Ohio Checklist of Artistic Behavior – Dance

INTRODUCTION

State law requires school districts to identify students who are gifted in grades K-12 in the visual and performing arts. Districts shall identify students as gifted in the area of visual or performing arts ability when a student demonstrates superior ability through a display of work, audition, or other performance or exhibition and also obtains a qualifying score on an approved checklist of behaviors related to a specific arts area. The *Ohio Checklist of Artistic Behavior – Dance* is an approved checklist of artistic behavior related to the specific area of dance for students in grades 9-12 and ages 14 years and older.

All personnel developing district identification procedures and trained individuals involved in the screening and identification of students who are gifted in the area of dance should read the Visual and Performing Arts Handbook.
