# HQIM Dashboard Guidebook

This guidebook provides support to schools, districts, educational service centers, state support teams, and Ohio’s families in understanding how to navigate the Department of Education and Workforce high-quality instructional materials (HQIM) dashboard. Under [Ohio Revised Code 3313.6028](#), the Department is required to review and approve high-quality core curriculum and instructional materials in English language arts (prekindergarten-grade 5) and evidence-based reading intervention programs (prekindergarten-grade 12) aligned with the science of reading and strategies for effective literacy instruction. Beginning not later than the 2024-2025 school year, each school district, STEM school, and community school is required to use materials only from the [Department’s approved lists](#), as well as report this information to the Education Management Information System (EMIS). The HQIM dashboard provides information based on the 2024-2025 EMIS data, showing which materials are being used across the state from the Department’s approved lists. The HQIM dashboard breaks down the materials by school/district type, as well as by the most used materials for both core curriculum and intervention across the state.

## Accessing the HQIM Dashboard

The HQIM dashboard can be accessed in two different ways. First, it can be reviewed on the [Department’s HQIM in English Language Arts webpage](#), as it is directly embedded here. Additionally, the HQIM dashboard can be viewed in the [Department’s Reports Portal](#). From here, users will select “Public Data,” then select the tile titled “HQIM in ELA and Reading Intervention.”

***It is important to note that this data was as reported in EMIS by the time of the 2024-2025 window closing in August 2025. At the end of the 2024-2025 reporting window, 144 schools and districts reported using materials that were not aligned, partially aligned, or had not yet reported their information in EMIS. As of December 31, 2025, 132 of these schools and districts had reported approved materials. This updated information will appear when the dashboard is updated with data from the 2025-2026 school year in late 2026.***

# HQIM Dashboard Overview

## A. INTRODUCTION TO DASHBOARD FUNCTIONALITY

There are two tabs displayed in the report:

1. **Map** contains a filterable map of High-Quality Instructional Materials reported for ELA Core Curriculum and Interventions across the state.
2. **Most-Used Instructional Materials** shows the most used ELA Core Curriculum and Interventions by type in table form. This tab also allows users to see what is most used across the state overall, as well as through a variety of filters.

In both of these tabs, the user can select various options via “slicers” to filter the data displayed by school/district name and/or type, as well as grade level and implementation status.

## B. OVERVIEW OF MAP

In the Map tab, the user can select various options via “slicers” to filter the data displayed by:

- School Year
- School/District Type
- School/District Name
- Grade Level
- Material Type
- Material Status
- ELA Core Curriculum/Intervention Name

Depending on what is selected in the slicers, both the map and the chart below will update to match the data reported during the school year selected.

*Note: As this is the first year of required reporting, data is only available for the 2024-2025 school year. As presented in a note at the top of the tab, all displays are based on data reported to the Department by Ohio’s schools and districts. Reporting may be incomplete.*

## TABLE

The table below the map shows the reported information, specific to the selected slicers. The data shown in this table reflects information that was directly reported to EMIS for the 2024-2025 school year. **There is more information in this table than may fit on the screen. Please use the sliding scroll at the bottom to make sure you have reviewed all information provided.** Information reported in this table includes:

- **District/School IRN** lists the district/school's unique Information Retrieval Number (IRN).
- **District/School Name** allows the user to identify a particular school or district by name. Additionally, this column can be sorted A-Z and Z-A.
- **Organization Type** allows the user to identify which types of districts or schools have appeared in the table. This includes:
  - Community Schools
  - Educational Service Centers
  - Joint Vocational School Districts
  - Public Districts
  - STEM Schools
- **Core Curriculum/Intervention** lists the core curriculum materials and/or the intervention programs reported by an individual school or district.
- **Reported Grades** shows the user which grades the individual school or district reported for the identified core curriculum materials and/or intervention program.
- The **Status** column of the table provides the implementation status reported by the individual school or district. This includes:
  - Adopted, Not Yet Purchased
  - Purchased, Not Yet Training
  - Training, Not Yet Implemented
  - Implemented
  - Implemented This Year, Not Next Year
- The **Reported Material Type** column shows the user how the school or district reported using the identified material or program. This includes:
  - ELA Core
  - Reading Intervention
  - Both ELA Core and Reading Intervention
- **DEW Approved Material Type** shows whether the identified material or program appears on the Department's [Approved List of Core Curriculum and Instructional Materials in ELA](#), the [Approved List of Evidence-Based Reading Intervention Programs](#), or both.

- The **DEW Approved Grades** shows the grade levels for which the material or program has been approved on either of the Department's approved lists.

| District/School IRN | District/School Name           | Org Type        | Core Curriculum/Intervention                               | Reported Grades |
|---------------------|--------------------------------|-----------------|--|-----------------|
| 043802              | Columbus City Schools District | Public District | Foundations (Wilson Language Training)                     | KG - 03         |
| 043802              | Columbus City Schools District | Public District | HMH Into Reading 2020 (Houghton Mifflin Harcourt)          | KG - 05         |
| 043802              | Columbus City Schools District | Public District | Other published instr materials incl on Dept approved list | 06 - 12         |
| 043802              | Columbus City Schools District | Public District | Other published instr materials incl on Dept approved list | PS - 05         |

| Status      | Reported Material Type                 | DEW Approved Material Type             | DEW Approved Grade: |
|-------------|--|--|---------------------|
| Implemented | Both ELA Core and Reading Intervention | Both ELA Core and Reading Intervention | KG - 02             |
| Implemented | ELA Core                               | ELA Core                               | KG - 05             |
| Implemented | Both ELA Core and Reading Intervention | N/A                                    | N/A                 |
| Implemented | Reading Intervention                   | N/A                                    | N/A                 |

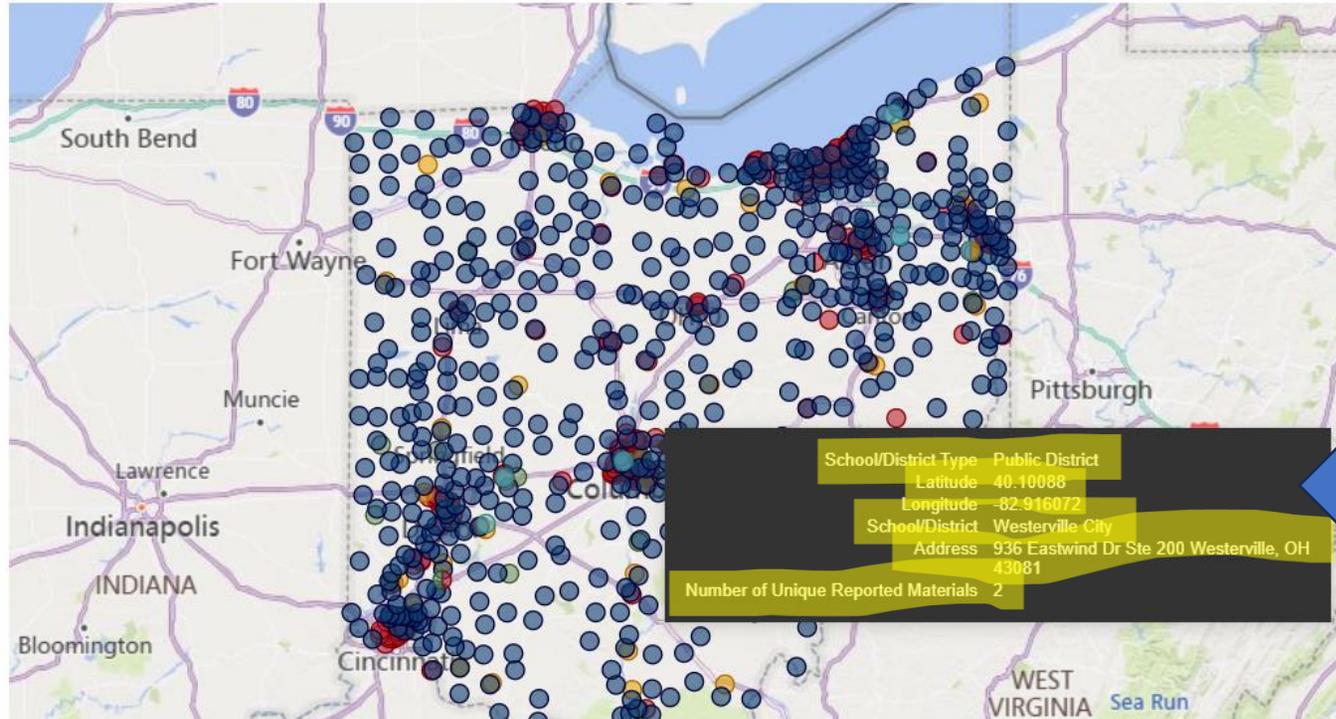

#### TOOLTIPS

When hovering over the map, tooltips will appear to allow the user to see information about each individual bubble, including:

- School/District Type
- Latitude
- Longitude
- School/District
- Address
- Number of Unique Reported Materials

School/District Type ● Community School ● Educational Service Center ● Joint Vocational School District ● Public District ● STEM

## C. OVERVIEW OF MOST-USED INSTRUCTIONAL MATERIALS

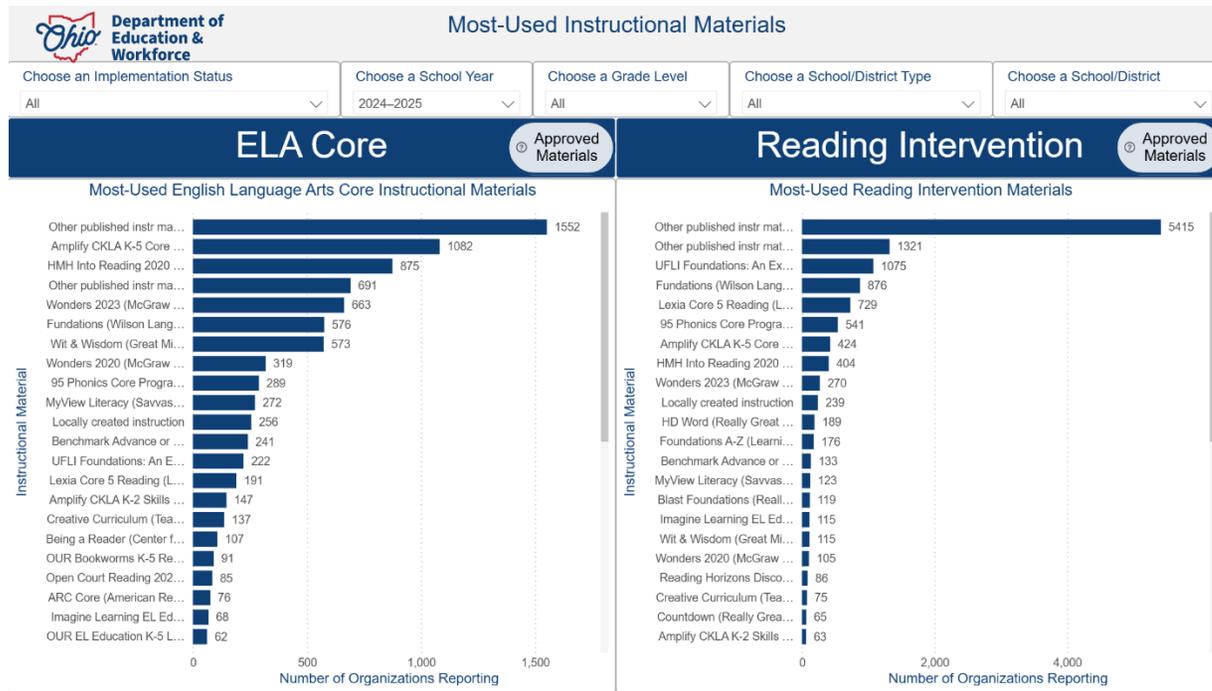

In the Most-Used Instructional Materials tab, the user can select various options via “slicers” to filter the data displayed by:

- Implementation Status
- School Year
- Grade Level
- School/District Type
- School/District

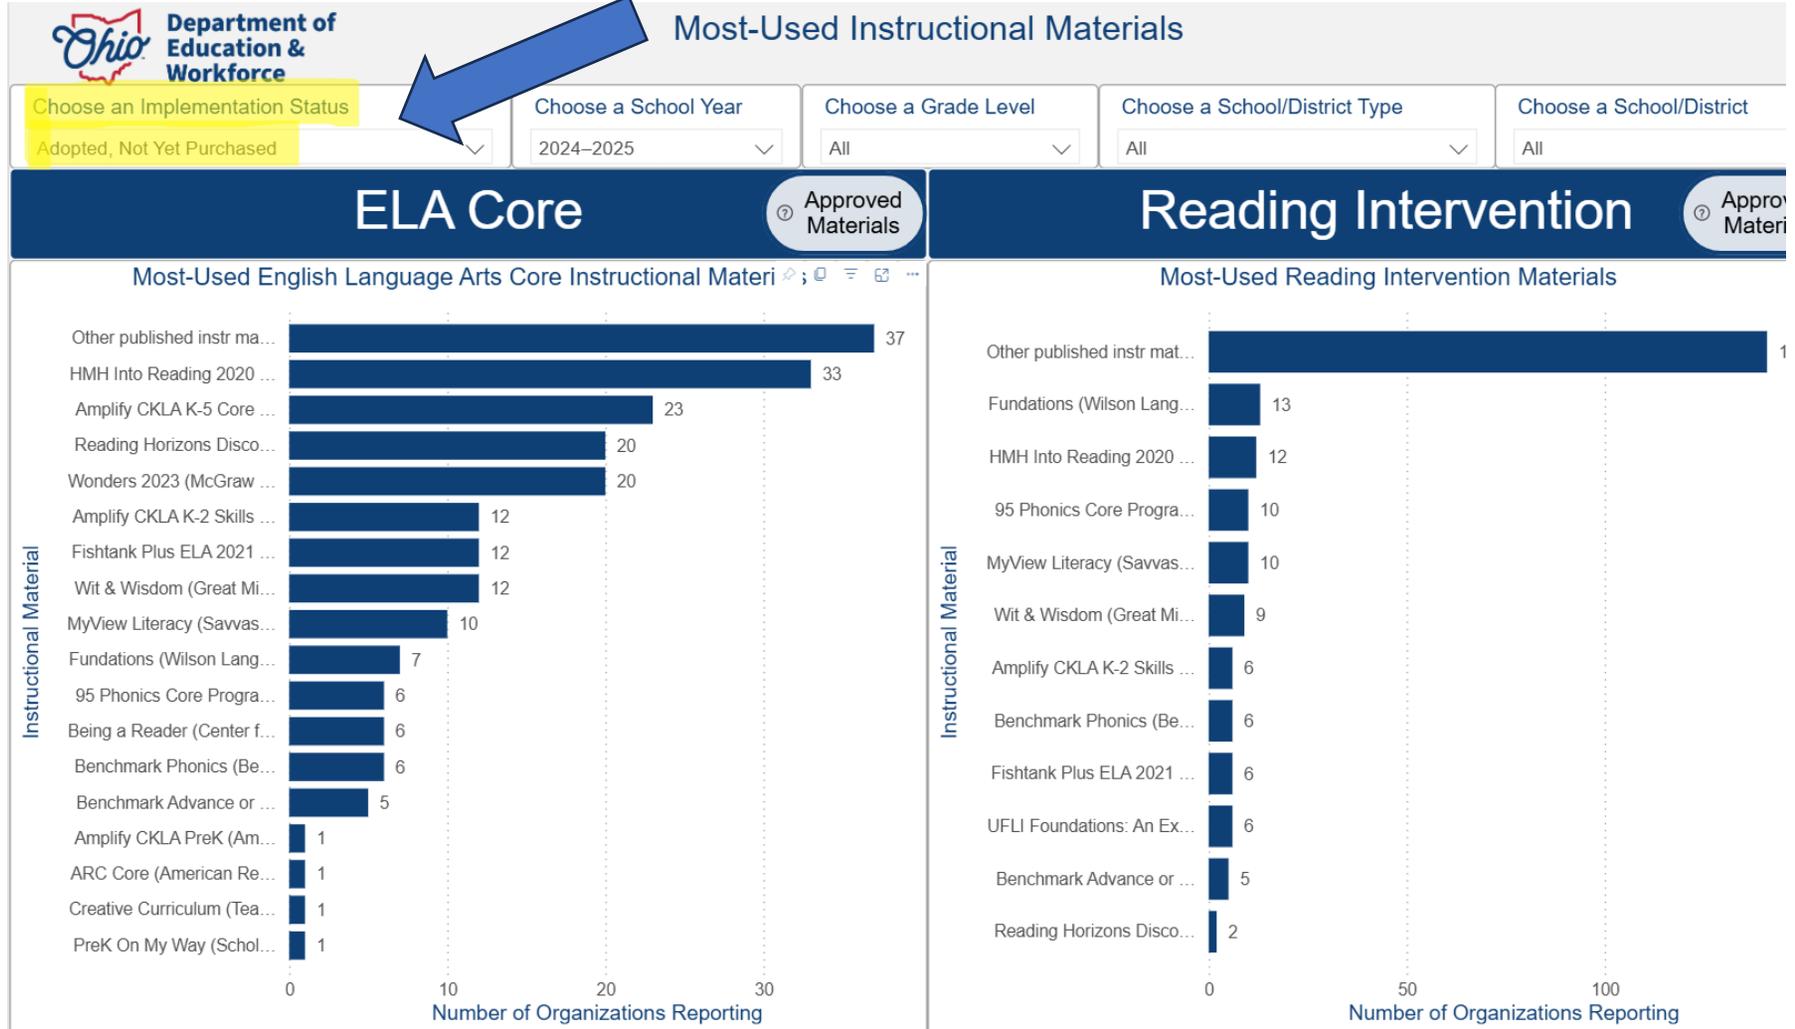

Depending on what is selected in the slicers, both the ELA Core table and the Intervention table below will update to match the data that was submitted during the school year selected.

*Note: As this is the first year of required reporting, data is only available for the 2024-2025 school year. As presented in a note at the top of the tab, all displays are based on data reported to the Department by Ohio's schools and districts. Reporting may be incomplete.*

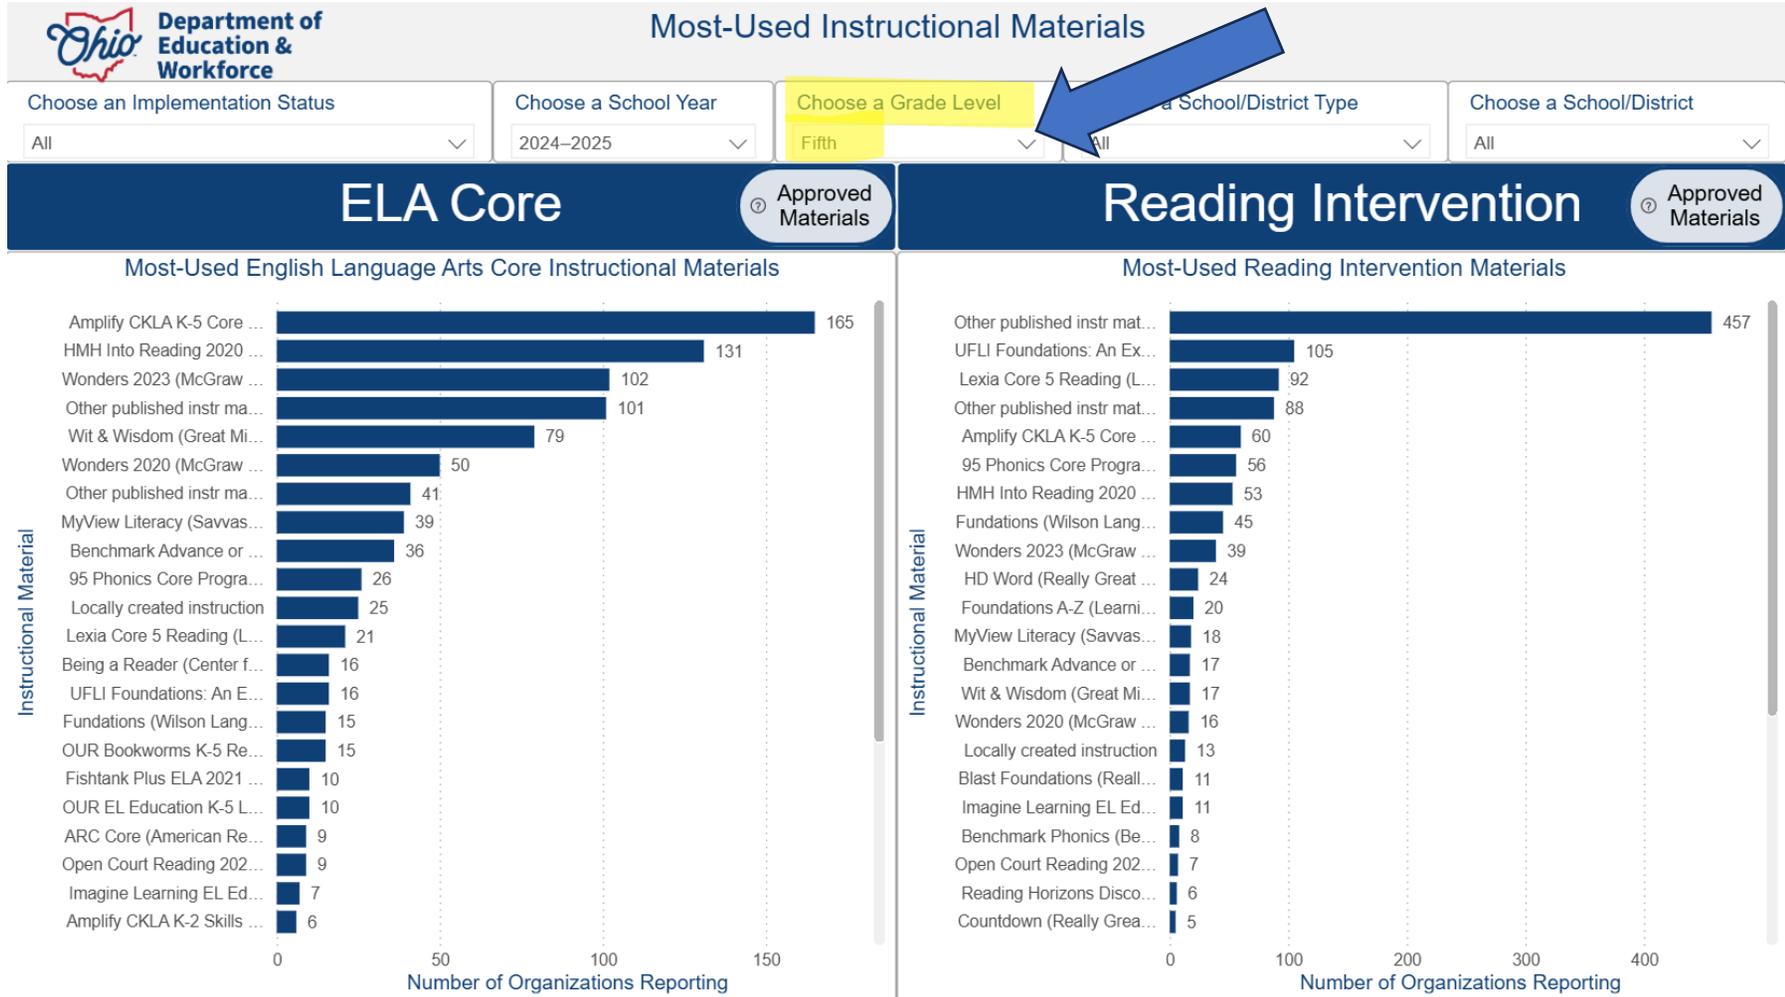

**EXAMPLE 7: UNFILTERED MOST-USED INSTRUCTIONAL MATERIALS**

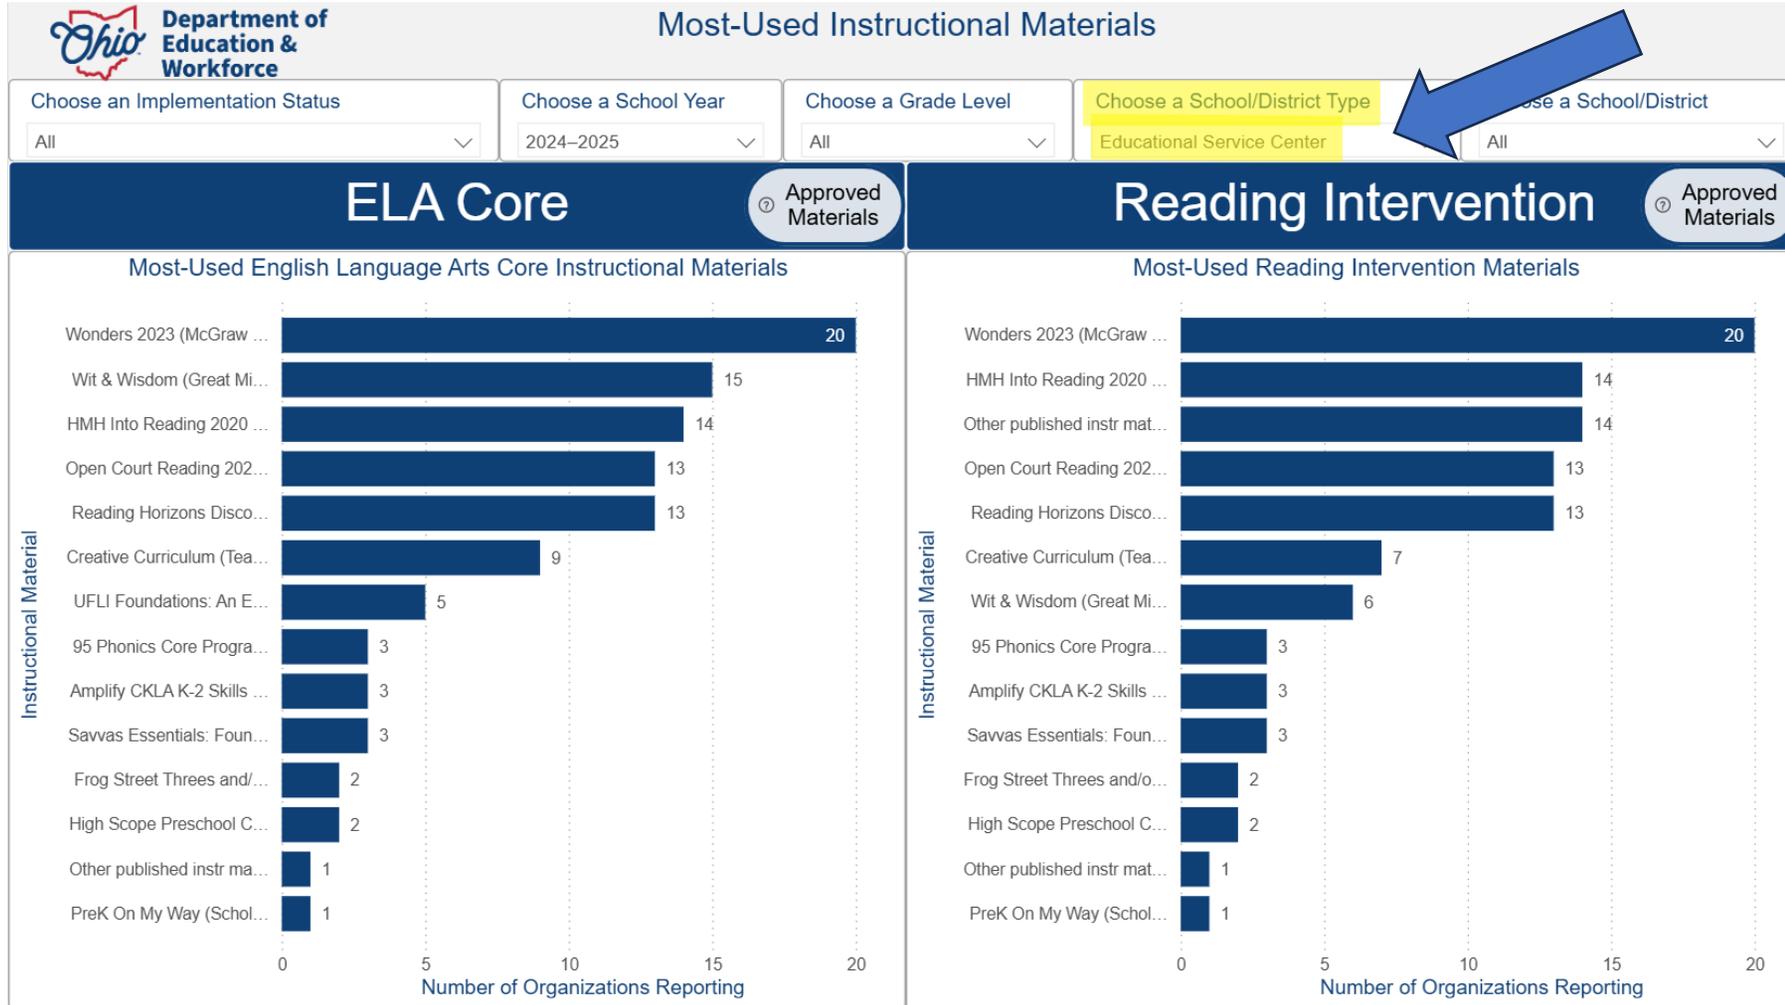

EXAMPLE 8: FILTERED BY IMPLEMENTATION STATUS

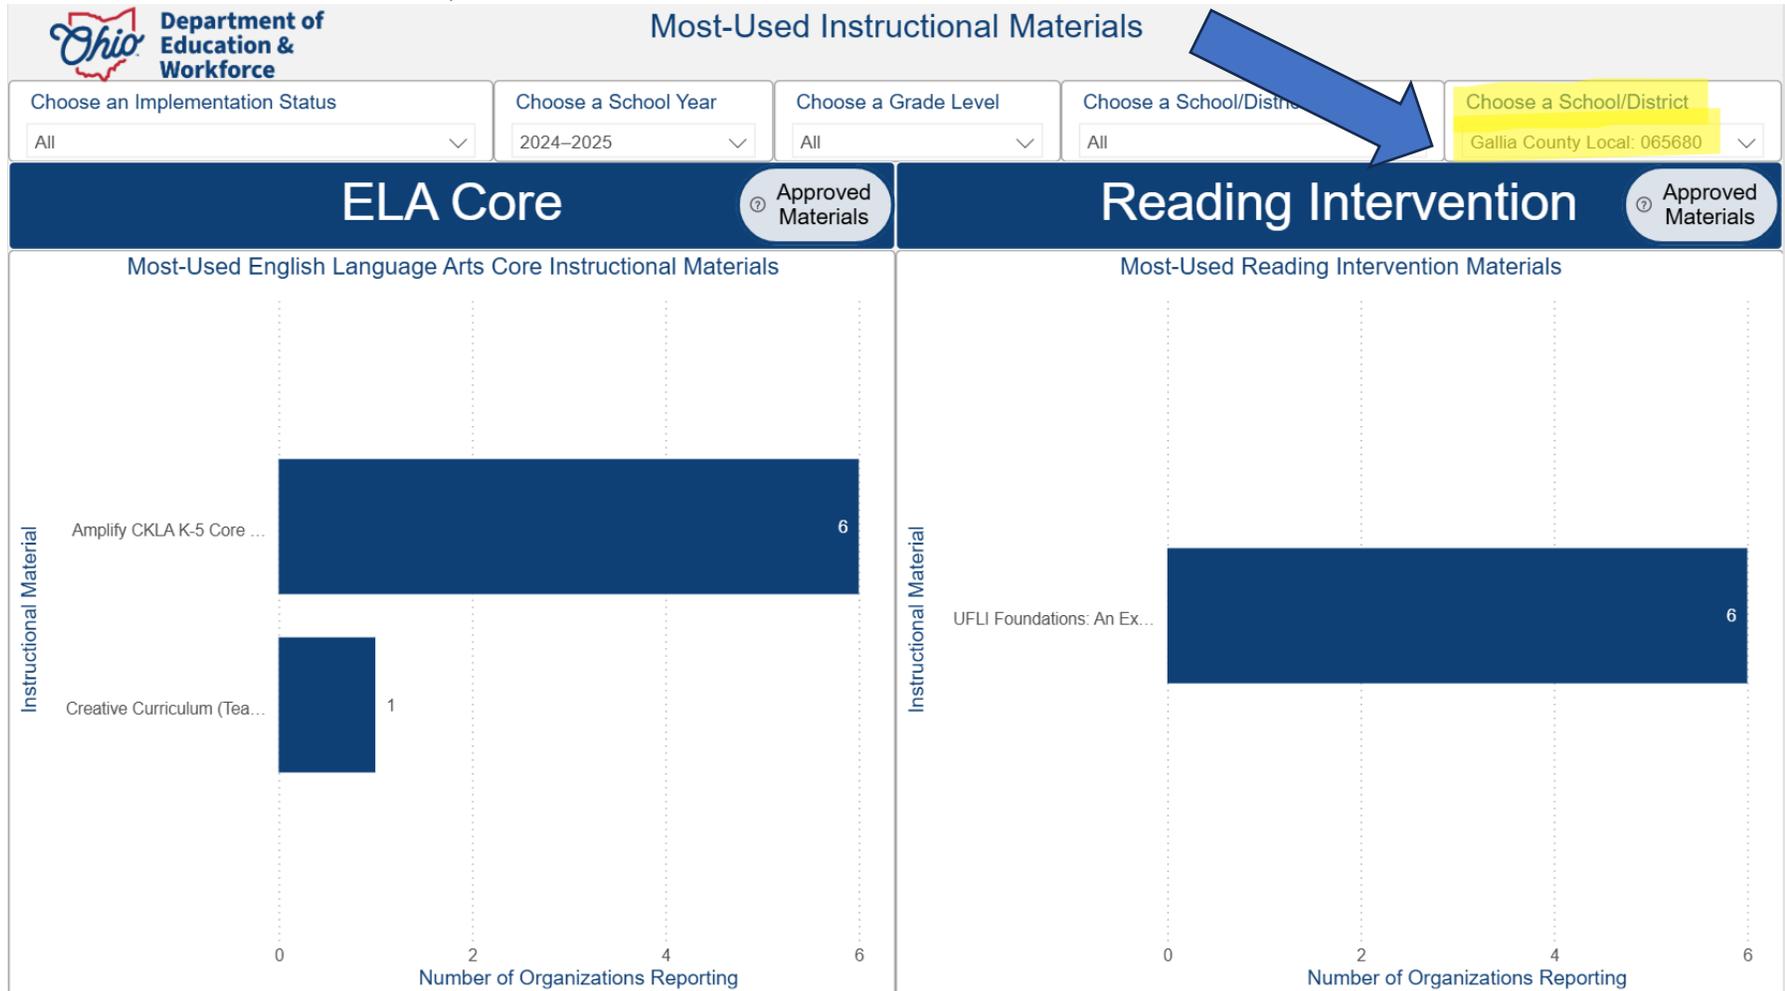

EXAMPLE 9: FILTERED BY GRADE LEVEL

EXAMPLE 10: FILTERED BY SCHOOL/DISTRICT TYPE

EXAMPLE 11: FILTERED BY SCHOOL/DISTRICT

**D. RESOURCES**

For more information on high-quality core curriculum and instructional materials in English language arts, please visit the Department’s [HQIM webpage](#). Additional guidance is also available on [material selection and requirements](#). For frequently asked questions, please review the [HQIM FAQ webpage](#).
