

# Comprehensive Literacy State Development Subgrant

## LOCAL LITERACY PLAN GUIDANCE

### General Guidance

Ohio was awarded a \$60 million Comprehensive Literacy State Development Grant from the U.S. Department of Education to continue its work to improve the language and literacy development of Ohio's children and students. Approximately 95 percent of the award will be distributed directly to local education agencies (LEAs) and early care and education programs to improve literacy outcomes for children from birth through grade 12 through this grant opportunity.

The four-year subgrant will focus on developing literacy implementation sites in early care and education programs and district preschools, as well as elementary, middle and high schools across the state. The proposed implementation sites will concentrate on implementing key practices and levers consistent with *Ohio's Plan to Raise Literacy Achievement* that contribute to literacy improvement. The partnership between the proposed sites and the Ohio Department of Education and Workforce will allow early care and education programs, districts, schools, and families to improve student literacy and increase educational options available to students who traditionally have been underserved.

All eligible applicants must submit and implement a local literacy plan that:

- Is informed by a comprehensive need assessment.
- Is aligned with *Ohio's Plan to Raise Literacy Achievement*.
- Includes interventions and practices that are ideally supported by moderate or strong evidence or, in the case where limited research is available, the intervention and practices are supported by promising evidence.
- Includes a plan for professional development.
- Includes a plan to track learner outcomes consistent with all applicable privacy requirements.

Please note, the full subgrant application will be released in early 2025. To apply for a Comprehensive Literacy State Development subgrant, LEAs and early care and education programs must meet specific eligibility criteria available on the Department's website in early 2025.

To complete this plan, applicants will be asked to use the Local Literacy Plan Template located on the Department's [website](#). Interested applicants are encouraged to begin the local literacy plan development process to prepare for the application. Applicants are encouraged to have a completed local literacy plan before the application window opens to ensure alignment of the subgrant application with literacy plan goals.

**Districts and community schools that are required by Ohio law to submit Reading Achievement Plans to the Department by Dec. 31, 2024, may choose to utilize their submitted Reading Achievement Plans or revise the plans using either the Reading Achievement Plan Template or the Local Literacy Plan Template prior to applying for the Comprehensive Literacy State Development subgrant.**

Email any questions to [ComprehensiveLiteracy@education.ohio.gov](mailto:ComprehensiveLiteracy@education.ohio.gov).

## Template for Ohio’s Local Literacy Plans

A local literacy plan template is available to support interested applicants:

- Each LEA or early care and education program applying as a subgrantee must submit a local literacy plan using this template.
- Districts and community schools that are required by Ohio law to submit Reading Achievement Plans to the Department by Dec. 31, 2024, may choose to utilize their submitted Reading Achievement or revise the plans using either the Reading Achievement Plan Template or the Local Literacy Plan Template prior to submitting their completed Comprehensive Literacy State Development subgrant applications.

## Crosswalk of Comprehensive Literacy State Development Subgrant Requirements and Local Literacy Plan Templates

Comprehensive Literacy State Development Requirement	Local Literacy Plan/Consortium Literacy Plan Templates Section
1. Is informed by a comprehensive needs assessment	Section 3 ( <i>Comprehensive Needs Assessment</i> )
2. Is aligned with <i>Ohio’s Plan to Raise Literacy Achievement</i>	All sections; specifically may be summarized in the <i>Summary and Acknowledgements</i> or Section 4 ( <i>Literacy Mission and Vision Statement(s)</i> ) of the template
3. Includes interventions and practices that ideally are supported by moderate or strong evidence or, in the case where limited research is available, the intervention and practices are supported by promising evidence	Section 8, Part A ( <i>Evidence-Based Practices and Interventions to Support Learners</i> )
4. Includes a plan for professional development	Section 8, Part C ( <i>Professional Development Plan</i> )
5. Includes a plan to track learner outcomes consistent with all applicable privacy requirements	Section 7 ( <i>Plan for Monitoring Progress</i> )

# Template Guidance

## Section 1: Leadership Team Membership, Stakeholders, Development Process and Plan for Monitoring Implementation

### SECTION 1, PART A: LEADERSHIP TEAM MEMBERSHIP AND STAKEHOLDERS

*Insert a list of all leadership team members, roles and contact information. If you are an early childhood care and education program, the Department encourages you to include team members from the district(s) that children in your program feed into for kindergarten through grade 12. If you are a district, the Department encourages you to include team members of the early care and education program and community that feed into your district. Additionally, your team membership should line up with the data needs outlined in Section 3 of this plan. Insert additional rows as needed.*

The organization's leadership team develops the local literacy plan. A leadership team should include members to inform literacy instruction and improvement in the district or program, such as support staff, reading intervention specialists, educators from various grade levels, and curriculum directors. Below is more information regarding the development of the leadership team.

Functions of the leadership team include:

- Setting performance targets aligned with board-adopted district or program goals;
- Monitoring performance against the targets; building a foundation for data-driven decision-making on a systemwide basis;
- Designing system planning and focused improvement strategies, structures and processes; facilitating the development and use of collaborative structures;
- Brokering or facilitating high-quality professional development consistent with goals for instruction and achievement;
- Allocating system resources toward instructional improvement.

Members of the leadership team should include individuals with key positions at various levels of the organization. These individuals may include, but are not limited to:

- Superintendent/CEO/lead administrator/director;
- Local school board member;
- Treasurer;
- Building-level administrators;
- Teacher leaders from various content areas, grade levels, buildings and specialized instructional areas;
- Program directors and supervisors (special education, curriculum, preschool, health and nutrition, safety, and family and community engagement);

- Family and community engagement team members who represent parents, businesses, health and human services and other community organizations, such as the Head Start director/education manager and community preschool program directors; and
- Representatives from groups, such as teacher bargaining units.

Information on the [Ohio Improvement Process](#) and developing a leadership team is available on the Department's website.

## **SECTION 1, PART B: DEVELOPING, MONITORING AND COMMUNICATING THE LOCAL LITERACY PLAN**

*Describe how the leadership team developed the plan, how the team will monitor the plan and how the team will communicate the plan.*

Community collaboration, networking and alignment play a large role in *Ohio's Plan to Raise Literacy Achievement*. The subgrant applicant may want to utilize this section to share how the leadership team collaborated with community members, specifically how entities serving school-aged learners collaborated with early care and education programs and vice versa to align the literacy efforts in the community from birth-grade 12.

## **Section 2: Alignment Between the Literacy Plan and Other Improvement Efforts**

*Describe how the local literacy plan aligns to other local or community improvement plans focused on literacy outcomes. If the early care and education program or local education agency engages in the Ohio Improvement Process or another improvement model comparable to OIP, the program or local education agency should describe the use of the process and team structures in this section.*

*Districts and community schools that are required under state law or policy to develop improvement plans or implement improvement strategies must ensure their local literacy plans are aligned with other improvement efforts. This can be done by describing how the district's or community school's continuous improvement plan incorporates the components required of the local literacy plan. Districts and community schools should describe the collaborative efforts that combine multiple strategies of their improvement plans to collectively impact improvement of system structure supports and leadership supports.*

**Early Care and Education Program:** *Describe how the local literacy plan aligns to the Step Up to Quality plan currently in place and how the local literary plan will enhance that process.*

Information for the local literacy plan must be aligned to other district, school and program improvement initiatives to ensure a cohesive improvement structure. Applicants may use information from existing needs assessments, data analyses and improvement plans. Information may come from, but is not limited to:

- School, district and program One Needs Assessment results.
- School, district and program improvement plans, such as One Plan or schoolwide reading plans.
- Classroom data gathered and analyzed.
- Ohio School Report Cards.
- Secure Data Center.
- CCIP Plan.
- Local census data.

## Section 3: Needs Assessment

### SECTION 3, PART A: ANALYSIS OF LEARNER PERFORMANCE DATA

*Insert an overall analysis of language and literacy performance data, based on the age/grade ranges served by the organization and age/grade ranges impacted by the plan. The following are data sources the early care and education program or LEA **may include**, but are not limited to:*

- *Infant Risk Factors.*
- *Ohio’s Early Learning Assessment (or other comprehensive preschool assessment used by the program).*
- *Kindergarten Readiness Assessment.*
- *Ohio’s State Tests in English Language Arts (grades 3-8).*
- *Ohio’s State Tests in other content areas (grades 3-8).*
- *Reading diagnostics (required for grades K-3 under the Third Grade Reading Guarantee).*
- *Tier 1 dyslexia screening.*
- *High School end-of-course tests.*
- *Ohio English Language Proficiency Assessment (English Learners).*
- *Ohio’s Alternate Assessment for Students with Significant Cognitive Disabilities.*
- *Any other assessments, as applicable (curriculum-based measures).*

**Early Care and Education Programs:** Early care and education programs should **analyze** child performance data from Ohio’s Early Learning Assessment or a comparable comprehensive assessment that meets the assessment requirements of Step Up to Quality. In addition to these sources, early care and education programs may analyze relevant data sources, such as the Kindergarten Readiness Assessment (KRA) or others. Programs should be analyzing data over several years to understand trends in the data.

**K-12 Applicants:** Districts and community schools should **analyze** student performance data from the Ohio English language arts assessments (grades 3-8), Kindergarten Readiness Assessment, dyslexia screeners required under the Dyslexia Support Laws, and reading diagnostics required under the Third Grade Reading Guarantee. In addition to these sources, districts may analyze other relevant data sources, such as curriculum-based measures and other progress monitoring tools. Districts should be analyzing these data over several years to understand trends in the data.

## SECTION 3, PART B AND C: ANALYSIS OF FACTORS CONTRIBUTING TO UNDERACHIEVEMENT IN LITERACY

*Insert an analysis of additional factors believed to contribute to underachievement in literacy in the community served.*

Early care and education programs and LEAs should **analyze** factors that are contributing to low reading achievement in their communities. Such factors may include, but are not limited to, data related to social economic status, English proficiency of families served, graduation rates, employment rates, median income levels, literacy levels and utilization of public assistance. This analysis also may include a root cause analysis. Remember, as an applicant, you are presenting facts about why a local literacy plan is needed for the children attending the program, so making the connection between reading readiness and academic, social and economic successes or challenges is illustrative of the need.

LEAs may find that this information is available in the district or program's completed One Needs Assessment or in other improvement plans the district or program has created.

## Section 4: Literacy Vision and Mission Statement(s)

*Describe the literacy mission and/or vision of the organization. You may want to state how the literacy vision is aligned to Ohio's Vision for Literacy outlined in Ohio's Plan to Raise Literacy Achievement.*

Applicants are to ensure their local literacy plans are aligned to the state's plan (Ohio's Plan to Raise Literacy Achievement). The state's plan includes a vision and commitments to support that vision (summarized below). When developing the local literacy plan, early care and education programs and LEAs should consider how their vision is aligned to the state's vision and how the local plan incorporates the state's commitments.

- Ohio's vision is for all learners to acquire the knowledge and skills to become proficient readers. The Ohio Department of Education and Workforce and its partners view language and literacy acquisition and achievement as foundational knowledge that supports student success. To increase learner's language and literacy achievement, the Department is urging districts and schools to use evidence-based systems and high-quality instruction, select high-quality instructional materials and employ culturally responsive practices.

## Section 5: Measurable Learner Performance Goals and Adult Implementation Goals

*Describe the measurable performance goals addressing learners' needs (based on the analysis completed in Section 3) that the local literacy plan is designed to support progress toward. The plan may have an overarching goal, as well as subgoals. See the guidance document for the definition of SMART goals.*

**SMART(IE) GOALS:** The measurable performance goals should be specific, measurable, ambitious, realistic and time bound. The goals also should be inclusive and equitable. The measurable performance goals must tie back to the analysis of data and factors contributing to underachievement in literacy. In other words, what do you expect and want to see achieved from the supports provided? What kind of incremental progress would you expect to make over what period of time?

Early care and education programs, districts and community schools that already have identified measurable student performance goals for literacy in their needs assessments or other improvement efforts may use those same goals to fulfil this requirement.

### **Examples:**

#### **Overarching Goal**

Increase the percentage of learners meeting or exceeding third grade proficiency standards from \_\_\_\_% to \_\_\_\_% by spring 2018, as measured by the Ohio's State Tests.

#### **Subgoal**

Increase the percentage of first grade learners meeting or exceeding targets for fluency from \_\_\_\_% to \_\_\_\_% by spring, as measured by (insert reliable and valid universal screening assessment for fluency).

## **Section 6: Action Plan Map(s) for Action Steps**

*Each action plan map describes how implementation of the local literacy plan will take place for each specific literacy goal the plan is designed to address. Each plan must include at least one specific measurable literacy goal. Add as many action map goals as necessary.*

Each action plan map describes how implementation of the local literacy plan will take place for each specific literacy goal the plan is designed to address. Applicants should create additional action plan maps for “subgoals” they have created to accomplish the overarching goals of Section 5. The action plan map(s) must tie back to the analysis of data and factors contributing to underachievement in literacy (Section 3) and provide the blueprint for the early care and education program or LEA in achieving the measurable performance goals stated in Section 5.

## **Section 7: Process for Monitoring Progress and Implementation of the Plan's Strategies**

*Describe the process for monitoring the progress and implementation of the plan's strategies.*

This section should specify what evidence is being collected, at what specific times, and by whom — to monitor the extent to which schools are implementing the action steps and

measuring progress toward the performance goals. In addition, this section should identify what will be done to facilitate improvement where the data being collected shows that learners are not progressing toward the performance goals.

Stated another way, what, how and when will you measure your progress toward meeting the goal? What ways do you have to collect data that will allow you to monitor progress toward success? Is it something you are already doing or collecting, or will you need to create or collect something new?

## Section 8: Expectations and Supports for Learners and Schools

### SECTION 8, PART A: STRATEGIES TO SUPPORT LEARNERS

1. *Describe the specific evidence-based practices and interventions that will be used to improve language and literacy development. This description should include evidence-based practices supporting core literacy instruction, as well as evidence-based interventions.*
2. *For each evidence-based practice and intervention, identify the ESSA level of evidence associated with that practice or intervention, and describe how the leadership team made that determination.*
3. *Describe how the proposed evidence-based practices and interventions support specific learner needs, as identified in Section 3.*
4. *Describe how the evidence-based practices and interventions support children with developmental delays, disabilities, English learners and below grade-level reading proficiency (including learners provided Reading Improvement and Monitoring Plans).*

To increase the likelihood that an evidence-based practice will lead to improved student outcomes, districts and programs should intentionally aim to leverage evidence-based activities, strategies and interventions that are:

- Aligned with the district, early care and education program or school's specific needs and context.
- Part of a cohesive improvement plan.
- Implemented with fidelity.

ESSA (Section 8002) and the [U.S. Department of Education's Non-Regulatory Guidance: Using Evidence to Strengthen Education Investments](#) outline four tiers of evidence based on the design and outcomes of the research studies carried out to evaluate an intervention.

**The importance of context and fit:** Across all levels, a critical consideration in defining "evidence-based" is alignment with local needs and context.

For example, researchers may evaluate an intervention for use at the high school level and find that it positively affects a student outcome in the context of those grade levels. However, the intervention has never been evaluated for impact on that same student outcome at the kindergarten level. In this case, this is not an appropriate evidence-based intervention for a

district to choose if the district is focused on improving student outcomes at the kindergarten level.

Before identifying evidence-based interventions, policymakers, administrators and educators should always first carefully consider the *need* that they are trying to meet and the specific context in which they are addressing that need.

For the purpose of the local literacy plan, LEAs and early care and education programs should identify evidence-based practices supported by Level 1 (“Strong”), Level 2 (“Moderate”) or Level 3 (“Promising), where evidence is applicable and available. If LEAs or early care and education programs identify evidence-based practices supported by Level 4 (“Demonstrating a Rationale), the LEA or early care and education program should include a description of the research-base that supports the practice, a logic model linking the intervention to improved student outcomes and a description of the applicant’s plan to evaluate the efficacy of the practice or intervention.

More information on ESSA’s levels of evidence is available in [Ohio’s Evidence-Based Clearinghouse](#).

## **SECTION 8, PART B: ENSURING EFFECTIVENESS AND IMPROVING UPON STRATEGIES (STRATEGIES TO SUPPORT ADULT IMPLEMENTATION)**

1. *Describe how the leadership team will offer and provide support for implementation of the identified evidence-based practices and interventions (for example, professional learning or coaching).*
2. *Describe how the early care and education program or LEA will ensure proposed evidence-based strategies in Section 8, Part A will be effective, show progress and **improve upon strategies utilized during the two prior consecutive years** (i.e., fidelity of adult implementation).*

Early care and education programs and LEAs are encouraged to describe how the evidence-based practices and interventions identified will support a multi-tiered system of support, Universal Design for Learning and data-based decision-making. How will educators be supported in implementing the evidence-based practices and interventions? How will adult implementation be measured and monitored? What mechanisms will be in place to ensure fidelity of adult implementation?

## **SECTION 8, PART C: STAFFING AND PROFESSIONAL DEVELOPMENT PLAN**

*Insert a professional development **plan** that supports the evidence-based strategies proposed in the local literacy plan and clearly identifies the instructional staff involved in the professional development. Refer to the definition of professional development in the guidance document. The early care and education program or LEA is encouraged to use the professional development plan template posted on the Department’s [website](#). This will aid the Department’s technical review team when reviewing local literacy plans.*

A comprehensive professional development plan includes:

1. Implementation of all instructional materials, reading programs, and evidence-based strategies.
2. Implementation in the use and interpretation of screening, diagnostic and curriculum-based progress monitoring assessments.
3. Job-embedded opportunities, such as modeling in the classroom, book studies, and data analysis.
4. Individualized and differentiated opportunities for professional growth.

Ohio law ([OAC 3301-24-06](#)) requires professional development for continued licensure for all educators guided by the learning needs of all students that includes current theory on the learning needs of educators and a planned progression for improvement on a continuing basis. Consider how the district or community school interprets early literacy policy and how teachers understand those policies at the classroom level. Engage the teachers in decisions about what and how they learn. The professional development plan should allow teachers to have input on problem-solving and take individual and collaborative steps to improve teachers' learning to meet the needs of students. For early care and education programs, consider how meeting your required Step Up to Quality professional development hours factor into this plan. Ohio-approved hours focused on language and literacy development for administrators and lead and assistant teachers should be included.

Professional development planning may include the identification of observable and measurable staff learning outcomes; the individual or group needs of faculty and staff to develop or improve the knowledge and skills necessary to address personalized and individualized student learning needs; a focus on closing the gap between student performance and the expectations for student performance; and identification of the resources necessary to support the professional learning outcomes, follow-up, and evaluation ([OAC 3301-35-05](#)).

The [Ohio Standards for Professional Development](#) define the essential elements of a strong professional learning system. Schools and districts may benefit from using the standards to guide their efforts in selecting and evaluating professional learning opportunities that are aligned to the strategies proposed in this section.

## **PLANNING FOR PROFESSIONAL DEVELOPMENT**

### *NEEDS ASSESSMENT*

When considering professional development, schools need to complete an assessment of their professional development needs for staff to promote and sustain high-quality instructional delivery and improved student academic achievement.

### *PROFESSIONAL DEVELOPMENT RESOURCES*

When considering professional development resources, utilize appropriate opportunities offered by regional professional development providers, local school districts or other

providers. Address any opportunity to network and make use of other experts in the region. Look internally for teachers, providers or administrators with expertise that can benefit other teachers and providers. Identify the resources required to provide the proposed training.

Promising professional development programs:

- Focus on teachers and early care and education professionals as central to student learning yet include all other members of the school community.
- Focus on individual, collegial, and organizational improvement.
- Respect and nurture the intellectual and leadership capacities of teachers and early care and education professionals, administrators, and others in the school community.
- Reflect the best available evidence-based research and practice in teaching, learning and leadership.
- Enable teachers and early care and education professionals to develop further expertise in subject content, teaching strategies, uses of technologies and other essential elements in teaching to high standards.
- Promote continuous inquiry and improvement in the daily life of schools and programs.
- Are planned collaboratively by those who will participate in and facilitate that development.
- Require substantial time and other resources.
- Are driven by a coherent and long-term plan that includes a continual needs assessment,
- Ultimately are evaluated on the basis of their impact on teacher effectiveness and student learning and guide subsequent professional development efforts.

### *PROFESSIONAL DEVELOPMENT TEMPLATE*

The Department has developed a **Professional Development Plan Template**. LEAs and early care and education programs also may choose to use this template to satisfy the requirements of Section 8, Part C. The template is available on the Department’s [website](#).

### *GRANT DEFINITION OF “PROFESSIONAL DEVELOPMENT”*

Professional development means activities that—

- (a) Are an integral part of school and LEA strategies for providing educators (including teachers, principals, other school leaders, specialized instructional support personnel, paraprofessionals, and, as applicable, early childhood educators) with the knowledge and skills necessary to enable students to succeed in a well-rounded education (as defined in this notice) and to meet the challenging State academic standards; and
- (b) Are sustained (not stand-alone, one-day, or short-term workshops), intensive, collaborative, job-embedded, data-driven, and classroom-focused, and may include activities that—
  1. Improve and increase teachers—
    - i. Knowledge of the academic subjects the teachers teach;
    - ii. Understanding of how students learn; or

- iii. Ability to analyze student work and achievement from multiple sources, including how to adjust instructional strategies, assessments, and materials based on such analysis;
2. Are an integral part of broad schoolwide and districtwide educational improvement plans;
3. Allow personalized plans for each educator to address the educator’s specific needs identified in observation or other feedback;
4. Improve classroom management skills;
5. Support the recruitment, hiring, and training of effective teachers, including teachers who became certified through State and local alternative routes to certification;
6. Advance teacher understanding of—
  - i. Effective instructional strategies that are evidence-based (as defined in this notice); or
  - ii. Strategies for improving student academic achievement or substantially increasing the knowledge and teaching skills of teachers;
7. Are aligned with, and directly related to, academic goals of the school or LEA;
8. Are developed with extensive participation of teachers, principals, other school leaders, parents, representatives of Indian tribes (as applicable), and administrators of schools to be served under this program;
9. Are designed to give teachers of English learners (as defined in the federal notice), and other teachers and instructional staff, the knowledge and skills to provide instruction and appropriate language and academic support services to those children, including the appropriate use of curricula and assessments;
10. To the extent appropriate, provide training for teachers, principals, and other school and community-based early childhood program leaders in the use of technology (including education about the harms of copyright piracy), so that technology and technology applications are effectively used in the classroom to improve teaching and learning in the curricula and academic subjects in which the teachers teach;
11. As a whole, are regularly evaluated for their impact on teacher effectiveness and student academic achievement, with the findings of the evaluations used to improve the quality of professional development;
12. Are designed to give teachers of children with disabilities (as defined in this notice) or children with developmental delays, and other teachers and instructional staff, the knowledge and skills to provide instruction and academic support services to those children, including positive behavioral interventions and supports, multi-tier system of supports, and use of accommodations;
13. Include instruction in the use of data and assessments to inform classroom practice;
14. Include instruction in ways that teachers, principals, other school leaders, specialized instructional support personnel, and school administrators may work more effectively with parents and families;

15. Involve the forming of partnerships with institutions of higher education, including, as applicable, Tribal Colleges and Universities as defined in section 316(b) of the HEA (20 U.S.C. 1059c(b)), to establish school based teacher, principal, and other school leader training programs that provide prospective teachers, novice teachers, principals, and other school leaders with an opportunity to work under the guidance of experienced teachers, principals, other school leaders, and faculty of such institutions;
16. Create programs to enable paraprofessionals (assisting teachers employed by an LEA receiving assistance under part A of title I) to obtain the education necessary for those paraprofessionals to become certified and licensed teachers;
17. Provide follow-up training to teachers who have participated in activities described in this paragraph that are designed to ensure that the knowledge and skills learned by the teachers are implemented in the classroom; or
18. Where practicable, provide for school staff and other early childhood education professionals to address jointly the transition to elementary school, including issues related to school readiness.
