

# Online 2019 Roster Verification Training

During roster verification each year, schools validate which teachers teach what subjects to which students. As a result, teachers receive value-added student growth measure information to help with instructional planning. Whether you are new to — or experienced with — the process, there is online training to support you.

## Who Should Participate?

Building-level leaders, educational service center staff, teachers and those who provide professional development are encouraged to join in a session geared to meet their individual needs. View information about which teachers (by grade and subject area) will be part of roster verification [here](#).

**Special note** – Recordings of all webinars also will be accessible for on-demand playback [here](#).

Audience	Date and Time	Registration Link
All Participating Principals	On Demand (Available now, updated after 3/15)	<a href="#">Learning Module</a>
All Participating Teachers	On Demand (Available now, updated after 3/15)	<a href="#">Learning Module</a>
