**Ohio**  
School Report Cards

The Ohio General Assembly amended Ohio's accountability law in the summer of 2021. Schools and districts now receive an overall rating and star ratings for five components. Additional information on the changes to the accountability system can be found on the Department's [Report Card Resources webpage](#).

Report Cards are designed to give parents, communities, educators and policymakers information about the performance of districts and schools — to celebrate achievement and success and identify areas for improvement. The information provides clear and easily available reporting on student performance, drives local conversations on school improvement and identifies schools to receive supports for getting better. The goal is to ensure all students receive an excellent education that can lead to success in life, careers and future learning.

Report cards are only one part of the story about what is happening in schools and districts. To get a more complete picture, we encourage you to visit schools, talk to educators, parents and students, and review the school's or district's webpage. A lot of great things are happening every day in Ohio's schools!

### Career & Post-Secondary Readiness

Whether training in a technical field or preparing for  
work or college, the Career and Post-Secondary  
Readiness component looks at how well-prepared  
Ohio's students are for all future opportunities.

Exceeds state standards in  
Career & Post-Secondary  
Readiness

View More Data

### Post-Program Outcomes

Post-Program Outcomes component looks at the  
proportion of students who are employed, in an  
apprenticeship, join the military, enter a service  
program, or are enrolled in postsecondary education  
or advanced training in the six months after leaving  
school. Industry credentials measure the proportion  
of students earning industry credentials before they  
leave high school or in the first six months after  
leaving school.

★★★★★  
Meets state standards in technical and academic achievement.

## Achievement

The Achievement component measures the skills and knowledge learned in student's career-technical programs using aligned technical assessments and academic achievement using each level of performance on Ohio's State Tests.

### Technical Skill Attainment

Technical Skill Attainment measures the proportion of students passing technical assessments. These assessments are designed to measure the skills and knowledge learned in a student's career-technical program.

### Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. This includes results in English language arts, mathematics, science and social studies. There are seven levels on the index and CTPDs receive points for every CTE concentrator who takes a test. The higher the achievement level, the more points awarded in the CTPD's index. This rewards CTPDs for improving the performance of all students, regardless of achievement level.

Calculation [Pie Chart](#)

Achievement Level	Pct of Students		Points for this Level	=	Points Received
Advanced Plus	0.8	X	1.3	=	1
Advanced	13.4	X	1.2	=	16.1

## Federal Accountability Results

Career-Technical Planning Districts are accountable to the U.S. Department of Education for nine measures as required by the Carl D. Perkins Career and Technical Education Act. Career-Technical Planning Districts have local targets for each of these measures. Full descriptions of the measures can be found on the Office of Career-Technical Education website.

### Overview

**88.9%**

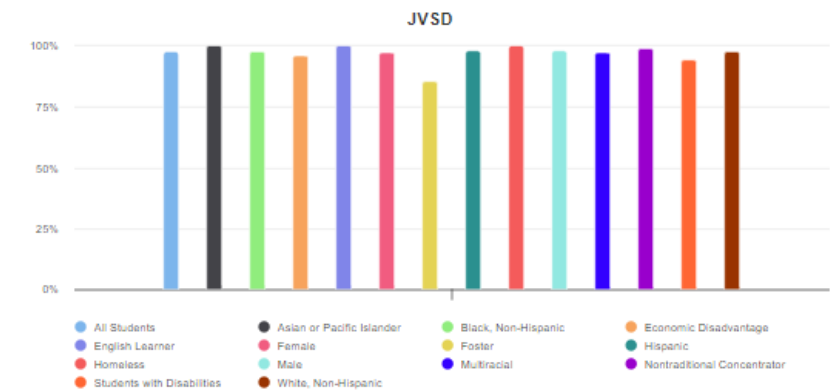

Met 8 out of 9 Federal Indicators

CTPD	Met/Not Met
1S1: Four-Year Graduation Rate	97.9%
