Guidelines for Allowable Supports

- Universally Designed Allowances for all students
    - Directions
    - Item Presentation
    - Student Response
    - Setting
    - Scheduling

Determining a Score

- Leave items blank that were not administered (items cannot be administered remotely)

- Use 0 for items where a child does not demonstrate the skill according to the scoring criteria

- Use Not Scorable (NS) only for Students with Disabilities or students who are English learners

  – NS means the teacher was not able to score the item because the child could not access it given allowable supports

Additional Supports for Students with Disabilities

- Use a decision-making process item by item
- Supports differ depending on whether an item is a selected response/performance task or observational rubric item
- Use braille
- Use sign language
- Allow student to gesture, use eye gaze, use augmentative communication device
