International Corporate Investment in Ohio Operations

June 2020

THE DIRECTORY OF INTERNATIONAL CORPORATE INVESTMENT IN OHIO OPERATIONS is a listing of international enterprises that have an investment or managerial interest within the State of Ohio. The report contains graphical summaries of international firms in Ohio and alphabetical company listings sorted into three categories: company name, country of ultimate parent, and county location. The enterprises listed in this directory have 5 or more employees at individual locations.

This directory was created based on information obtained from Dun & Bradstreet. This information was crosschecked against company Websites and online corporate directories such as ReferenceUSA®. There is no mandatory state filing of international status.

When using this directory, it is important to recognize that global trade and commerce are dynamic and in constant flux. The ownership and location of the companies listed is subject to change. Employment counts may differ from totals published by other sources due to aggregation, definition, and time periods.

INTRODUCTION AND EXPLANATIONS

International Investment in Ohio

- This survey identifies 4,303 international establishments employing 269,488 people.
- Companies from 50 countries were identified as having investments in Ohio.
- Seven countries comprise 78 percent of total international employment:

Japan	27%
United Kingdom	14%
Germany	12%
Canada	9%
France	7%
Ireland	5%
Switzerland	4%

- The motor vehicle industry comprises the largest segment of employment.
- Ranking investment by the number of employees, ten companies employ more than 3,000 workers:

Honda Motor	16,200
FCA (Chrysler)	6,800
Securitas	4,100
EssilorLuxottica	3,900
Signet Jewelers	3,700
DHL (Exel)	3,400
Bridgestone	3,400
Nestle	3,200
ArcelorMittal	3,100
RELX (Reed Elsevier)	3,050

- The Metropolitan Areas of Cleveland, Columbus, and Cincinnati have the highest concentrations of international investment.

Explanations

Company listings in this directory are limited to those with five or more workers at an individual location.

However, summary statistics on the total number of establishments and employees by country of the parent corporation include estimates for all establishments, regardless of size.

Companies, or divisions of companies, with multiple retail or service locations (e.g., ALDI food stores) were generally assigned one location with an employment estimate reflecting the total for all locations in the state.

- In Section 2, which lists companies alphabetically, these consolidated listings include a statewide estimate of the total number of establishments (or sites) operated by the company.
- In Section 3, which lists companies by country, summary statistics for each country include the total number of establishments associated with these consolidated listings.
- In Section 4, which lists companies by county, consolidated listings have been assigned the location “Multiple Locations” and appear at the very end of the section.

Due to differences in methodology, time frames, and reporting formats, it is recommended that no comparisons be made between this edition and earlier editions of the International Investment report.

Two large institutional food service firms have multiple locations throughout the state. This report underestimates the scope of these operations. The Compass Group (United Kingdom), in addition to operating restaurants, provides food service at a number of college campuses (e.g., Bowling Green, Denison, and Wright State). Sodexo (France) has contracts with several universities, including Wilmington and Ohio Northern. Sodexo also provides similar services for school districts.

NAICS – North American Industry Classification System codes are assigned to a company location based upon the function of the operation. NAICS code definitions can be found at: <http://www.census.gov/eos/www/naics/>
