

What state science test should students be taking in 2015-2016?

Grade 6, 7 or 8 Student	<i>Enrolled in:</i>				
	A course where the eighth grade science content is completed.	Physical science or other high school course that is not biology.		High school biology course.	
	Takes the eighth grade science test. <i>Student does not need to be formally accelerated to take the test in grades 6 or 7 but should have completed the grade 8 content.</i>	Takes the eighth grade science test, unless test was taken in previous year(s).		Takes the biology end-of-course test.	
Grade 9 Student	<i>Enrolled in:</i>				
	Physical science this year, biology next year.	Physical science this year, already completed biology.	Biology this year.	Advanced Placement (AP) or International Baccalaureate biology course this year.	College Credit Plus biology course this year.
	Takes no end-of-course test. Will take biology end-of-course test when course is taken.	Takes no end-of-course test. Student uses automatic graduation points or points based on course grade or completion toward graduation requirements.	Takes the biology end-of-course test.	Takes the biology end-of-course test. Student may use points from either the AP or IB exam grade or biology end-of-course test for points toward the graduation requirements.	Takes the biology end-of-course test. Student may use the points from either the College Credit Plus course grade or the biology end-of-course test for points toward graduation requirements.
Grade 10 Student	<i>Enrolled in:</i>				
	Biology now, completed physical science last year.	Physical science this year, already completed biology.	Biology this year, not taking physical science.	An Advanced Placement or International Baccalaureate biology course this year.	In a College Credit Plus biology course.
	Test options: keep score from last year's physical science test, retake the physical science test to obtain a higher score, or take biology end-of-course test.	Takes no end-of-course test. Student uses automatic graduation points or points based on course grade or completion toward graduation requirements.	Takes the biology end-of-course test.	Takes the biology end-of-course test. Student may use points from either the AP or IB exam grade or biology end-of-course test for points toward the graduation requirements.	Takes the biology end-of-course test. Student may use the points from either the College Credit Plus course grade or the biology end-of-course test for points toward graduation requirements.
Grade 11 or 12 Student	<i>Enrolled in all science courses:</i>				
	Takes Ohio Graduation Test in science, does not take end-of-course test.
