Assessment Overview

Overview for districts describing in detail the assessment, its use and how the vendor supports implementation of the assessment.

Exact Path personalizes instruction by offering evidence-based adaptive diagnostic assessments and individualized learning paths for K–12 grade students in mathematics. Available as stand-alone tools or in combination, our award-winning assessment pinpoints each student's precise strengths, needs, and academic readiness, while learning paths create a unique academic instructional plan to accelerate growth goals and facilitate targeted support and intervention.

Adaptive assessments for K-12 prioritize accuracy and efficiency to report academic skill readiness and growth over time. By identifying learners' strengths and needs, regardless of grade level, and adapting in real time, you can pinpoint where your students are ready to learn and who may need targeted intervention services.

Designed to help you personalize learning:

- Evaluating K–12 students on an objective and valid psychometric scale of learning.
- Providing a valid measure of student growth upon each successive administration.
- Built by experienced, in-house subject matter experts and psychometricians.
- Delivering Quantile® measures from our math assessments.
- Quantifying national percentile rank to support score interpretation based on national norms.
- Reporting on grade-level proficiency to indicate below, approaching, meets, or exceeds seasonal expectations.

Edmentum's team of experts are committed to supporting educators with a flexible partnership that values customer relationships. Through thoughtful consultation and monitoring, we focus on driving toward results and meeting implementation goals. Our dedicated team is there when you need us ready to design and deliver services tailored to your unique needs. Our partnership commitment includes:

- Implementation planning
- Prelaunch to launch project management
- Student rostering and single sign-on support
- Professional learning, coaching, and mentoring
- Ongoing support, adoption monitoring, and recommendations for optimization
