Department Approval Information

[Gifted Student: Identification](#)

Superior Cognitive Ability and Creative Thinking Ability (intelligence test component)

Grades: 2-12

Assessment Overview

Overview for districts describing in detail the assessment, its use and how the vendor supports implementation of the assessment.

All Ohio LEA's will have access to our Customer Care team with members from Customer Service, Scoring Service, Research, Technology, Publishing, and Product Management form our core Customer Care team. Working together, this team ensures that every customer receives personal, helpful, and timely response regardless of whether service is requested though the website, email or through a phone call.

DRC provides onsite and virtual trainings, staff development workshops, and post-data workshops to ensure that customers administer the InView Test of Cognitive Abilities properly and understand and use test results effectively. In addition to staff development workshops DRC also provides customer phone and email support during test administrations. The DRC Scoring Team also works with customers across Ohio and the country before, during, and after test administration to ensure that student data is properly prepared, scored, and delivered efficiently.

DRC's InView Test of Cognitive Abilities, an innovative cognitive abilities assessment, comprises five tests that reliably measure skills and abilities important for academic success. Educators use InView results to help plan effective programs for students, diagnose possible learning disabilities, and screen students for placement into special programs. InView was standardized to include students with disabilities and to provide age- and grade-appropriate normative data. When used with TerraNova, InView provides Anticipated Achievement scores—i.e., actual and expected scores for individual students and groups. These scores allow educators to compare their students' achievement with that of other students of the same age, grade, and ability.

DRC supports large-scale assessments with timely customer response and ethical practices. DRC has a dedicated team of resources for responding to any and all customer inquiries. Your local team includes an Ohio based Assessment Solutions Consultant, Jon Weiss, and a National Sales Manager, Christi Linton, who provide consultative direction during all aspects of implementation. We look forward to supporting Ohio in your expectation of excellence.
