TOP 5 KRA TIPS
FOR ADMINISTRATORS

1 **CHECK OUT NEW RESOURCES FOR YOU!**

Congratulations on successfully completing this year's administration of the Kindergarten Readiness Assessment! We've created video resources to help you utilize your KRA data! Use the links below to check them out:

- **Understanding and Using the Scale Score Report** - Learn how to generate, filter, and use this data to identify trends!

- **Accessing the KRA Zip File in KReady** - Learn how to generate a ZIP file of all Individual Student Reports (ISRs) for a district, region, or school.

- **Understanding and Using the KRA Data Displays** - Learn how to filter, analyze, and gain deeper insights into student performance across multiple domains and groups.

2 **RESOURCES FOR TEACHERS TOO!**

Remind your teachers about new resources available just for them in the KReady PD portal! A brand new video series is also available for teachers on how to access, analyze and utilize the KRA data that they've collected. This video will help guide your teachers there!

3 **CELEBRATE THE WINS!**

Celebrate your teachers for completing the KRA while setting up classroom norms—it's no small feat! Treat them to something special—they've earned it!

5 **PULL SCHOOLWIDE DATA**

KRA data is a powerful tool for identifying current students who may have gaps or need acceleration, allowing you to tailor support and enrichment for this school year. Additionally, reviewing trends over the past few years can help you make informed programming and instructional decisions to better prepare for incoming kindergarteners.

4 **SECURE YOUR MATERIALS**

The KRA is a secure assessment and maintaining its integrity is essential. Now that the administration is complete, ensure all resources, including test materials and notes, are collected and securely stored. This helps protect the fidelity of the assessment process.
