Funding reflects the most current data available and includes **ALL** updates authorized by **Am. Sub. HB 96** (the current biennial budget).

Information Relevant to the January Payment

- Enrolled ADM and all categorical data (special education, English learners, CTE and economically disadvantaged students) is based on information compiled as of December 30, 2025.
- FY2026 Transportation ridership data is used for calculation of transportation funding.
- The January payment included the first installment of the Quality Community School Support Fund payments for FY2026. The statewide appropriation for this is $115,000,000 for FY2026. Since the January payment exceeded this amount, it was prorated at 81.689140%. Payments for eligible community and STEM schools will be calculated and disbursed monthly for the remainder of the fiscal year. These payments will be annualized and the January installment will be larger as it will be a catch-up payment. For questions about eligibility, please consult the Office of Community Schools.
- Disadvantaged Per Pupil Impact Aid (DPIA) is now calculated using a formula that consists of 75% FY2025 Economically Disadvantaged (ED) Average Daily Membership (ADM) and 25% FY2026 Directly Certified students. Per HB 434, the weighted Economically Disadvantaged ADM cannot exceed the Enrolled ADM for a community school. In the case where the Weighted ED ADM exceeded the enrolled ADM, the Weighted ADM is constrained to the Enrolled ADM amount.
- Facilities funding was paid at $1,000 per FTE for brick-and-mortar community schools and $25 per FTE for e-schools. The total appropriation for facilities funding is $90,155,000. Since the January payment exceeded this amount, it was prorated at 97.8073307%.
