After submitting the original budget, grantees may determine that a revision to the original application budget is necessary. Revisions are required prior to obligations in an object/function category exceeding 10 percent of the most current approved budget cell. A budget revision is also REQUIRED to add a function/object code not previously budgeted. Budget revisions must be completed when the activity is *contemplated – prior to obligating funds that exceed the 10% threshold*.

Grantees may begin obligating expenses in accordance with the revised budget once it is submitted in substantially approvable form – as of the revisions substantially approved date. Changes to the new budget are not retroactive to the original substantially approved date.
