

2024-2025 Sexually Transmitted Infection Education Audit

Audit Report

October 2025

Department of
Education &
Workforce

Executive Summary

[State law](#) requires the Ohio Department of Education and Workforce to conduct an annual audit of each city, local, and exempted village school district regarding its compliance with the requirements for sexually transmitted infection (venereal disease) education. This document consists of the audit findings from Ohio school districts that self-reported information regarding sexually transmitted infection (venereal disease) education, and course materials used during the 2024-2025 school year. This audit will be conducted annually, and its findings will be published on the [Department's website](#).

Compliance is based on the responses to Questions 1, 2, and 3 (see below). Districts are required to self-report relevant information regarding sexually transmitted infections (venereal disease) education to the Department. The window to have completed the audit for the 2024-2025 school year was March 17-June 2, 2025. The Department sent email notifications and reminders directly to school superintendents regarding the audit reporting requirements and deadlines. The Department also notified districts through Department alerts, EdConnection, phone calls, virtual meetups, and office hours. Technical support was provided to districts via phone, email, and virtual meetups to assist districts with the process during the audit window. The findings show that 100% of districts completed and submitted the information for the audit. The vast majority of districts (99.7%) are Overall Compliant. The two districts with an "Overall Non-Compliant" status (Jefferson Township Local and Ridgewood Local) received a phone call and a noncompliance letter from the Department stating the reason(s) for non-compliance.

District Reporting Status

Districts were placed into one of three categories based on reporting status. 100% of districts completed the reporting requirements.

- **Completed** – Districts that answered all questions and submitted their information in the system.
- **Not started** – Districts that did not start the audit.
- **In Progress** – Districts that did not completely answer questions or did not submit their information.

Status	Total
Completed	609
In Progress	0
Not Started	0
Grand Total	609

Compliance

Districts that reported information were determined overall compliant or overall non-compliant based on their responses to the questions.

- **Overall Compliant** – Districts that answered question 1 and "yes" to questions 2 and 3 and submitted their responses.
- **Overall Non-Compliant** – Districts that answered "no" to questions 2 and 3 or did not complete the audit.

Status	Total
Overall Compliant	607
Overall Non-Compliant	2
Grand Total	609

Audit Questions

Audit Question 1

District Contact Information

Disclaimer: The contact information collected in the survey will not be reflected in the final postings.

Audit Question 2

Under Ohio Revised Code (ORC)3313.60, Did the district offer sexually transmitted infection education during the school year 2024-2025?

If yes, please provide the name of any organization or program that provided the instructional materials. School districts are not required to upload documents as part of the Annual Sexually Transmitted Infection Education Audit. A program or organization is required. Your organization's name is also acceptable. Please do not use any identifying information such as staff names, phone numbers, or physical addresses.

If no, please explain your answer.

Audit Question 3

Did the school district or school offer course material and instruction, under ORC3313.6011, that do all the following?

- Stress that students should abstain from sexual activity until after marriage.
- Teach the potential physical, psychological, emotional and social side effects of participating in sexual activity outside of marriage.
- Teach that conceiving children at an early age or outside of marriage increases the likelihood of hardship in life.
- Stress that sexually transmitted diseases are serious possible hazards of sexual activity.
- Advise students of the laws pertaining to financial responsibility of parents to children born inside and outside of marriage.
- Advise students of the circumstances under which it is criminal to have sexual contact with a person under the age of sixteen pursuant to section **2907.04** of the Ohio Revised Code.
- Emphasize adoption as an option for unintended pregnancies.

3a. Did the school district or school choose to offer instruction in sexually transmitted infection education beyond what is outlined in ORC3313.6011?

3b. If the school district or schools offered instruction in sexually transmitted infection education beyond what is outlined in ORC3313.6011, was parental notification provided?

The notification must include the name of the instructor and the curriculum being used, as well as any applicable vendors.

If no, please explain your answer.

Completed	Compliant	048173	Midview Local	Lorain	Yes	Yes, instructional materials for sexually transmitted infection (STI) education are provided through the Ohio Department of Education and Workforce (ODEW) Health Education Model Curriculum and aligned resources. Our district utilizes materials and guidelines outlined in the Ohio's Learning Standards for Health Education, which are informed by the National Health Education Standards (NHES) and support evidence-based practices in sexual health education. Instructional resources are selected to be age-appropriate, medically accurate, and culturally responsive. Additionally, the district has a partnership with Rivion to assist in these measures. The materials and curriculum are aligned with the comprehensive health education requirements in accordance with Ohio Revised Code 3313.6011 and 3313.60 and are reviewed to ensure compliance with both state mandates and local board policy. Completed	Non-Compliant	46474	Ridgewood Local	Coshocton	Yes	Jefferson County ESC: VLA course curriculum	N/A	Compliant	No	N/A	N/A	Many family structures exist today, and all can provide children with a loving and supportive environment. We have school staff and students who come from single-parent households, same-sex couples, and traditional married-couple families alike. This highlights the importance of recognizing and respecting all family types. Furthermore, sex education should never be used to shame students for their family background.	N/A	Non-Compliant
