Teacher Performance Evaluation Rubric

The **Teacher Performance Evaluation Rubric** is to be scored holistically. This means evaluators will assess which level provides the best *overall* description of the teacher. The rating process is to occur on completion of each 30-minute observation and post-conference. To determine the rating for each 30-minute observation, the evaluator is to consider evidence gathered during the pre-conference, observation, post-conference and classroom walkthroughs, if applicable. Note that when completing the performance rubric, evaluators are not expected to gather evidence on all *indicators* for each observation cycle. Likewise, teachers may, but are not required to, bring additional pieces of evidence to address all *indicators*. The professionalism section of the rubric may use evidence collected during the pre-conferences and post-conferences as well as information from the Professional Growth and/or Improvement Plan, if applicable.

					contributions of families, colleagues and/or other professionals to understand each student's prior knowledge while supporting the student's development.
	Connections to state standards and district priorities Element 2.3 Element 4.1 Element 4.7	The teacher's instructional plan does not reference Ohio's Learning Standards.	The teacher's instructional plan references Ohio's Learning Standards, but goals and activities do not align with student needs, school and district priorities or the standards.	The teacher's instructional plan incorporates activities, assessments and resources, including available technology, that align with student needs, school and district priorities, and Ohio's Learning Standards.	The teacher's instructional plan incorporates activities, assessments and resources, including available technology, that align with student needs, school and district priorities, and Ohio's Learning Standards. The teacher participates in studying and evaluating advances in content and/or provides input on school and district curriculum.
KNOWLEDGE OF STUDENTS (Standard 1: Students, Standard 4: Instruction, Standard 6: Collaboration and Communication) Possible Sources of Evidence: analysis of student data, pre-conference, artifacts, student surveys	Planning instruction for the whole child Element 1.2 Element 1.4 Element 1.5 Element 4.2 Element 4.4 Element 6.4	The teacher's instructional plan makes no connections to and the teacher is not familiar with student experiences, culture, developmental characteristics or backgrounds.	The teacher's instructional plan makes minimal connections to student experiences, culture, developmental characteristics or student backgrounds.	The teacher's instructional plan reflects connections to student experiences, culture and developmental characteristics. These may include prior learning, abilities, strengths, needs, talents, backgrounds, skills, language proficiency and interests.	The teacher's instructional plan reflects consistent connections to student experiences, culture and developmental characteristics. These may include prior learning, abilities, strengths, needs, individual talents, backgrounds, skills, language proficiency and interests. The instructional plan draws upon input from school professionals and outside resources.

LESSON DELIVERY (Standard 2: Content, Standard 3: Assessment, Standard 4: Instruction, Standard 5: Learning	Communication with students Element 2.2 Element 4.3 Element 4.6 Element 6.1	The teacher does not communicate learning goals and expectations for mastery and does not model exemplary performance to students. Students cannot discern learning goals. Differentiated learning goals are not used.	The teacher inconsistently communicates learning goals, expectations for mastery and models of exemplary performance to students. There is limited use of differentiated learning goals.	The teacher is consistent and effective in communicating appropriate, needs-based, differentiated learning goals, expectations for mastery and models of exemplary performance to students.	The teacher is consistent and effective in communicating differentiated learning goals (such as needs based, interest based, strength based), expectations for mastery and models of exemplary performance to students through multiple communicatio techniques.
Environment, Standard 6: Collaboration and Communication) Possible Sources of Evidence: pre-conference, post-conference, formal observation, classroom walk- throughs/informal observations, peer review		The teacher does not demonstrate content knowledge by using content-specific, developmentally appropriate language or content-specific strategies. There is no student engagement.	The teacher demonstrates some content knowledge by using limited content-specific, developmentally appropriate language and limited content-specific strategies. Students demonstrate little engagement in the lesson.	The teacher consistently demonstrates content knowledge by using content-specific, developmentally appropriate language and content-specific strategies to engage students. The teacher's communication strategies and questioning techniques check for understanding and encourage higher-level thinking.	The teacher consistently demonstrates content knowledge by using content-specific, developmentally appropriate language and content-specific strategies to engage students. The teacher's communication strategies and questioning techniques engage students in higher-level and creative thinking and stimulate student-to-student interactions.
		The teacher does not give students feedback.	Feedback to students is general, occasional or limited and may not always support student learning.	The teacher gives students substantive, specific and timely feedback to support their learning.	The teacher gives students substantive, specific and timely feedback to support individual student learning. The teacher gives students opportunities to engage in self-assessment, provide feedback to each other and reflect on their own strengths and challenges.

		CTION AND ASSESSMENT

		Ineffective	Developing	Skilled	Accomplished
	Monitoring student understanding Element 3.2 Element 3.3	The teacher fails to monitor and address student confusion and misconceptions.	The teacher inconsistently monitors or incorrectly addresses student confusion and misconceptions.	The teacher consistently monitors and addresses common student confusion and misconceptions by presenting information in multiple formats and clarifying content as he or she sees challenges.	The teacher consistently monitors, addresses, articulate and anticipates individual student confusion or misconceptions by presenting information in multiple formats and clarifying content as he or she sees challenges.
LESSON DELIVERY (continued)	Student-centered learning Element 3.5 Element 4.5 Element 4.6 Element 5.3 Element 5.4	Learning is entirely teacher directed. Students are not participating in learning activities.	Learning is primarily teacher directed. Students participate in whole class learning activities.	Learning is a balance between teacher-directed instruction and student-directed interaction as students apply their knowledge and skills as developmentally appropriate. The teacher effectively combines collaborative and whole class learning opportunities to maximize student learning.	Learning is primarily self-directed with the teacher in the role of facilitator encouraging students to apply their knowledge and skills as developmentally appropriate. The teacher encourages students to persist in the learning tasks. The teacher effectively combines independent, collaborative and whole class learning opportunities to maximize student learning.
		There are no opportunities for student choice about what will be learned and how learning will be demonstrated. There is no evidence of differentiated instructional strategies or resources.	There are few opportunities for student choice about what will be learned and how learning will be demonstrated. The teacher uses limited differentiated instructional strategies or resources.	Teacher gives opportunities for student choice about student learning paths or ways to demonstrate their learning. Teacher uses differentiated instructional strategies and resources for groups of students.	Teacher routinely promotes opportunities for students to actively take part in developing goals toward mastery, and students are responsible for deciding how to demonstrate their learning. Instructional strategies, pacing and resources are differentiated to make the lesson accessible an challenging for all students, while supporting the various learning needs of individual students.
