

Learning Management System

for Ohio Education

The Ohio Department of Education's system of **free online courses and professional development** on important state education initiatives for teachers and administrators is now available.

Don't miss valuable information because you can't attend state workshops or regional meetings.

- **You** choose the time and place. Courses are available 24/7.
- **You** learn directly from state experts on topics most important to your success as an Ohio teacher.
- **You** create an e-portfolio to keep all materials.

To take a look, follow these simple steps.

1. Go to **education.ohio.gov** and find login at the top of the homepage.
2. Sign in with your OH|ID or MyOhio account.
3. Find and click on the Learning Management System link. No additional password required.
