

# 2023-2024 Sexually Transmitted Infection Education

Audit Findings

October 2024

Department of  
Education &  
Workforce

# Executive Summary

State law requires the Ohio Department of Education and Workforce to conduct an annual audit of each city, local, and exempted village school district regarding its compliance with the requirements for sexually transmitted infection (venereal disease) education. This document consists of the audit findings from Ohio school districts that self-reported information regarding sexually transmitted infection education and course materials used during the 2023-2024 school year. Compliance is based on the responses to Questions 1, 2, and 3 (see below).

The reporting window for the 2023-2024 audit was open March 18-Aug. 1, 2024. The Department sent email notifications and reminders regarding the audit reporting requirements and deadlines. The Department also notified districts through Department alerts; the Department’s weekly newsletter, EdConnection; and phone calls. Technical support was provided via phone, email, and virtual meetups to assist districts with the process during the audit window.

The findings show that:

- 100% of districts completed and submitted the information for the audit.
- The vast majority of districts (99.5%) are Overall Compliant. The three districts with an “Overall Non-Compliant” status (Jefferson Township Local, Ridgewood Local, Washington Local) received a phone call and a noncompliance letter from the Department stating the reason(s) for non-compliance.

## District Reporting Status

Districts were placed into one of three categories based on reporting status.

**Completed** – The district answered all questions and submitted the information in the system.

**Not started** – The district did not start the audit.

**In Progress** – The district did not completely answer questions or did not submit the information.

Districts Reporting Status	
Status	Total
Completed	609
In Progress	0
Not Started	0
Grand Total	609

# District Compliance Status

Districts that reported information were determined to be overall compliant or overall non-compliant based on their responses to the questions.

- Overall Compliant – The district answered question 1, responded “yes” to questions 2 and 3, and submitted their responses.
- Overall Non-Compliant – The district responded “no” to questions 2 and/or 3 or did not complete the audit.

Overall Compliance	
Status	Total
Overall Compliant	606
Overall Non-Compliant	3
Grand Total	609

## Audit Questions

### AUDIT QUESTION 1

District Contact Information

**Disclaimer:** The contact information collected in the survey is not reflected in the final posting.

### AUDIT QUESTION 2

Pursuant to Ohio Revised Code (ORC) 3313.60, did the district offer venereal disease and sexual education instruction during school year 2023- 2024?

- If yes, please provide the name of any organization or program that provided venereal disease and sexual education instructional materials.
- If no, please explain your answer.

**Note:** School districts and schools are not required to upload documents as part of the audit. Any uploaded documents will not be considered for compliance.

### AUDIT QUESTION 3

Did the district offer course material and instruction in venereal disease and sexual education courses, pursuant to Ohio Revised Code 3313.6011, that do all of the following?

- Stress that students should abstain from sexual activity until after marriage.
- Teach the potential physical, psychological, emotional, and social side effects of participating in sexual activity outside of marriage.
- Teach that conceiving children out of wedlock is likely to have harmful consequences for the child, the child's parents, and society.
- Stress that sexually transmitted diseases are serious possible hazards of sexual activity.

- Advise students of the laws pertaining to the financial responsibility of parents to children born out of wedlock.
- Advise students of the circumstances under which it is criminal to have sexual contact with a person under the age of sixteen pursuant to section 2907.04 of the Ohio Revised Code.
- Emphasize adoption as an option for unintended pregnancies.

3a. Did the school or district choose to offer instruction in venereal disease or sexual education instruction beyond what is outlined in ORC 3313.6011?

3b. If the school or district offered instruction in venereal disease and sexual education beyond what is outlined in ORC 3313.6011, was parental notification provided?

- The notification must include the name of the instructor and the curriculum being used, as well as any applicable vendors.
- If no, please explain your answer.

2023-2024 Sexually Transmitted Infection Education Report Findings

Completed	Non-Compliant	046474	Ridgewood Local	Coshocton	Yes	Jefferson County ESC: VLA course curriculum	N/A	Compliant	No			Many family structures exist today, and all can provide children with a loving and supportive environment. We have school staff and students who come from single-parent households, same-sex couples, and traditional married-couple families alike. This highlights the importance of recognizing and respecting all family types. Furthermore, sex education should never be used to shame students for their family background.	Non-Compliant
