
Economically Disadvantaged	737
Teachers Impacted	55

Zanesville, Ohio  
Muskingum County

### Needs Based Assessment

Students communicated that they enjoy the opportunity to build relationships with teachers and appreciate being celebrated for their accomplishments. Teachers have been explicitly engaged in the redesign process.

## Year One in Review

### August Kickoff Ceremony

During the August kick-off, we identified we have been operating within an outdated-school structure. We must reimagine and redesign our structure to mimic the workforce of today is not only overdue, but vital to our students' future success.

### Post-Secondary Pathways Dec. 2019

Investigating Post-Secondary Pathways Lever pushed us to take a deeper look at how we could provide opportunities for career exploration. Specifically, in the areas of credential opportunities, work-based learning and internships.

Then

### Organizing Adults and Students Oct. 2019

With Organizing Adults and Students at the Center, ZHS has been creating an environment where students and staff feel connected, safe, and valued to support the belief that our building is "all about relationships."

Now

### Teaching and Learning Jan. 2020

The Teaching and Learning Lever highlighted the need to look at rigor, literacy, and blended learning within our classes. Literacy professional development with MindPlay and teacher to teacher observations for blended learning have been encouraged.

### Focus lever/Evidence base

We will be focusing on the Post-Secondary Pathways Lever.

"I am so excited to be able to think about how we can really prepare our students for the real world. It is essential that we offer pathways for our students that will lead them to future success."

### Proposed Activity

Using the Post-Secondary Pathways Lever, we will be expanding internship opportunities and providing access to credentials within the areas of Arts & Communication, Business, Marketing & Finance, Law & Public Safety, and Manufacturing.
