

DIABETES MEDICAL MANAGEMENT PLAN

Diabetes Medical Management Plan (DMMP)

This is another term for “medical orders.”

Diabetes Medical Management Plan (DMMP)

- Basis for all school-based diabetes care plans
- Developed by:
 - Student's personal health care team
 - Parent/guardian
- Signed by a prescriber

Diabetes Medical Management Plan (DMMP)

- Is implemented collaboratively by:
 - School nurse
 - Student
 - Parent/guardian
 - Administrator
 - Trained school employees

DMMP – Medical Orders Should Include:

- Emergency contact information
- Blood glucose and ketone monitoring
- Insulin or other medication administration
- Glucagon administration
- Physical activity
- Treatment of hypoglycemia and hyperglycemia

Other Written Plans that Support the DMMP

- Emergency Action Plan (EAP)
- Individualized Healthcare Plan (IHP)
- 504 plan
- Individualized Education Program (IEP)
