Purpose

The Resource Book is a reference for district personnel responsible for duties associated with these state tests:

- [Ohio's State Tests \(OST\)](#)
- [Alternate Assessment for Students with the Most Significant Cognitive Disabilities \(AASCD\)](#)
- [Ohio English Language Proficiency Screener \(OELPS\)](#)
- [Ohio English Language Proficiency Assessment \(OELPA\)](#)
- [Alternate Ohio English Language Proficiency Assessment \(Alt-OELPA\)](#)
- [Diagnostic Assessments](#)
- [Kindergarten Readiness Assessment Revised \(KRA-R\)](#)
- [State-Funded ACT Tests | Ohio Department of Education](#)
- [State-Funded SAT Tests | Ohio Department of Education](#)
- [Reimbursement-for-WorkKeys-Tests](#)
- [Dropout Prevention and Recovery Assessments](#)

The Resource Book provides an overview of the K-12 testing program requirements and access to many helpful resources pertaining to state policy. It does not include information on test administration procedures or technical system requirements. That information and other resources can be found in the Resources section of [Ohio's Assessment System Portal](#).

Administration of State Tests

The following information applies to the appropriate state test as noted for OST, AASCD, OELPS, OELPA, Alt-OELPA and Diagnostics.

Accelerated Students

For information on testing requirements for accelerated and gifted students, please see the [Academic Acceleration for Advanced Learners](#) page of the Department's website. In accordance with [Ohio law](#) each district must either adopt [Ohio's Model Student Acceleration Policy for Advanced Learners](#) or must submit its own plan to the Department for accelerated students.

Accessibility for State Tests

[Ohio's Accessibility Manual](#) for the OST and AASCD and the [Accessibility Manual for Ohio's English Language Proficiency Assessments](#) for the OELPS, OELPA and Alt-OELPA describe the accessibility features available for students with disabilities and English learners, respectively. These manuals discuss the administrative considerations, universal tools, designated supports and accommodations available to students participating in Ohio's state assessments.

Exceptions to Online Testing

Ohio's state assessments are online tests for all students, with very few exceptions. Information on these exceptions is found on the Department's website: [Exceptions to Online Testing](#).

Graduation Requirements

State testing requirements for graduation differ according to factors such as when a student is expected to graduate or when a student enters high school. [Ohio's Graduation Requirements](#) webpage provides detailed information on the pathways and options. Decisions regarding whether to allow students who have not met graduation requirements to participate in graduation ceremonies are handled at the local level.

Home Instruction

Home instruction refers to a student who is enrolled in a district but who is *temporarily* receiving instructional services at home, often for health reasons. Any student receiving home instruction is required to take state tests. This includes students attending a public district remotely or in an online program. Administration of tests to home instruction students must follow the same rules and procedures as in school administrations. Tests may be administered in a student's home if they are administered by a test administrator who is an employee of the district and holds a license, certificate or permit issued by the Department. All test security procedures must be followed, including making sure that the test location is free of "clues" that would aid the student in taking the test (for example, removing or covering maps and charts).

Home Schooling

Parents who educate their children at home agree to provide an assessment of the student's work to the local school district's superintendent, which may or may not include Ohio's statewide tests. Information about the assessment requirements of home schooling is available in [Ohio Administrative Code 3301-34-04](#). Visit the Department's [Home Schooling](#) webpage for more information about home education.

Operational Tests, Field Tests, and Practice Tests

The following information defines certain terms referring to aspects of the state testing program.

Operational tests are administered to all eligible students in Ohio and are scored to determine grade-level performance and subject-area mastery. A student's score is the result of the student's performance on the questions within the operational test. Operational tests are secure and must be handled as such by school and district personnel before, during and after testing.

Field tests or field-test items are administered to a representative sample of Ohio students to gather data about the performance of potential test questions for inclusion on future operational tests. Field testing may take place through items embedded within an operational test or in a separate test administration. Performance on field-test items does not count when determining the student's achievement level. Field-test questions are secure, just as the operational tests are secure.

Practice tests for the OST, AASCD, OELPA and Alt-OELPA are available on each test home page on the [test portal](#). The online practice items give students the opportunity to navigate through the online testing system, use the available tools and features and familiarize themselves with the testing experience. These practice tests are not secure. [OST paper practice tests](#) (including large print) may be printed and photocopied for local use. [Braille versions](#) of the OST practice tests are available for grades 3-8 and high school end-of-course tests.

Participation Policy

Ohio law requires public school districts and community schools to administer the state assessments assigned to each student's enrolled grade level or course, regardless of the student's time in Ohio public schools. There is no process allowing parents and/or students to indicate their choices to not participate in state testing. Schools must account for and report any student who did not participate in a required state test.

Test Administrators, Monitors, and Proctors

Information about the criteria for test administrators can be found in the [Test Administration Manual](#).

Please see the [Kindergarten Readiness Assessment Revised \(KRA-R\)](#) and the [Alternate Assessment for Students with the Most Significant Cognitive Disabilities \(AASCD\)](#) web pages for additional requirements for the test administrators of these tests.

Monitors and proctors are responsible adults other than licensed, certificated or permitted school personnel. Student teachers may serve as monitors or proctors. Use of parents as monitors or proctors is not recommended, and parents may not monitor the testing of their own children (unless that parent is a teacher who has their own child as a student and district policy makes no provision for other arrangements).

Test Dates

Please visit the Department's [Testing Dates](#) webpage for this year's testing dates.

Test Records for Transfer Students

Whenever a student in one Ohio school leaves that school to enroll in another school in the same or a different district, the school last attended must provide, within five school days upon receiving the request by a school official at the new school, all applicable student records including all state test information and the Statewide Student Identifier (SSID) to the requesting school or district. These records may not be withheld for any reason unless there is more than \$2,500 or more of outstanding debt attribute to the student. All records must be transmitted once that debt is paid.

Ohio's State Tests (OSTs)

The following information applies only to Ohio's State Tests.

Assessment Authoring

The Assessment Authoring system is a test creation system that enables teachers to create their own tests from a large bank of Ohio test questions and aligned to Ohio's Learning Standards, including grades 4 and 6 social studies and high school physical science. Assessment Authoring allows test sharing and collaboration with other educators. The tests created in Assessment Authoring can be administered online with the same system Ohio educators and students use for Ohio's State Tests [Test Delivery System (TDS)] or administered as paper test booklets. Teacher-authored tests are not secure tests.

More information on Assessment Authoring can be found on the [portal](#).

Readiness Assessments

The [Readiness Assessments](#) are a suite of optional online assessments educators can use in grades 3 through high school to evaluate student achievement in English language arts, mathematics, science and social studies. Administered with the same system Ohio educators and students use for Ohio's State Tests (TDS), these resources help schools and districts identify student progress early and provide rapid, actionable performance data. The Readiness Assessments are not secure tests.

Benchmark Tests. The first component of the Readiness Assessments are benchmark tests—full-length assessments that mirror the content and test characteristics of the OSTs in terms of length, test specifications, blueprints and tools available to students (such as the DESMOS calculator). Because the benchmark tests reflect Ohio's State Tests, they serve as strong predictors of student performance and help identify instructional lags that may need remediation. Student performance results are reported in the [Centralized Reporting System](#) which includes tools to assist teachers in understanding and using the performance data. To aid teachers in connecting assessment results with instruction, the Department also provides resources specific to each benchmark test, including instructional strategies, content information and learning activities.

Checkpoint Assessments. The second component of the Readiness Assessments are checkpoint assessments, each of which consists of six to 10 items and focuses on Ohio's Learning Standards for a reporting category. The checkpoint assessments provide useful information in gauging students' knowledge and performance within each reporting category.

Released Test Items

The Department releases 40% of the spring operational test items for each OST and the AASCD following the school year in which they were administered. This partial release of items gives educators insight into the kinds of questions their students encounter, and released items are useful tools that inform classroom instruction. Both teachers and parents may use the released items to help students prepare for future state tests.

[Item Release Scoring Guides](#) and [released test items](#) are available under Resources on the Ohio's State Test Portal. The scoring guides include the Ohio Learning Standard associated with each test item, the scoring rubrics and the item annotations. Scoring guides also show examples of student responses to illustrate actual work and the corresponding points earned.

The released items and scoring guides are protected by copyright laws and may be used for nonprofit educational use only. Any agency, group or person that wishes to use the Ohio released items must contact the Office of Assessment for permission. If any cost, direct or indirect, is involved with the proposed use of the released test items, permission will not be granted.

Retake Policy for End-of-Course Tests

Students may retake any end-of-course test prescribed in [Ohio law](#). More information about retaking end-of-course tests can be found in the Resources section on the [Testing](#) page on the Department's website.

Transfer and Foreign Exchange Students

All enrolled foreign exchange students must take the same state tests that any peer in their classes or courses would take.

According to [Ohio Law](#) and the [Ohio Administrative Code](#), any foreign exchange student to whom all of the following apply is not required to take any American history or American government end-of-course test:

- is not a citizen of the United States;
- is not a permanent resident of the United States; and
- indicates no intention to reside in the United States after completing high school.

Testing Requirements for Chartered Nonpublic Schools

Information on applicable testing requirements for students in chartered nonpublic schools is found on the Department's [Chartered Nonpublic Schools Information](#) webpage. Students without an SSID who attend chartered nonpublic schools must have a student ID to participate in state testing. More information is found here: [Chartered Nonpublic Student Identifiers for State Tests](#).

State-Funded ACT/SAT Tests

State law requires districts and community schools to administer the state-funded ACT or SAT to all

grade 11 students in the spring of the school year. Each year, districts and schools will select the test to administer to their juniors.

Please visit the Department's webpage for additional information and resources.

- [State-Funded ACT Tests | Ohio Department of Education](#)
- [State-Funded SAT Tests | Ohio Department of Education](#)

Reimbursement for WorkKeys Tests

- WorkKeys is an industry-recognized, application-based assessment used to measure work readiness and can be used to satisfy components of Ohio's graduation requirements.
- State law provides each student in Ohio the opportunity to take the WorkKeys test one time while in high school.
- The Ohio Department of Education will reimburse districts for each student to take all three parts of the test one time.

Please visit the Department's webpage for additional information and resources.

- [Reimbursement for WorkKeys Tests](#)

Dropout Prevention and Recovery Assessments

- Community schools that serve a majority of their students through dropout prevention and recovery programs must prepare students to meet the same requirements as students in other traditional public school districts.
- Dropout prevention and recovery schools must also administer vendor assessments in English language arts and mathematics twice per year to generate student growth reports per state law.
- Dropout prevention and recovery schools must test all students in grades 9 and higher who enroll at the beginning of the school year within the first few weeks of the school year.

Please visit the Department's webpage for additional information and resources.

- [Dropout Prevention and Recovery Assessments](#)

English Learners and State Tests

Please visit the Department's [English Learners](#) webpage for additional information and resources.

English Language Proficiency Assessment System

Ohio has three English language proficiency assessments:

- the Ohio English Language Proficiency Screener (OELPS);
- the Ohio English Language Proficiency Assessment (OELPA); and
- the Alternate Ohio English Language Proficiency Assessment for English Learners with the Most Significant Cognitive Disabilities.

These assessments are aligned to [Ohio's K-12 English Language Proficiency Standards](#).

- Please visit [Ohio's Assessment System Portal for OELPS, OELPA, and Alt-OELPA](#) for additional information and resources including practice tests and tutorials.
- Please see the [Guidelines for Identifying English Learners](#) and the [OELPS](#) webpage for more information on identifying English Learners.
- Please see the [OELPA](#) webpage for information on the annual summative assessment. English Learner program [exit criteria](#) is based on OELPA results.

- Please see the [Alt-OELPA](#) webpage for information on the annual summative assessment of English learners with the most significant cognitive disabilities.

English Learners Who Transfer

When students transfer from other districts or schools, districts must determine the student's English learner status within 30 days of enrollment. [Ohio defines enrollment](#) as the date on which the school has both received documentation of enrollment and the student has commenced participation in learning opportunities. Please refer to the [Guidelines for Identifying English Learners](#) and the [OELPS Frequently Asked Questions](#) for more information, including information about students who transfer from another state.

Students with Disabilities and State Tests

The federal [Individuals with Disabilities Education Improvement Act \(IDEA\)](#) reflects the intent to extend educational accountability and reform to all students, including those with disabilities. This legislation, along with the federal [Every Student Succeeds Act \(ESSA\)](#) and [Ohio law](#), mandates that all students with disabilities be included in state and district testing programs and that they take the OST with or without accommodations or an alternate assessment (AASCD). Each district must have a policy to ensure the [participation of students with disabilities in required statewide tests](#). Chartered nonpublic schools must also have a plan for participation of [students with disabilities attending chartered nonpublic schools](#).

Ohio's [Alternate Assessment for Students with the Most Significant Cognitive Disabilities \(AASCD\)](#) is aligned to [Ohio's Learning Standards–Extended \(OLS-E\)](#) and allows students with the most significant cognitive disabilities to demonstrate their knowledge and skills on an appropriately rigorous assessment of academic skills. The [Alternate Assessment Portal](#) includes guidance to assist Individualized Education Program (IEP) teams when determining eligibility for participation in the alternate assessment including [Frequently Asked Questions about Student Participation and Eligibility document](#) and a [decision-making tool](#). [Practice tests for the AASCD](#) are available on the AASCD portal.

Third Grade Reading Guarantee

Information, including the Guidance Manual for the Third Grade Reading Guarantee, is found on the [Third Grade Reading Guarantee](#) web page. For questions on the Third Grade Reading Guarantee and Vendor Diagnostics, email thirdgradequarantee@education.ohio.gov.

Diagnostic Assessments

All districts are required to administer a reading diagnostic test in the spring and fall of each year to students in kindergarten through third grade. Additional information and resources are found on the [Diagnostic Assessments](#) webpage.

Kindergarten Readiness Assessment Revised (KRA-R)

Public districts and schools are required to administer the [Kindergarten Readiness Assessment Revised \(KRA-R\)](#) to all first-time kindergarten students. Information and resources for this assessment are available on the KRA webpage.

Test Security

All district and school personnel are responsible for ensuring the security of the individual test questions by following all written district and state security policies. The responsibility to maintain test security

exists before, during and after test administration. As directed by [Ohio Administrative Code](#), all districts must have a written policy to assure test security by October 1 of each school year. Test security information is in the Test Administration Manuals for each test. Test [security training resources](#) and a comprehensive document titled “[Ohio Test Security Provisions and Procedures](#)” are available on the [Testing](#) page under Resources on the Department’s website.

Breach Forms

When invalidation of a student test or score is necessary, another form of the test (breach form), if available, may be used to readminister the test. A breach administration is only appropriate in the event of issues interfering with the standardization of testing materials or test administration conditions. Incidents of cheating, including the copying, sharing and posting of tests or test items, does not allow for a breach test administration. Incidents that are caused by acts of nature, the Department or the test contractor and require an administration of a breach form are at the state’s expense. Breach forms are available for the Grade 3-8 (spring only) and high school (fall and spring only) OSTs. Further breach guidance is available in the OST [Test Administration Manual](#).

State and Federal Accountability

State testing programs provide student performance data and participation rates that inform many components of the [state and federal accountability system](#). In addition, the [EMIS manual](#) for the state’s Education Management Information System details specific codes and how they are used in [Ohio School Report Cards](#).

Department Web Resources

Topic	Content Description
Alternate Assessment for Students with the Most Significant Cognitive Disabilities	Information and resources about the Alternate Assessment for Students with the Most Significant Cognitive Disabilities (AASCD)
Diagnostic Assessments	Information and resources for the Diagnostic Tests in reading, mathematics and writing
Kindergarten Readiness Assessment Revised (KRA-R)	Information and resources for the Kindergarten Readiness Assessment Revised (KRA-R) given to all first-time kindergarten students starting the first day of July of the school year and not later than the twentieth day of instruction of that school year
English Learners (EL)	Information and resources on English learners from the Office of Whole Child Supports
Test Coordinator Newsletter	Links to current and archived copies of the Test Coordinator News newsletter
Ohio English Language Proficiency Assessment (OELPA)	Information about the annual measure of English language proficiency required for all English Learners (ELs)
Ohio English Language Proficiency Screener (OELPS)	Information about the screening tool used to identify students as English Learners (ELs)
Alternate Ohio English Language Proficiency Assessment (Alt-OELPA)	Information about the annual measure of English language proficiency for English Learners with the most significant cognitive disabilities
Ohio Graduation Tests (OGT)	Information for those that need to pass one or more subjects of the now discontinued Ohio Graduation Tests (OGT)
Ohio's State Tests (OST)	Information and resources for the English Language Arts, Mathematics, Science and Social Studies tests
Statewide Student Identifier (SSID)	State Student Identifier (SSID) policy, <i>SSID Users' Manual</i> , SSID requirements
Test Dates	Dates of current and future test administrations
Third Grade Reading Guarantee (TGRG)	Information and resources on the Third Grade Reading Guarantee that identifies students from kindergarten through grade 3 who are behind in Reading
List of Approved Assessments	Information about alternate 3-8 and high school assessments for chartered nonpublic schools and approved assessments to meet other testing requirements
